There were 5 snow events during February. While these storms did not deliver more than 2 – 3 inches of snow at a time, and did not require much plow time, we did expend approximately 500 tons of road salt. During the month, 992 gallons of salt brine was used to pre-treat roads. Many of these small storms were too wet, to use the pre-treatment, but it is a great tool for the dryer types of snow. The weather was so back and forth, which is typical for February, crews were out roadside mowing, and the next day they would be out plowing snow. Come on spring!

The dog park at LACP, was closed back in late January. The busy area was reduced to a mud pit with the extreme use, during the wet and snowy time period, in December and January. Extensive work will need to be completed, before the area can be reopened to the public. No opening date is available at this time.

The LACP Barn will be having some extensive work done on its heating and cooling system this year. In preparation for the job, the existing duct work was removed from the building. The project will be scheduled when time allows, in between weekend reservations.

**During February the following projects were completed:**

- Bleacher repairs from Pete’s and Wass parks
- Tree trimming at Allendale park
- Emptied and washed trucks
- Cleaned up cold mix from plowing, on Willow Road
- Repaired a sink hole on W. Maple Avenue and Essex Road
- Backfilled a sink hole on Grinnel Drive
- 41 Sign repairs/replacements (8 PA-One Call)
- Storm water grate cleaning in selected areas
- Picked up brush piles along Beacon Hill Blvd.
Projects were completed, continued:

- Pot hole patching in selected areas, with cold mix
- Repaired two sink holes in Shireman Manor
- Playground equipment and bench repairs
- Cut back underbrush and dead tree’s at Beacon Hill Radar site
- Tiger mowing and tree trimming
- Flower bed restoration at the LACP, Barn

Meetings:

- Safety Meeting – (Ben Peters)
- Department Head Meeting (2) – Bob Nailor
- County, leaf turner training – (Mark D ’Agostino, Ryan Turpin)

Respectfully submitted,

Bob Nailor,
Public Works Coordinator
