During April, the COVID-19 pandemic began to be less impactful to public safety operations. Personnel in 1-A continued to get vaccinations and a tally of those receiving the injection was maintained. Over 80-% plus of eligible staff voluntarily we administered various vaccine options. The Captains kept in contact with staff and assisted in coordination of this effort. Many staff members have also received their second dose and the two-week time period has evolved post vaccination for them to be considered fully vaccinated.

I also continued to follow the statewide statistics on the Department of Health dashboard. During the month, infection rates continue to trend downward. Public safety personnel continued the strict universal precautions protocols we initiated in the early months of 2020. Work from home policies was liberally permitted for staff whose job responsibilities, and technology would allow that practice. As continued practice from 2020, we maintained the highest levels of safeguard to the public and our public safety personnel who may be exposed to citizens infected with the virus.

Much of my time, as Director and Emergency Management Coordinator, continued to focus on monitoring the public safety preparedness and response to the potential virus impact to the employees and the Lower Allen Community. I also monitored the PEMA, FEMA, and county EMA releases daily. Public Safety Planner Strawser and I continued to meet via TEAMs as he works on various annex plans to our EOP.

The highlights of April included:

April 9th – Attended the Central PA Chiefs meeting at Listrak in Lititz, PA.

April 12th, 13th, and 14th – Participated in the police candidate interview in Gorgas hall. Top candidates were then submitted for background investigations.

Attended numerous meetings throughout the month including Board of Commissioners, department head, Chiefs of Police, EMS Council, and staff meetings, and alarm standards meetings for the AVS-01 TMA ANSI standard development.

Respectfully Submitted,

David L Holl

Director, Department of Public Safety

Much like March, April continues the trend for high tempo, on both the administrative and street levels.

Officer Lightner continues to do well in field training and will be wrapping up in May. As of this writing, Officer Walters has resigned prior to the end of his probationary period. Officer Gelnett had announced his retirement, with a final date of August 31, 2021. Wheels have been put into motion to replace these two officers, along with filling the vacancy left by Lt. Thomas, which would have been the position planned for filling in July of this year.

Throughout the month, Captain Crone attended Police Command Staff meetings, a Police Department Supervisors' meeting, Board of Commissioners Meetings, Department Head Meetings, a County Chiefs' meeting, a Central Chiefs' meeting, range training, a mock assessment of the Penn Township PD, a meeting regarding civil unrest preparation, a Public Safety Captains' meeting, and various personnel-related meetings.

Command staff conducted police officer candidate interviews over the course of three days this month. Following this, background investigations commenced.

Captain Crone and Julie Echterling continue to prepare for the CALEA Annual Compliance Check, which begin April 30th. As of this writing, that assessment has concluded and preparation for year four of the cycle continued.

Our light-duty officer has returned to full-duty.

Torrie Shiley is the officer of the month for April. Ofc Shiley was active earlier in the month searching for vehicles involved in a burglary and looking for a File 5 subject. He made several attempts and was able to eliminate people and vehicles that were not involved.

Ofc Shiley was also quick to the scene in Rossmoyne Manor to assist Upper Allen Police with a fleeing vehicle. Ofc Shiley was able to locate the vehicle in short order. He parked the vehicle in and began looking for the occupants. He located the two males, taking custody of one and directing other officers to the second subject.

Ofc Shiley got a call for a welfare check on April 18. The call was to check on the welfare of a teenage male that texted a friend with suicidal ideations. Ofc Shiley arrived with Ofc Boldosser and contacted the teenager's mother. She was just going to check on him because he had sent her a text. Ofc Shiley asked to go upstairs with her based on the information he received. The teenager's mother opened a closet door and saw him hanging inside semi-conscious. Ofc Shiley made immediate entry to the room and lifted the teenager up releasing tension. Ofc Shiley directed Ofc Boldosser to come in the room and support the teenager, so he could get his knife and cut him down. He was able to do just that, and the teenager regained consciousness. He requested EMS (Emergency Medical Services) and the teenager was transported to for treatment.

Ofc Shiley's quick thinking and giving directions provided positive outcomes for both the fleeing suspects and teenager's welfare. Congratulations, Officer Shiley!

There was 1 Naloxone administration by police personnel in Lower Allen Township this month.

MONTHLY TOP 40 INCIDENT COUNT BY TYPE and SELECTED OFFICER LOG FIGURES

The most recent month figures are presented first, followed by last year's figures. In lieu of the multi-page listing, the two Top-40 charts were used. This, coupled with the monthly totals in other charts, creates a more succinct picture of police department activity. The Selected Officer Log Figures chart that follows the Incident Count charts are items that consume patrol resources but are not documented in incident reports.

Report prepared by:

Lt. Douglas L. Foltz
Bureau Commander of Operations

The pre-hospital professionals in EMS continued the delivery of clinical excellence while continuing to be the tip of the public safety response spear for the COVID-19 pandemic which has continued for 14 months. COVID-19 related responses continued during April with a decline in frequency and severity. EMS continues to remain vigilant and uncompromising on all patient safety issues while remaining as the dedicated healthcare safety net for the citizens of Lower Allen Township.

The continuing education programs started in March focusing on provider and patient safety and documentation were completed in April. These programs were completed without creating any additional staff hours.

EMS partnered with Fleet to develop and distribute Vehicle First Aid Kits for all non-public safety vehicles. EMS completed the project with no additional resources and the maintenance will not require any budgetary adjustment.

Lower Allen Township EMS will be hosting an Advanced Burn Life Support class sponsored by the American Trauma Society on Saturday June 26, 2021. This live, hands-on course is designed to provide the “how-to” of emergency care of the burn patient through the first 24-hour critical period. Following a series of lectures, case studies are presented for group discussion. Testing consists of a written exam and a practical assessment.

The process of implementing the Hexagon Mobile responder application continued with the development and assignment of education. EMS will begin using Hexagon Mobile Responder application on May 19, 2021.

The use of the Hexagon Mobile Responder application will enhance communication with Cumberland County communications.

The development of community paramedicine continues with the addition of follow-up for high-risk patient refusals. All patients who are Lower Allen Township residents and requested EMS the previous week but then chose to refuse transportation are contacted to ensure there are no unmet medical needs and they are safe.

EMS continues the on-going pursuit of perfection to ensure excellence with the implementation of National EMS Quality Assurance Alliance (NEMSQA) standards and the National Highway Traffic Safety Administration (NHTSA) EMS Compass Performance measures.

- National EMS Quality Assurance Alliance (NEMSQA) develops and endorses evidence-based quality measures for EMS and healthcare partners that improve the experience and outcomes of patients and care providers. National Highway Traffic Safety Administration (NHTSA) funded the EMS quality measure development, through a self-sustaining platform for the continued development of EMS Quality measures. NHTSA and Health Resources and Services Administration (HRSA) Emergency Medical Services for Children (EMS-C) program has engaged

the American College of Emergency Physicians (ACEP) to facilitate the development of a mechanism, organizational structure and sustainability model that enables meaningful assessment of EMS performance.

- The goal of EMS Compass is to help EMS systems measure and improve the quality of care at the local, regional, state, and national levels. EMS performance measures provide EMS agencies the ability to ensure they are providing high-quality, patient-centered care based on evidence-based practices.

The following standards will be evaluated, and data gathered for comparison during the remainder of 2021.

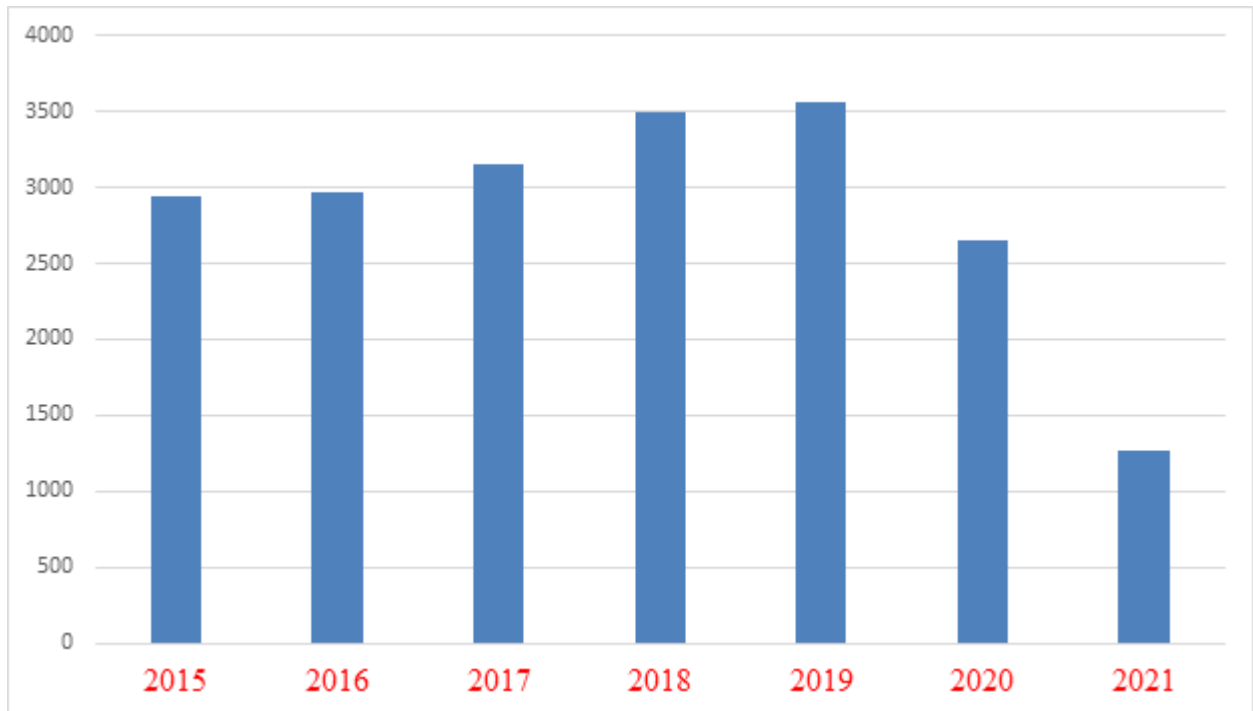

Measure	Description
Hypoglycemia-01	Treatment Administered for Hypoglycemia
Pediatrics-01	Pediatric Respiratory Assessment
Pediatrics-02	Administration of Beta Agonist for Pediatric Asthma
Seizure-02	Patient with Status Epilepticus Receiving Intervention
Stroke-01	Suspected Stroke Receiving Prehospital Stroke Assessment
Trauma-01	Injured Patients Assessed for Pain
Trauma-03	Effectiveness of Pain Management for Injured Patients
Trauma-04	Trauma Patients Transported to a Trauma Center
Safety-02	Use of Lights and Sirens During Transport
NHTSA 10.6	Transport Time Interval
NHTSA 7.0	12-Lead EKG Performance
NHTSA 8.0	Chest Pain Aspirin Administration

Captain Deaven participated in several Emergency Health Services Federation (EHSF), PA Bureau of EMS, Pennsylvania Emergency Health Services Council, Ambulance Association of Pennsylvania and Pennsylvania Fire and Emergency Services Institute meetings and education to ensure the continued development of the EMS system in Lower Allen Township.

Captain Deaven was one of eighteen (18) EMS professionals from Pennsylvania who participated in the National Association of Emergency Medical Technicians (NAEMT) Virtual “Day on the Hill” advocating for national EMS issues. The four (4) initiatives were Rural EMS Equipment and Training Assistance Program (REMSTEA), Protecting Access to Ground Ambulance Medical Services Act of 2021, EMS Counts Act, and Medicare reimbursement for treatment in place (TIP). Captain Deaven presented Medicare reimbursement for treatment in place (TIP) to become part of the Medicare fee schedule.

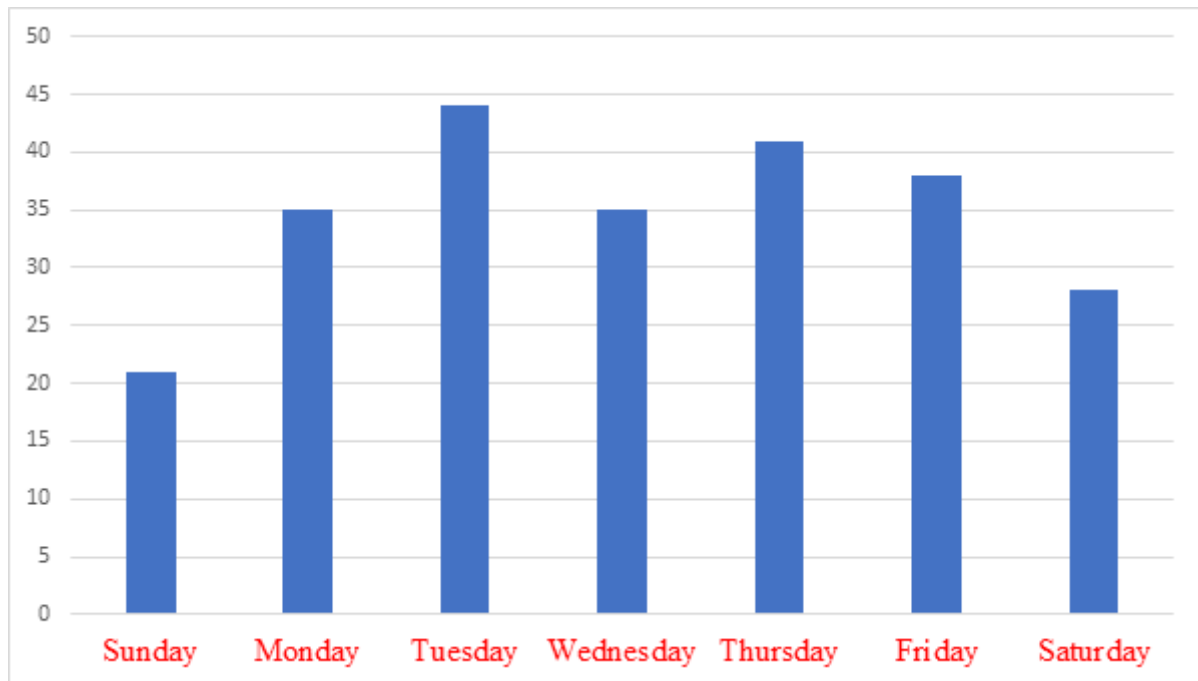

LATEMS continues to deliver high quality, effective, efficient, and safe patient care directly to the side of every patient in need of help. In April LATEMS touched the lives of **286** residents.
