RE: MS4 Annual Report Form
NPDES Permit Number PAI 133511

To Whom It May Concern:

Enclosed please find the MS4 Annual Report Form from Lower Allen Township, Cumberland County for the above referenced Permit. This report is for the report period July 1, 2019 to June 30, 2020.

Please contact our office with any questions.

Sincerely,

Rebecca L. Davis
Stormwater Program Manager

ANNUAL MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) STATUS REPORT

FOR THE PERIOD July 1, 2019 TO JUNE 30, 2020

GENERAL INFORMATION			
Permittee Name:	Lower Allen Township	NPDES Permit No.:	PA133511
Mailing Address:	2233 Gettysburg Road	Effective Date:	March 16, 2018
City, State, Zip:	Camp Hill, PA 17011	Expiration Date:	March 15, 2023
MS4 Contact Person:	Rebecca L. Davis	Renewal Due Date:	September 20, 2022
Title:	Stormwater Program Manager	Municipality:	Lower Allen Township
Phone:	717-975-7575	County:	Cumberland
Email:	rdavis@latwp.org		
Co-Permittees (if applicable):			
Appendix(ces) that permittee is subject to (select all that apply): ☐ Appendix A ☒ Appendix B ☒ Appendix C ☒ Appendix D ☒ Appendix E ☐ Appendix F			

WATER QUALITY INFORMATION

Are there any discharges to waters within the Chesapeake Bay Watershed? ☒ Yes ☐ No

Identify all surface waters that receive stormwater discharges from the permittee's MS4 and provide the requested information (see instructions).

Receiving Water Name	Ch. 93 Class.	Impaired?	Cause(s)	TMDL?	WLA?
Cedar Run	CWF	Yes	Pathogens	No	No
Yellow Breeches	CWF	Yes	Pathogens/POCs	No	No

GENERAL MINIMUM CONTROL MEASURE (MCM) INFORMATION

Have you completed all MCM activities required by the permit for this reporting period? ☒ Yes ☐ No

List the current entity responsible for implementing each MCM of your SWMP, along with contact name and phone number.

MCM	Entity Responsible	Contact Name	Phone
#1 Public Education and Outreach on Storm Water Impacts	Lower Allen Township	Rebecca L. Davis	717-975-7575 Ext. 1010
#2 Public Involvement/Participation	Same as above	Same as above	Same as above
#3 Illicit Discharge Detection and Elimination (IDD&E)	Same as above	Same as above	Same as above
#4 Construction Site Storm Water Runoff Control	Same as above	Same as above	Same as above
#5 Post-Construction Storm Water Management in New Development and Redevelopment	Same as above	Same as above	Same as above
#6 Pollution Prevention / Good Housekeeping	Same as above	Same as above	Same as aove

MCM #1 – PUBLIC EDUCATION AND OUTREACH ON STORM WATER IMPACTS

BMP #1: Develop, implement and maintain a written Public Education and Outreach Program.

1. For new permittees only, has the written PEOP been developed and implemented within the first year of permit coverage?

   ☐ Yes ☐ No

2. Date of latest annual review of PEOP: May 11, 2020 (See Attachment #1 and Attachment #3) Were updates made? ☒ Yes ☐ No

3. What were the plans and goals for public education and outreach for the reporting period?

   1. The Township planned to review, evaluate, and revise the PEOP. The Target Audience list was to be reviewed and updated with target audience groups. The Township planned to distribute information and materials to target audience groups in the following ways: Provide information on the Township website and Facebook page, update printed materials with permit applications, and provide inforamtion for distribution to the public at the front counter of the Township. The Target Audience list has been updated to add additional new businesses in the Township and more specifically, registered users of the Township's dog park have been added. The target audience list continues to be updated as new Target Audience Groups in the Township are identified such as new residents, etc. (See Attachment #2).

4. Did the MS4 achieve its goal(s) for the PEOP during the reporting period? ☒ Yes ☐ No

5. Identify specific plans and goals for public education and outreach for the upcoming year:

   1. Annually review, evaluate, and revise the Public Education and Outreach Program
   2. Review and update target audience groups as new groups are identified and developed targeted groups for outreach possibly using Microsoft Outlook, Facebook, and other social media.

BMP #2: Develop and maintain lists of target audience groups present within the areas served by your MS4.

1. For new permittees only, have the target audience lists been developed and implemented within the first year of permit coverage?

☐ Yes ☐ No

2. Date of latest annual review of target audience lists: 5/11/2020 (See Attachment #1 , Attachment #2 , and Attachment #3). Were updates made? ☒ Yes ☐ No

BMP #3: Annually publish at least one educational item on your Stormwater Management Program.

1. For new permittees only, were stormwater educational and informational items produced and published in print and/or on the Internet within the first year of permit coverage?

   ☐ Yes ☐ No

2. Date of latest annual review of educational materials: 5/11/2020 (See Attachment #1 , Attachment #3). Were updates made? ☒ Yes ☐ No

3. Do you have a municipal website? ☒ Yes ☐ No (URL: www.latwp.org)

If Yes, what MS4-related material does it contain?

The website has an MS4/Stormwater page that is continually updated. There is a pull down menu on the Township's webpage specifically dedicated to MS4. The MS4 page has general information on what the MS4 program is, how the Townhsip's MS4 Permit works, and information on each of the six MCMs of the permit. There are general resources for residents to obtain information and reporting forms for illicit disharges and BMP inspections.There is also an image called "Lower Allen Stormwater" on the homepage that contains information about the Township's Stormwater Fee and Stormwater Authority Meetings. The quarterly newsletters are placed on the Township website which contain MS4 Updates and Stormwater Fee Information. There is a reporting mechanism for illicit discharges.

4. Describe any other method(s) used during the reporting period to provide information on stormwater to the public:

The Township newsletter publishes four times a year (See Attachment #4). Summer 2019 contained information regarding a Stormwater Program Fee Update and and Illicit Discharges. Fall 2019 had an MS4 Update Article on how to maintain a grass swale. Winter of 2019/2020 had winter stormwater pollution prevention tips. Spring of 2020 had a Stormwater Program Update article regarding 2020 Stormwater projects and an article on spring watershed protection tips. The Township Facebook page posts links to various MS4 related activities (See Attachment #4). The Township participated in the West Shore Council of Governments annual stormwater management advertisement in the Patriot Newspaper on 12/3/2019 (See Attachment #8).The Target Audience list has been updated to add additional new businesses in the Township and more specifically, registered users of the Township's dog park have been added. The target audience list continues to be updated as new Target Audience Groups in the Township are identified such as new residents, etc. (See Attachment #2). The Township updated pamphlets that are handed out at the Township entrance (See Attachment #7).During this reporting period, the Township began to hold quarterly New Resident Workshop Outreach Events at the Township Building (See Attachment #6). MS4 Education was a topic of discussion at the workshops and a presentation was held to educate resdients on MS4 (See Attachment #6). Lower Allen Township staff held a Yappy Hour Event at the Lower Allen Township Community Park on 8/1/2019 and had educational materials on MS4 to hand out to pet owners, specifically regarding cleaning up pet waste and the harmful effects that pet waste can have on the environment related to stormwater runoff. The Township held a National Night Out Event at the Christian Life Assembly of God on Lisburn Road on August 6, 2019 and had MS4 educational materials to hand out (See Attachment #17). The Township placed MS4 educational articles on our Facebook page during the reporting period (See Attachment #4). Rebecca Davis spoke on the radio show Garden Talk, hosted by Bob Carey on September 25, 2019. The show is broadcasted live every Sunday from 11:30AM - 12:30 PM on WIOO AM 1000, WEOO AM 1480, and streamed to WIOO. There is a summary of her appearance in this annual report (see attachment #15). The Township mailed an educational flyer to all registered users of the Township's Dog Park located at Lower Allen Community Park. The flyer was mailed on 11/7/19 (See Attachment #14).The Township posted flyers in all of the Township parks on the harmful effects of dog waste to stormwater in the fall of 2019. Rebecca Davis started a MS4 Workgroup for South Central PA. The first meeting was held at Lower Allen Township on July 17, 2019 (See Attachment #11). The workgroup meets quarterly and has over 45 members. Rebecca Davis spoke about MS4 Communities and how they can work with watershed organizations to support the overall goals of the MS4 Program at the Yellow Breeches Watershed Association Meeting held on 11/7/2019 at the barn at Lower Allen Community Park. Rebecca Davis spoke at the January 9, 2020 South Mountain Partnership Meeting held at Dickinson College about the MS4 Permit Program (See Attachement #5).

5. Identify specific plans for the publication of stormwater materials for the upcoming year:

The Township will continue to update the webpage and Facebook with Stormwater Management Information. The Township will outreach to schools, businesses, and organizations to edcuate the community about stormwater manangment. The Township will participate in Earth Day events and speak at our annual Gardner's Gathering event in the event that those events are held. They were canceled in 2020 due to the COVID-19 Pandemic. The Township will place articles in the quarterly newsletter regarding stormwater management and the stormwater fee adoption process. The Township will update information handed out with permits regarding stormwater management.The Township is planning on doing outreach to restaurants owners regarding proper handling of grease, grease disposal, and maintenance of their grease traps.

BMP #4: Distribute stormwater educational materials to the target audiences.

Identify the two additional methods of distributing stormwater educational materials during the previous reporting period (e.g., displays, posters, signs, pamphlets, booklets, brochures, radio, local cable TV, newspaper articles, other advertisements, bill stuffers, posters, presentations, conferences, meetings, fact sheets, giveaways, or storm drain stenciling).

The Township has Stormwater Brouchures placed at the front counter of the Townhsip building year round. The Township had brochures available to the public at the National Night Out Event on August 6, 2019 (See Attachement #17). The Township participated in the West Shore Council of Goverments Stormwater Pollution Advertisement in the Patriot Newspaper on December 3, 2019 (See Attachement #8) . The Township sent a mailing to all registered dog park users in Lower Allen Township (See Attachment #14). Rebecca Davis spoke on the radio show Garden Talk, hosted by Bob Carey on September 25, 2019. The show is broadcasted live every Sunday from 11:30AM - 12:30 PM on WIOO AM 1000, WEOO AM 1480, and streamed to WIOO. There is a summary of her appearance in this annual report (see attachment #15). The Township posted flyers in all of the Township parks on the harmful effects of dog waste to stormwater in the fall of 2019. Rebecca Davis started a MS4 Workgroup for South Central PA. The first meeting was held at Lower Allen Township on July 17, 2019 (See Attachment #11). The workgroup meets quarterly and has over 45 members. Rebecca Davis spoke about MS4 Communities and how they can work with watershed organizations to support the overall goals of the MS4 Program at the Yellow Breeches Watershed Association Meeting held on 11/7/2019 at the barn at Lower Allen Community Park. Rebecca Davis spoke at the January 9, 2020 South Mountain Partnership Meeting held at Dickinson College about the MS4 Permit Program (See Attachement #5). The Township worked with a local girl scout troop who were volunteering their time to mark stormwater inlets in the Allendale Neighborhood in the Township on June 20, 2020 (See Attachment #13).

MCM #1 Comments:

MCM #2 – PUBLIC INVOLVEMENT/PARTICIPATION

BMP #1: Develop, implement and maintain a written Public Involvement and Participation Program (PIPP)

1. For new permittees only, was the PIPP developed and implemented within one year of permit coverage?

   ☐ Yes ☐ No

2. Date of latest annual review of PIPP: May 11, 2020 (See Attachment #3) Were updates made? ☒ Yes ☐ No

BMP #2: Advertise to the public and solicit public input on ordinances, SOPs, Pollutant Reduction Plans (PRPs) (if applicable) and TMDL Plans (if applicable), including modifications thereto, prior to adoption or submission to DEP:

1. Was an MS4-related ordinance, SOP, PRP or TMDL Plan developed during the reporting period? ☐ Yes ☒ No

2. If Yes, describe how you advertised the draft document(s) and how you provided opportunities for public review, input and feedback:

3. If an ordinance, SOP or plan was developed or amended during the reporting period, provide the following information:

Ordinance / SOP / Plan Name	Date of Public Notice	Date of Public Hearing	Date Enacted or Submitted to DEP

BMP #3: Regularly solicit public involvement and participation from the target audience groups using available distribution and outreach methods.

1. At least one public meeting or other MS4 event must be held during the 5-year permit coverage period to solicit participation and feedback from target audience groups. Was this meeting or event held during the reporting period?

   ☐ Yes ☒ No If Yes, Date of Meeting or Event:

2. Report instances of cooperation and participation in MS4 activities; presentations the permittee made to local watershed and conservation organizations; and similar instances of participation or coordination with organizations in the community.

The Township participated in a streamside cleanup event that was organized by the Yellow Breeches Watershed Assocation. The date of the clean up event was July 14, 2019.

The Township held it's annual National Night Out event at the Municipal Services Center on August 6, 2019. There was an informational table set up with MS4 brouches available to the attendees (See Attachment #17).

The Township presented to the Yellow Breeches Watershed Association on November 7, 2019, regarding MS4 Regulations and how the Watershed Association and municpalities can work together to achieve our goals.

Rebecca Davis spoke at the Januay 9, 2020 South Mountain Partnership Meeting to educate their attendees on MS4 Regulations (See Attachement #5).

Rebecca Davis coordinated an inlet marking volunteer activity in the Allendale Neighborhood with a local girl scout troop on June 20, 2020.The troop marked over 100 inlets (See Attachment #13).

3. Report activities in which members of the public assisted or participated in the meetings and in the implementation of the SWMP, including education activities or efforts such as cleanups, monitoring, storm drain stenciling, or others.

   The Township participated in a streamside cleanup event that was organized by the Yellow Breeches Watershed Assocation. The date of the clean up event was July 14, 2019.

   The Township held it's annual National Night Out event at the Municipal Services Center on August 6, 2019. There was an informational table set up with MS4 brochures available to the attendees (See Attachment #17).

   The Township presented to the Yellow Breeches Watershed Association on November 7, 2019, regarding MS4 Regulations and how the Watershed Association and municipalities can work together to achieve our goals. Rebecca Davis coordinated an inlet marking volunteer activity in the Allendale Neighborhood with a local girl scout troop on June 20, 2020. The troop marked over 100 inlets (See Attachment #13).

MCM #2 Comments:

MCM #3 – ILLICIT DISCHARGE DETECTION AND ELIMINATION (IDD&E)

BMP #1: Develop and implement a written program for the detection, elimination, and prevention of illicit discharges into the regulated small MS4.

1. For new permittees only, was the written IDD&E program developed within one year of permit coverage?

   ☐ Yes ☐ No

2. Date of latest annual review of IDD&E program: 5/11/2020 (see Attachment #3) Were updates made? ☒ Yes ☐ No

BMP #2: Develop and maintain map(s) that show permittee and urbanized area boundaries, the location of all outfalls and, if applicable, observation points, and the locations and names of all surface waters that receive discharges from those outfalls. Outfalls and observation points shall be numbered on the map(s).

1. Have you completed a map(s) that includes all components of BMP #2? ☒ Yes ☐ No

   If Yes and you are a new permittee and have not submitted the map(s) previously, attach the map(s) to this report.

   If No, date by which permittee expects map(s) to be completed:

2. Date of last update or revision to map(s): 6/15/2020

3. Total No. of Outfalls in MS4: 83 Total No. of Outfalls Mapped: 83

4. Total No. of Observation Points: 0 Total No. of Observation Points Mapped: 0

5. During the reporting period, have you identified any existing outfalls that have not been previously reported to DEP in an NOI, application or annual report, or are any new MS4 outfalls proposed for the next reporting period?

   ☐ Yes ☒ No If Yes, select: ☐ Existing Outfall(s) Identified ☐ New Outfall(s) Proposed

BMP #3: In conjunction with the map(s) created under BMP #2 (either on the same map or on a different map), the permittee shall develop and maintain map(s) that show the entire storm sewer collection system within the permittee's jurisdiction that are owned or operated by the permittee (including roads, inlets, piping, swales, catch basins, channels, and any other components of the storm sewer collection system), including privately-owned components of the collection system where conveyances or BMPs on private property receive stormwater flows from upstream publicly-owned components.

1. Have you completed a map(s) that includes all components of BMP #3? ☒ Yes ☐ No

   If Yes and you are a new permittee and have not submitted the map(s) previously, attach the map(s) to this report.

   If No, date by which permittee expects map(s) to be completed:

2. If Yes to #1, is the map(s) on the same map(s) as for outfalls and receiving waters? ☒ Yes ☐ No

3. Date of last update or revision to map(s): 6/15/2020

BMP #4: Conduct dry weather screenings of MS4 outfalls to evaluate the presence of illicit discharges. If any illicit discharges are present, the permittee shall identify the source(s) and take appropriate actions to remove or correct any illicit discharges. The permittee shall also respond to reports received from the public or other agencies of suspected or confirmed illicit discharges associated with the storm sewer system, as well as take enforcement action as necessary. The permittee shall immediately report to DEP illicit discharges that would endanger users downstream from the discharge, or would otherwise result in pollution or create a danger of pollution or would damage property.

For new permittees, all identified outfalls (and if applicable observation points) must be screened during dry weather at least twice within the 5-year period following permit coverage. For existing permittees, all identified outfalls (and if applicable observation points) must be screen during dry weather at least once within the 5-year period following permit coverage and, for areas where past problems have been reported or known sources of dry weather flows occur on a continual basis, outfalls must be screened annually during each year of permit coverage.

1. How many unique outfalls (and if applicable observation points) were screened during the reporting period? 12

2. Indicate the percentage of all outfalls screened in the past five years. 100%

3. Indicate the percent of outfalls screened during the reporting period that revealed dry weather flows: 16%

4. Did any dry weather flows reveal color, turbidity, sheen, odor, floating or submerged solids? ☐ Yes ☒ No

5. If Yes for #4, attach all sample results to this report with a map identifying the sample location. Explain the corrective action(s) taken in the attachment.

6. Do you use the MS4 Outfall Field Screening Report form (3800-FM-BCW0521) provided in the permit?

   ☒ Yes ☐ No

   If No, attach a copy of your screening report form.

BMP #5: Enact a Stormwater Management Ordinance or SOP to implement and enforce a stormwater management program that includes prohibition of non-stormwater discharges to the regulated small MS4.

1. Do you have an ordinance (municipal) or SOP or other mechanism (non-municipal) that prohibits non-stormwater discharges? ☒ Yes ☐ No

   If Yes, indicate the date of the ordinance or SOP: Adopted 03/08/2004, amended 02/14/2011

2. If Yes to #1, is the ordinance or SOP consistent with DEP's 2022 Model Stormwater Management Ordinance (3800-PM-BCW0100j) with respect to authorized non-stormwater discharges? ☐ Yes ☒ No

   If Yes to #2 and the ordinance or SOP has not been submitted to DEP previously, attach the ordinance or SOP.

3. Were there any violations of the ordinance or SOP during the reporting period? ☐ Yes ☒ No

If Yes to #3, complete the table below (attach additional sheets as necessary).

Violation Date	Nature of Violation	Responsible Party	Enforcement Taken

4. Did you approve any waiver or variance during the reporting period that allowed an exception to non-stormwater discharge provisions of an ordinance or SOP? ☐ Yes ☒ No

If Yes to #4, identify the entity that received the waiver or variance and the type of non-stormwater discharge approved.

BMP #6: Provide educational outreach to public employees, business owners and employees, property owners, the general public and elected officials (i.e., target audiences) about the program to detect and eliminate illicit discharges.

1. Was IDD&E-related information distributed to public employees, businesses, and the general public during the reporting period? ☒ Yes ☐ No

   If Yes, what was distributed? A pamphlet titled "A Residential Guide for Preventing Stormwater Pollution" is placed in the Municipal Services Center Community and Economic Development Department Counter and on the Township website. Township quarterly newsletter articles throughout the reporting period addressed illicit discharges (See Attachment #4).The Township had all new employees take part in training for MS4 Regulations. The Township had the police department participate in a MS4 Training (See Attachment #18). The Township held it's annual MS4 Training with public work staff employees virtually in June of 2020 (See Attachment #18). A training log for all Township Employees is included in this report in Attachment #18.

2. Is there a well-publicized method for employees, businesses and the public to report stormwater pollution incidents?

   ☒ Yes ☐ No

3. Do you maintain documentation of all responses, action taken, and the time required to take action? ☒ Yes ☐ No

MCM #3 Comments:

Attachment #16 submitted with this report contains illlicit discharge investigations and documentation. There were several investigations that occurred in Lower Allen Township during the reporting period. Attachments #20 and #21 contain outfall inspection forms and pictures for the reporting period. Priority outfalls were inspected this reporting period and will continue to be inspected each year of our permit in addition to other outfall inpsections performed. Lower Allen Township has not adopted a new Storwmater Management Ordinance to date. We will adopt the ordinance by the required due date in our written permit, 9/30/2022.

MCM #4 – CONSTRUCTION SITE STORMWATER RUNOFF CONTROL

Are you relying on PA's statewide program for stormwater associated with construction activities to satisfy this MCM?

☒ Yes ☐ No

(If Yes, respond to questions for BMP Nos. 1, 2 and 3 only in this section. If No, respond to questions for all BMPs in this section)

BMP #1: The permittee may not issue a building or other permit or final approval to those proposing or conducting earth disturbance activities requiring an NPDES permit unless the party proposing the earth disturbance has valid NPDES Permit coverage (i.e., not expired) under 25 Pa. Code Chapter 102.

During the reporting period, did you comply with 25 Pa. Code § 102.43 (relating to withholding building or other permits or approvals until DEP or a county conservation district (CCD) has approved NPDES permit coverage)?

☒ Yes ☐ No ☐ Not Applicable (no building permit applications received)

BMP #2: A municipality or county which issues building or other permits shall notify DEP or the applicable CCD within 5 days of the receipt of an application for a permit involving an earth disturbance activity consisting of one acre or more, in accordance with 25 Pa. Code § 102.42.

During the reporting period, did you comply with 25 Pa. Code § 102.42 (relating to notifying DEP/CCD within 5 days of receiving an application involving an earth disturbance activity of one acre or more)?

☒ Yes ☐ No ☐ Not Applicable (no building permit applications received)

BMP #3: Enact, implement and enforce an ordinance or SOP to require the implementation and maintenance of E&S control BMPs, including sanctions for non-compliance, as applicable.

1. Do you have an ordinance (municipal) or SOP or other mechanism (non-municipal) that requires implementation and maintenance of E&S control BMPs? ☒ Yes ☐ No

   If Yes, indicate the date of the ordinance or SOP: Adopted 03/08/2004, amended 02/14/2011

2. If Yes to #1, is the ordinance or SOP consistent with DEP's 2022 Model Stormwater Management Ordinance (3800-PM-BCW0100j)? ☐ Yes ☒ No

3. If Yes to #2 and the ordinance or SOP has not been submitted previously, attach a copy of the ordinance or SOP.

BMP #4: Review Erosion and Sediment (E&S) control plans to ensure that such plans adequately consider water quality impacts and meet regulatory requirements.

Specify the number of E&S Plans you reviewed during the reporting period:

BMP #5: Conduct inspections regarding installation and maintenance of E&S control measures during earth disturbance activities. Maintain records of site inspections, including dates and inspection results, in accordance with the record retention requirements in this permit.

Specify the number of E&S inspections you completed during the reporting period:

BMP #6: Conduct enforcement when installation and maintenance of E&S control measures during earth disturbance activities does not comply with permit and/or regulatory requirements.

Specify the number of enforcement actions you took during the reporting period for improper E&S:

BMP #7: Develop and implement requirements for construction site operators to control waste at construction sites that may cause adverse impacts to water quality. The permittee shall provide education on these requirements to construction site operators.

Specify the method(s) by which you are educating construction site operators on controlling waste at construction sites:

BMP #8: Develop and implement procedures for the receipt and consideration of public inquiries, concerns, and information submitted by the public to the permittee regarding local construction activities.

1. A tracking system has been established for receipt of public inquiries and complaints. ☐ Yes ☐ No

2. Specify the number of inquiries and complaints received during the reporting period:

MCM #4 Comments:

The Township hands out a PADEP informational sheet to all building permit applicants on managing stormwater runoff at construction sites. The Township also created a handout regarding Erosion and Sedimentation Control on Construction Sites and managing concrete disposal (See Attachment #10).The Township tracks E&S controls and their management when visiting sites for building permit inspections.

MCM #5 – POST-CONSTRUCTION STORM WATER MANAGEMENT IN NEW DEVELOPMENT AND REDEVELOPMENT

BMP #1: Enact, implement and enforce an ordinance or SOP to require post-construction stormwater management from new development and redevelopment projects, including sanctions for non-compliance.

1. Do you have an ordinance (municipal) or SOP or other mechanism (non-municipal) that requires implementation and maintenance of post-construction stormwater management (PCSM) BMPs? ☒ Yes ☐ No

   If Yes, indicate the date of the ordinance or SOP: Adopted 03/08/2004, amended 02/14/2011

2. If Yes to #1, is the ordinance or SOP consistent with DEP's 2022 Model Stormwater Management Ordinance (3800-PM-BCW0100j)? ☐ Yes ☒ No

3. If Yes to #2 and the ordinance or SOP has not been submitted previously, attach a copy of the ordinance or SOP.

BMP #2: Develop and implement measures to encourage and expand the use of Low Impact Development (LID) in new development and redevelopment. Measures should also be included to encourage retrofitting LID into existing development. Enact ordinances consistent with LID practices and repeal sections of ordinances that conflict with LID practices.

1. Do you have an ordinance (municipal) or SOP or other mechanism (non-municipal) that encourages and expands the use of LID in new development and redevelopment? ☒ Yes ☐ No

   If Yes, indicate the date of the ordinance or SOP: Adopted 03/08/2004, amended 02/14/2011

2. If Yes to #1, is the ordinance or SOP consistent with DEP's 2022 Model Stormwater Management Ordinance (3800-PM-BCW0100j)? ☐ Yes ☒ No

3. If Yes to #2 and the ordinance or SOP has not been submitted previously, attach a copy of the ordinance or SOP.

BMP #3: Ensure adequate O&M of all post-construction stormwater management BMPs that have been installed at development or redevelopment projects that disturb greater than or equal to one acre, including projects less than one acre that are part of a larger common plan of development or sale.

1. Do you have an inventory of all PCSM BMPs that were installed to meet requirements in NPDES Permits for Stormwater Discharges Associated with Construction Activities approved since March 10, 2003? ☒ Yes ☐ No

   If Yes to #1, complete Table 1 on the next page.

2. Has proper O&M occurred during the reporting period for all PCSM BMPs? ☒ Yes ☐ No

3. If No to #2, explain what action(s) the permittee has taken or plans to take to ensure proper O&M.

If you are relying on PA's statewide program for stormwater associated with construction activities, you may skip to MCM #6, otherwise complete all questions for BMPs #4 - #6 in this section.

BMP #4: Require the implementation of a combination of structural and/or non-structural BMPs that are appropriate to the local community, that minimize water quality impacts, and that are designed to maintain pre-development runoff conditions.

1. Specify the number of PCSM Plans reviewed during the reporting period for projects disturbing greater than or equal to one acre (including projects less than one acre that are part of a larger common plan of development or sale):

2. Has a tracking system been established and maintained to record qualifying projects and their associated BMPs?

   ☐ Yes ☐ No

PCSM BMP INVENTORY

Table 1. To complete the information needed for MCM #5, BMP #3, list all existing structural BMPs that discharge stormwater to the permittee's MS4 that were installed to satisfy PCSM requirements for earth disturbance activities under Chapter 102, and provide the requested information (see instructions).

BMP No.	BMP Name	DA (ac)	Entity Responsible for O&M	Latitude	Longitude	Date Installed	O&M Requirements	NPDES Permit No.

14				° ' "	° ' "			
15				° ' "	° ' "			
16				° ' "	° ' "			

BMP #5: Ensure that controls are installed that shall prevent or minimize water quality impacts. The permittee shall inspect all qualifying development or redevelopment projects during the construction phase to ensure proper installation of the approved structural PCSM BMPs. A tracking system (e.g., database, spreadsheet, or written list) shall be implemented to track the inspections conducted and to track the results of the inspections (e.g., BMPs were, or were not, installed properly).

1. During the reporting period have you inspected all qualifying development and redevelopment projects during the construction phase to ensure proper installation of approved structural BMPs?

   ☐ Yes ☐ No ☐ Not Applicable (no qualifying projects during reporting period)

2. Has a tracking system been established and maintained to record results of inspections?

   ☐ Yes ☐ No

BMP #6: Develop a written procedure that describes how the permittee shall address all required components of this MCM.

Have you developed a written plan that addresses: 1) minimum requirements for use of structural and/or non-structural BMPs in plans for development and redevelopment; 2) criteria for selecting and standards for sizing stormwater BMPs; and 3) implementation of an inspection program to ensure that BMPs are properly installed? ☐ Yes ☐ No

MCM #5 Comments:

Township owned BMPs Inspections are included with the report in Attachment #22.

MCM #6 – POLLUTION PREVENTION / GOOD HOUSEKEEPING

BMP #1: Identify and document all operations that are owned or operated by the permittee and have the potential for generating pollution in stormwater runoff to the MS4. This includes activities conducted by contractors for the permittee.

1. Have you identified all facilities and activities owned and operated by the permitee that have the potential to generate stormwater runoff into the MS4? ☒ Yes ☐ No

2. When was the inventory last reviewed? 6/22/2020

3. When was it last updated? 6/22/2020- See Attachment #23 for the Facilities Inventory List

BMP #2: Develop, implement and maintain a written O&M program for all operations that could contribute to the discharge of pollutants from the MS4, as identified under BMP #1. This program shall address stormwater collection or conveyance systems within the regulated MS4.

1. Have you developed a written O&M program for the operations identified in BMP #1? ☒ Yes ☐ No

2. Date of last review or update to written O&M program: 5/11/2020

BMP #3: Develop and implement an employee training program that addresses appropriate topics to further the goal of preventing or reducing the discharge of pollutants from operations to the regulated small MS4. All relevant employees and contractors shall receive training.

1. Have you developed an employee training program? ☒ Yes ☐ No

2. Date of last review or update to training program: 6/22/2020 Date of latest training: Virtual due to COVID-19

3. Training topics covered:

   MS4 Good Housekeeping Annual Employee Training (See Attachment #18).

4. Name(s) of training presenter(s):

   Rebecca L. Davis, Stormwater Program Manager

5. Names of training attendees:

   See Attachment #18 for content covered and attendees. This training was held virtually due to the COVID-19 Pandemic.

MCM #6 Comments:

All new employees that are hired at Lower Allen Township watch a MS4 Powerpoint Presentation as a part of their new employee orientation. A spreadsheet of all MS4 trainings that employees participated in is attached as Attachment #18 as well as a MS4 Activity Tracking Sheet for MS4 related activities that Lower Allen Township employees participated in. These trainings are in addition to the training that was held virutally for the Public Works Staff. Attachment #24 includes Lower Allen Township's Public Works Operation & Maintenance Report for 2019-2020 and PPC Plan and Attachment #23 includes Lower Allen Township's Facilities List.

POLLUTANT CONTROL MEASURES (PCMs)

Indicate the status of implementing PCMs in Appendices A, B and/or C by completing the table below. Skip this section if PCMs are not applicable.

Task	Date Completed	Attached	Anticipated Completion Date
Storm Sewershed Map(s)	6/1/2019	☐	
Source Inventory	6/20/2020	☒	
Investigation of Suspected Sources		☐	9/30/2022
Ordinance/SOP for Controlling Animal Wastes		☐	9/30/2022

PCM Comments:

Attachment #25 is the Source Inventory for Lower Allen Township. The Storm Sewershed Map was attached with last year's annual report to PADEP.

POLLUTANT REDUCTION PLANS (PRPs) AND TMDL PLANS

1. Complete this section if the development and submission of a PRP and/or TMDL Plan was required as an attachment to the latest NOI or application or was required by the permit, regardless of whether DEP has approved the plan(s).

Type of Plan	Submission Date	DEP Approval Date	Surface Waters Addressed by Plan
☒ Chesapeake Bay PRP (Appendix D)	9/16/2017	12/19/2018	Chesapeake Bay
☒ Impaired Waters PRP (Appendix E)	9/16/2017	12/19/2018	Cedar Run, Yellow Breeches, Susquehanna River, Chesapeake Bay
☐ TMDL Plan (Appendix F)			
☐ Combined Chesapeake Bay / Impaired Waters PRP			Chesapeake Bay,
☐ Combined PRP / TMDL Plan			

☐ Joint Plan *(if checked, list the name of the MS4 group or names of all entities participating in the joint plan below)*

Joint Plan Participants:

2. Identify the pollutants of concern and pollutant load reduction requirements under the permit (see instructions).

Type of Plan	TSS Load Reduction (lbs/yr)	TP Load Reduction (lbs/yr)	TN Load Reduction (lbs/yr)
☒ Chesapeake Bay PRP (Appendix D)	317,931.59	TP goals are achieved when 10% reduction in sediment is achieved	TN goals are achieved when 10% reduction in sediment is achieved
☒ Impaired Waters PRP (Appendix E)	317,931.59	TP goals are achieved when 10% reduction in sediment is achieve	TN goals are achieved when 10% reduction in sediment is achieve
☐ TMDL Plan (Appendix F)			
☐ Combined Chesapeake Bay / Impaired Waters PRP			
☐ Combined PRP / TMDL Plan			

3. Date Final Report Demonstrating Achievement of Pollutant Load Reductions Due: Septebmer 30, 2023

4. Have any modifications to the plan(s) occurred since DEP approval? ☐ Yes ☒ No

If Yes to #4, was the updated plan(s) submitted to DEP? ☐ Yes ☐ No

If Yes to #4, did you comply with the public participation requirements of the applicable appendix? ☐ Yes ☐ No

If Yes to #4, describe the plan modifications.

5. Summary of progress achieved during reporting period.

The Township received Mariner 2 Pipeline Grants for 2 of the basins that it is going to retrofit for the Pollution Reduction Plan. The Township put the projects out to bid in 2020, awarded the bids, and construction has begun with an October 30, 2020 deadline for completion. These basins are located on Township owned property. The Township continues to work on the design of the other Township owed basins.

The Township has begun negotiations with the property owners of the remaining 6 basins that are privatley owned. The Township has had meetings with 5 out of the 6 property owners who are willing to work with the Township to perform the retrofit projects and the Township is in the proces of negotiating easement and maintenance agreements.

6. Anticipated activities for next reporting period.

Design and bid for the retrofit of basins 3 & 4 will commence. The Township will continue discussions with property owners that own the detention basins where a retrofit is proposed to negotiate easement and maintenance agreements.

PRP/TMDL Plan Comments:

The PRP proposes to retrofit 10 detention basins into bioretention facilities in the Township to meet the required load reductions. Four of the basins are Township owned and six basins are on private property. Constuction has begun on 2 of the Township owned basins to date.

NEW BMPs FOR PRP/TMDL PLAN IMPLEMENTATION

Table 2. List all new structural BMPs installed and ongoing non-structural BMPs implemented during the reporting period that are being used toward achieving load reductions in the permittee's PRP and/or TMDL Plan (see instructions).

BMP No.	BMP Name	DA (ac)	% Imp.	BMP Extent	Units	Latitude	Longitude	Date Installed or Implemented	Planning Area?	Ch. 102?	Annual Sediment Load Reduction (lbs/yr)
						° ' "	° ' "		☐	☐

CERTIFICATION

For PAG-13 Permittees: I have read the latest PAG-13 General Permit issued by DEP and agree and certify that (1) the permittee continues to be eligible for coverage under the PAG-13 General Permit and (2) the permittee will continue to comply with the conditions of that permit, including any modifications thereto. I understand that if I do not agree to the terms and conditions of the PAG-13 General Permit, I will apply for an individual permit within 90 days of publication of the General Permit. I also acknowledge that any facility construction needed to comply with the General Permit requirements shall be designed, built, operated, and maintained in accordance with operative laws and regulations.

For All Permittees: I certify under penalty of law that this report was prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations. See 18 Pa. C.S. § 4904 (relating to unsworn falsification).

MS-4 ANNUAL REVIEW MEETING MINUTES

LOWER ALLEN TOWNSHIP
Founded 1850
2233 GETTYSBURG ROAD • CAMP HILL, PENNSYLVANIA 17011

MEMORANDUM

LOWER ALLEN TOWNSHIP
COMMUNITY DEVELOPMENT DEPARTMENT
2233 GETTYSBURG ROAD CAMP HILL, PA. 17011
(717)975-7575 FAX (717)731-4182
e-mail: **rdavis@latwp.org**

TO: **MS4 File**

FROM: **Rebecca L. Davis**
Stormwater Program Manager

CC: **Daniel J. Flint, P.E., NPSE, Township Engineer/Public Works Director**

DATE: **5/11/2020**

SUBJECT: MS-4 Annual Review Meeting Minutes

On May 11, 2020, Rebecca Davis reviewed and revised as necessary the Lower Allen Township MS-4 Program. The program was reviewed in the order of the six (6) Minimum Control Measures (MCMs) that make up the program. Daniel Flint, P.E., Township Engineer, reviewed this memorandum as well as part of the MS4 Program.

MCM#1 – Public Education and Outreach

The target audience list can be updated with new businesses in the Township, residents, and dog owner's that register for the Lower Allen Township Dog Park. The Township began to hold

quarterly New Resident Workshop Events in the fall of 2019, and MS4 Education is a topic that is discussed with the attendees. The Township had scheduled its annual MS4 Public Outreach Meeting for the April 13, 2020 Board of Commissioners meeting. Unfortunately, due to COVID-19, the meeting was cancelled. The Township will hold this meeting as soon as the Governors stay at home order restrictions have been lifted for Cumberland County and the Commissioners can once again hold in person public meetings. The Township formed an MS-4 Workgroup. Our first meeting was held at Lower Allen Township on July 17, 2019. The Workgroup has grown in size to over 45 members from the public and private sector. A network sharing platform of frequently used documents has been formed and the Workgroup meets quarterly to collaborate and discuss MS4 topics. Guest speakers also attend the meetings.

MCM#2 – Public Involvement and Participation

The revision to the target audience list that will be used in MCM #1 can also be utilized for this MCM. Group educational mailings were sent last permit cycle to gas stations and dog owner's registered at Lower Allen Township's dog park, and also to neighborhoods where grass clippings are a problem. Continued outreach will occur to satisfy the requirements of this MCM, specifically to schools, business associations, and summer recreation programs. The Township had an inlet marking field trip scheduled with the local girl scout troop on March 29, 2020. This will be rescheduled when the COVID-19 restrictions have been lifted for Cumberland County and it is safe to conduct the project.

MCM #3 – Illicit Discharge Detection and Elimination

Priority outfalls are being inspected bi-annually. Additional outfall inspections are ongoing. The website has an IDD&E Reporting Mechanism. A hotline for Illicit Discharge complaints has also been discussed. Currently my name is listed to report any Illicit Discharge complaints to be either telephone or email. The Pollution Control Measures were discussed as a part of this MCM. Cedar Run and the Yellow Breeches are declared as "impaired waterways" by the PADEP Integrated Water Quality Report. The Township mapped the storm sewer sheds that drain to these impaired waterways and now must determine possible sources of impairment for the next annual report.

MCM#4 - Construction Site Stormwater Runoff Control

Since the Township defers to the state program for this MCM, follow up actions were not required. Reports from the Cumberland County Conservation District are received by the Township and are included in the annual report. The township also keeps a record of Erosion and Sedimentation controls observed during building permit inspections and they are included in the annual report. The Township updated our Memorandum of Understanding with Cumberland County Conservation District this permit cycle. A copy will be included in the annual report.

MCM#5 – Post Construction Stormwater Management in New Development and Re-Development

The Township currently sends out letters to all Best Management Practice (BMP) property

owners requiring an annual inspection of the BMPs as required by the Township Stormwater Management Ordinance. There has been a good return response rate especially since the Stormwater Fee was enacted and a credit program was established for BMP installation and inspection. Follow up letters will be sent to the BMP property owners that have not responded. The Township is tracking site visits make the specific BMP locations on a Stormwater Spreadsheet and includes this with the annual report. Any stormwater fee credits are conditioned upon completion of the credit recipients BMP Inspection.

MCM#6 – Pollution Prevention/Good Housekeeping

All new employees receive MS4 training as part of their orientation at Lower Allen Township. Public Works training occurs every year. Administrative staff has been trained on handling a spill and IDD&E complaints. The public works training was to be held on April 22, 2020 of this year but was cancelled due to the COVID-19 restrictions currently in place. The training will be rescheduled as soon as possible when the stay at home order is lifted for Cumberland County, and the training can be held safely.

General Discussion

Upcoming efforts were discussed for the year. The annual report will be an area of focus. In addition, the Pollution Reduction Plan Projects are ongoing. Two of the basin retrofits have gone out to bid. Grant applications have been submitted for 3 additional basins. In, addition design will take place for the Moreland Basin that was awarded a grant though the National Fish and Wildlife Foundation (NFWF). The Pollution Control measures are another area that efforts will be directed to in addition to our Stormwater Management Ordinance Revision.

Stormwater Updates

POSTED ON FEBRUARY 13, 2019 / BY HELEN GRUNDON (HTTP://WWW.LATWP.ORG/?AUTHOR=5) / IN TOWNSHIP NEWS (HTTP://WWW.LATWP.ORG/?CAT=25)

STORMWATER FEE BEGINNING APRIL 2019

Beginning April 1, 2019, you will see a **NEW** Stormwater Fee as a line item on your existing Sewer and/or Refuse bill from the Township, or you will begin to receive a Stormwater bill from the Township if you are currently not served by public sewer or refuse. This is a quarterly fee that is being assessed on all properties in Lower Allen Township. Residential, including vacant properties, will be billed a flat $19.00 fee per quarter. Non-residential and multifamily units will be billed based upon the area of impervious coverage on the property.

The dedicated source of funding generated by the Stormwater Management Program Fee provides the resources to address the Environmental Protection Agency (EPA) and the Pennsylvania Department of Environmental Protection (PADEP) mandated Municipal Separate Storm Sewer System (MS4) compliance requirements. The Township's Chesapeake Bay Pollution Reduction Plan (PRP) was approved by PADEP in December of 2018. Township staff is currently working on implementation of that plan, which includes the conversion of 10 detention basins into bioretention facilities within a five-year period. In addition to the PRP implementation, the Operation and Maintenance of our Stormwater System is a significant portion of the Stormwater Program.

If you received your stormwater bill and think there might be an error, you should complete a Stormwater Appeal Form and submit it to Rebecca Davis, MS4 Coordinator, at rdavis@latwp.org (mailto:rdavis@latwp.org). To file an appeal, go to the Lower Allen Township website, www.latwp.org (http://www.latwp.org/), and click on the Lower Allen Stormwater Icon. A link to a form fillable appeal form will be at the bottom of the page. Forms are also available at the Township office.

Updates on the Stormwater Program will be placed on the Township website (www.latwp.org) and in future issues of the Township News. If you have any questions regarding the fee, or Stormwater Program, please contact Rebecca Davis, MS4 Coordinator, @ rdavis@latwp.org (mailto:rdavis@latwp.org), or 717-975-7575 ext. 1010.

STORMWATER PROGRAM FEE UPDATE 2-8-19

The Lower Allen Township Board of Commissioners heard a presentation from Arcadis, the Township's consultant, regarding the Stormwater Fee and Feasibility Study at their regular meeting on October 8, 2018. Recommendations regarding the Stormwater rate structure were discussed with the Commissioners as well as the Stormwater Management Program scope and budget.

The 5-year Stormwater Program budget is projected to be approximately 1.2 million dollars per year. Most of the money in the budget is allocated to the EPA and PADEP federally-mandated Municipal Separate Storm Sewer System (MS4) Compliance requirements. Additional budgeted funds will be spent on stormwater infrastructure maintenance, inspection and replacement as required.

The following rate structure was presented to the Commissioners: Residential properties, including vacant properties, will be billed a flat fee. Non-residential and multifamily units will be billed based upon the impervious area on the property. An Equivalent Residential Unit (ERU) was calculated to equal 3,115 SF. This number was based upon a digitized study of buildings, sidewalks, and driveways in the Township. To determine the fee per ERU, the total number of ERUs in the Township was calculated and this number was divided by the Stormwater Program costs. The quarterly stormwater fee for Lower Allen Township properties was presented to the Commissioners as $19 per ERU.

Residential and vacant properties will be billed a flat rate of $19.00 (1 ERU) per quarter. Non-residential and multifamily units will be billed based on the number of ERUs (3,115 SF) that the property has, times the rate of $19/per ERU, per quarter. The chart below illustrates fee examples:

	OWNER	SF	ERU's	QUARTERLY FEE/ERU	YEARLY FEE
1	Residential Property	Inclusive	1	$19	$76
2	School	337,092	108	$2,052	$8,208
3	Grocery Store	460,753	148	$2,812	$11,248
4	Mall	1,818,727	584	$11,096	$44,384

At the conclusion of the presentation by Arcadis, the Commissioners voted unanimously to advertise an ordinance authorizing the Stormwater Fee. Ordinance 2018-10 was enacted by the Board of Commissioners on October 22, 2018, authorizing LATSA to enact and collect stormwater fees and to provide a system for collection of the fees for payment to Lower Allen Township to maintain stormwater facilities and fund other stormwater related expenditures. At their November 1, 2018 regular meeting, LATSA unanimously approved Resolution 2018-A-01, enacting the Stormwater Fee rate of $19.00/ERU to be billed quarterly. A Stormwater Credit and Appeals Policy is being drafted currently and will be reviewed and discussed by the LATSA board at their monthly meetings.

The initial quarterly Stormwater Fee bills are projected to mailed in April 2019. If you currently receive a refuse and/or sewer bill, you will see this charge as a separate line item on your bill. If you do not receive a refuse and/or sewer bill, you will now receive a stormwater fee bill from the Township.

Arcadis's October 8, 2018, presentation is available for review on the Lower Allen Township website:

http://www.latwp.org/wp-content/uploads/Lower-Allen-Stormwater-Fee-Study-Board-Presentation-8Oct2018.pdf. (http://www.latwp.org/wp-content/uploads/Lower-Allen-Stormwater-Fee-Study-Board-Presentation-8Oct2018.pdf)

Updates on the Stormwater Program and information about the Stormwater Authority will be placed on the Township website (www.latwp.org) and in future issues of the Township News. If you have any questions regarding the fee, stormwater program or the Stormwater Authority, please contact Rebecca Davis, MS4

Upcoming Detention Basin Retrofit Projects:

As part of our Pollution Reduction Plan (PRP) mandated by the Pennsylvania Department of Environmental Protection (PADEP), Lower Allen Township will be retrofitting two stormwater detention basins into Bioretention Facilities on Township-owned property. The project locations are as follows:

Lower Allen Township Public Works Facility - 1400 Saint Johns Road, Camp Hill – basin is located in front of the Public Works building along Saint Johns Road.

Sheepford Crossing West – Basin is located at the intersection of Lisburn Road and Sheepford Road.

Construction is expected to begin in late June 2020 with completion expected to be early fall of 2020. This schedule is weather dependent. The basins are required to be retrofitted due to a federal mandate from the Environmental Protection Agency (EPA) and PADEP to remove pollutants from the Township's stormwater runoff. Retrofitting the basins from detention basins into bioretention facilities will reduce the pollutants that enter our stormwater runoff that would reach the Cedar Run, Yellow Breeches Creek, Susquehanna River, and eventually the Chesapeake Bay.

The Township will continue to own and maintain the facilities once completed.

If you have any questions regarding this upcoming project please contact Rebecca Davis, Stormwater Program Manager, at rdavis@latwp.org, or 717-975-7575 ext. 1010.

Wanted to let residents know that, starting July 1st, an intern from Harrisburg University will be using a drone to take photos of the stormwater retention basins in the Township. This is part of the Township's Stormwater Pollution Reduction Plan (PRP).

The intern will be carrying Township ID. He will only be flying the drone over the stormwater basins. Flights will take about 20 minutes.

He will be photographing Township-owned basins first, beginning with the two basins in Sheepford Crossing, then the Village of Moreland and the Public Works Facility. Permission is being obtained for him to do the privately-owned basins at the Westport Business Center, Rossmoyne Business Center, BJs Wholesale Club, The Heights of Beacon Hill, Bethany Village West, and the United Methodist Homes.

The project is expected to continue through the month of July.

Michael Zechman Beacon Hill is within airport limits. Do they need fed approval? As for lower basin, I have not been contacted yet. Thanks for posting and keeping us aware.
Happy 4th!

Cumberland County Household Hazardous Waste Program:

New Program Format for 2019: Appointments required and a fee of $0.30/lb will be charged.

Participants must sign up for an appointment in advance. Appointment slots are available in 15 minute increments and are limited to 12 customers per slot.

All acceptable material will be weighed as is and each customer will be charged $0.30 per pound for disposal. Pre-registration will help control traffic flow and reduce congestion.

When
• Thursday, July 18, 2019, 12pm – 6pm
• Saturday, August 17, 2019, 9am – 3pm
• Thursday, September 19, 2019, 12pm – 6pm

Each event will be limited to the number of registrants listed (288).
Appointments are available on a first-come, first-served basis.
Only one appointment per customer allowed.

Where
• Cumberland County Recycling Center
• 1001 Claremont Road
• Carlisle, PA

Visit www.ccpa.net/3499/2019-HHW-Drop-Off-Program to see:
• Acceptable Materials list
• Frequently Asked Questions (FAQs)
• Appointments - schedule on-line or call 717.240.6489

John McDowell What is the process to deal with these items outside this program? There is only one vendor listed from the CCPA website and that company's website doesn't work, at all. According to the EPA website that company is under active investigation.

Winter Stormwater Pollution Prevention Tips

Start shoveling early! The more snow you remove, the less salt and sand you'll need. Below are some do's and don'ts when shoveling or plowing snow to prevent stormwater pollution.

Do:

⇒ Pile snow in locations with the most opportunity to infiltrate into the ground.
⇒ Pile snow in areas where water does not pond.
⇒ Clear away any snow that may have been piled onto the storm drains.
⇒ Clear your downspouts to allow melting roof snow to flow and not collect at your foundation.
⇒ Pay special attention to places that are eroding during snow melt and plan to improve these areas in spring using plants that can slow and stop erosion, like native grasses and meadow plants or native trees and shrubs.

Don't:

⇒ Do not pile snow on top of storm drains or near water bodies and wetlands.
⇒ Do not pile snow onto rain gardens or bioretention areas.
⇒ Do not overuse de-icing chemicals and salts and avoid spreading around sensitive areas like waterways and your private well.

Tips to Avoid Using Salt as a De-icer:

⇒ More salt does not equal more melting snow. Follow product instructions when spreading deicing material and give it time to work. Sweep up any material remaining after the snow/ice melts.
⇒ When temperatures hit 15° F or below, salt is not effective. Consider using traction materials that contain an acetate, potassium chloride, magnesium chloride, or cracked cornmeal instead of sand or kitty litter.

Vector Control Weights & Measures

As of 10/1/2019 Vector Control is finished setting data collection traps. In 2019 we set 1,383 gravid (adult mosquito) traps compared to last year we collected 462. In dips (larvae mosquitoes) we have 892 collections whereas in 2018 we had collected 222. We performed 271 larval treatments through the season. Last year we had 118 treatments throughout the county.

Last year a total of 242 West Nile **positive** mosquito samples were collected. In 2019, we have collected **nine** samples that have tested positive. One of the samples was from New Cumberland Borough, one from Dickinson Township, one Mount Holly Borough, two from Shippensburg Township, Camp Hill Borough, and Silver Spring Township. All appropriate steps were taken to combat the problems.

We set and collected more traps this year than any year prior since the beginning of the program in 2001. However, the number of mosquitoes per trap is much lower than previous years. We attribute this to many of the additional larval treatments we have conducted this year, as well as the drier weather we experienced the last couple of months.

Throughout 2019 members of Vector Control participated in many outreach opportunities. We partook in First Friday in Carlisle, National Night Out in Camp Hill and Silver Spring Township, the Carlisle Farmers Market, and other municipal events. We performed five separate interviews for local television news stations, and one radio interview. We are looking for opportunities to preform outreach in more municipalities for 2020. We also performed a tire collection in Mechanicsburg, and would like to attempt to host one on the Western end of the county in 2020.

Pictured to the left is a gravid trap and the number of gravid traps set throughout the county in 2019

Buses & RVs

The Board of Commissioners, at their June 24th public meeting, enacted Ordinance 2019-02, which governs the parking of buses and RVs in Residential Zones (R-1, R-2, R-3, and MUN).

RVs Recreational vehicles of 30 feet or less in overall length, used for transportation of an occupant of a residential premise may be parked within the front, rear or side yards of a residential premise, provided the location thereof is approved under Chapter 220, Zoning, as an impervious off-street parking space. Such vehicles may be parked on the residential street for no more than 72 hours for the purpose of loading, unloading, or cleaning. All recreational vehicles stored on a residential property must be currently licensed, registered, and inspected.

Recreational vehicles of greater than 30 feet may only be stored on a residential property or residential street for up to 72 hours for the purpose of loading, unloading, or cleaning. No recreational vehicle may have slide-outs open while parked on a public street.

Buses Standard Buses are not permitted to park in Residential Zones (R-1, R-2, R-3, MUN) at any time. Currently licensed and registered Small Buses may be parked only on a driveway or pad constructed of impervious material, the dimensions of which at least encompass the entire length and width of the bus parked thereon. Small Buses are not permitted to park on any residential street at any time. Restrictions in this section shall not apply to micro-coaches, micro-buses, or high-capacity vans.

Right-of-Way obstructions This ordinance also clarifies that roll-off waste containers, storage pods, or similar containers may not be placed on any street or public right-of-way without a temporary exemption issued by the Manager's office. An application for exemption will be reviewed for:

- Safety hazard or sight distance obstruction.
- Valid reasons why the ROW obstruction can't be placed on the property instead of the street.
- Reasonable duration of the placement.
- Potential interference with road maintenance, leaf collection, snow and ice removal, or stormwater drainage.

The full ordinance may be viewed on the Township website under the Elected Government tab, *Ordinances*.

The 2020 Census At A Glance

Important - Once every decade, the federal government conducts a census of the entire population to count everyone in the United States and record basic information about them. Our nation's founders believed this data was so important that they mandated the decennial census in the Constitution.

Easy and Convenient - In 2020, for the first time ever, the U.S. Census Bureau will accept responses online, but you can still respond by phone or mail if you prefer.

Confidential and Secure - Strict federal law protects your census responses. It is against the law for any Census Bureau employee to disclose or publish any census information that identifies an individual or business. Census Bureau employees take a lifelong pledge of confidentiality to handle data responsibly and keep respondents' information private. The penalty for wrongful disclosure is a fine of up to $250,000 or imprisonment for up to 5 years, or both. No law enforcement agency (not the DHS, ICE, FBI, or CIA) can access or use your personal information at any time. Data collected can only be used for statistical purposes that help inform important decisions, including how much federal funding your community receives.

The Census Bureau will never ask for your Social Security number, bank or credit card account numbers, money or donations, or anything on behalf of a political party. The Census Bureau has a robust cybersecurity program that incorporates industry best practices and federal security standards for encrypting data.

Whether you receive a census form in the mail, or a census taker visits your home, please take the time to participate in the census. Getting an accurate count of our population is important to our legislative representation at both the State and Federal levels and may have an impact on certain revenues available to the Township. More information about the census can be found at https://2020Census.gov.

The U.S. Census Bureau is hiring census takers. For more information and to apply online, go to https://2020census.gov/jobs or call 1-8055-JOB-2020.

MS4 UPDATES

MS4 (MUNICIPAL SEPARATE STORM SEWER SYSTEM) UPDATE
PROTECT OUR WATERSHED

SPRING TIPS

MEASURE
Always follow directions to use proper amounts of fertilizers and herbicides. Too much can wash off your property into storm drains and can harm aquatic life.

REUSE
Keep grass at least 3" to promote healthy root growth. Dispose of clippings in a compost pile or yard waste bag so they don't wash into storm drains. Clippings also make great natural mulch!

CARE
Have a spill kit handy to immediately clean up any spills in your driveway or the road like gas and oil leaks. Report any major spills to the Township, at *www.latwp.org, or 717-975-7575.*

CONSERVE
Watch your watering! Lawns only need about 1" of rain per week. Overwatering can result in runoff, which can carry fertilizers and herbicides along with it. Avoid watering during mid-day.

CLEANUP
Get involved in a local stream cleanup. Check out the Yellow Breeches Watershed Association's website: *www.ybwatershed.org,* for updates on stream cleanup dates and events.

WASH
Wash cars at a commercial carwash, where wash water is connected to sanitary sewers and treated. At home, wash your car in the grass, not driveway and direct the soapy water away from storm drains.

Visit www.latwp.org and click on MS4/Stormwater - for more ways to help clean up our stormwater runoff!

Municipal Separate Storm Sewer System (MS4) Update: Maintaining your grass swale

In many neighborhoods and commercial properties, stormwater runoff (rain and melting snow) from building roofs, driveways, and roads is directed into grass drainage swales. They are designed to convey stormwater runoff safely downstream and can be located along the side property lines between adjacent houses, rear property lines, along roads and parking lots.

During large storms, swales can direct runoff to other stormwater facilities or to the storm drain system. Swales can cause flooding and ponding problems if they are not maintained properly. The grass covering the side and bottom slopes of a swale provides a filtration surface for the water and helps to reduce the flow velocity.

Actions you can take to maintain your swale in good working condition include:

Monthly

- ⇒ Inspect your swale after storms to make sure that rainwater has drained and there is no erosion.
- ⇒ Remove sediment, trash, and debris from in and around the swale.

Seasonally

- ⇒ Mow grass no shorter than 2 ½ - 3 inches. Remove or compost tall grass clippings.
- ⇒ Manually remove any weeds or invasive plants
- ⇒ Remove or compost leaves in the fall. Leaves may block the flow of water and prevent the water from infiltrating.
- ⇒ Adjust the mower height to avoid scalping the edges of the side slopes.

As Needed

- ⇒ Reseed any bare areas.

Don't

- ⇒ Use fertilizer or pesticides in your swale.
- ⇒ Over mow the swale or mow immediately after a rain event.
- ⇒ Do not install sheds, playground equipment, fences or any other structure in drainage swales.

Remember

- ⇒ Grass drainage swales are designed and constructed to protect you and your property from potential flooding and ponding problems.
- ⇒ If you own a drainage swale, please make sure that it functions as designed.
- ⇒ As the property owner, you are responsible for the maintenance of your grass drainage swale!
- ⇒ By maintaining your swale, you are doing your part to help the environment and protect the local streams and ultimately the Chesapeake Bay.

If you have any questions regarding swale maintenance or stormwater runoff please contact Rebecca Davis, MS4 Coordinator, at rdavis@latwp.org, or 717-975-7575 ext. 1010.

STORMWATER UPDATES

2020 Stormwater Projects – Your Stormwater Fees at Work!

As part of our Pollution Reduction Plan (PRP) mandated by the Pennsylvania Department of Environmental Protection (PADEP), Lower Allen Township will be retrofitting two stormwater detention basins into Bioretention Facilities this year on Township owned property. The project locations are as follows:

Lower Allen Township Public Works Facility - 1400 Saint Johns Road, Camp Hill – basin is located in front of the public works building along Saint Johns Road.
Sheepford Crossing West – Basin is located at the intersection of Lisburn Road and Sheepford Road.

The projects are going out to bid this spring with construction beginning late spring/summer. Completion is expected by October of this year. The basins are required to be retrofitted due to a federal mandate from the Environmental Protection Agency (EPA) and PADEP to remove pollutants from the Township's stormwater runoff. Retrofitting the basins from detention basins into bioretention facilities will reduce the pollutants that enter our stormwater runoff that reaches the Cedar Run, Yellow Breeches Creek, Susquehanna River, and eventually the Chesapeake Bay.

The retrofit projects will involve several steps:

1. Excavate and remove existing soil in basin bottom.
2. Amend topsoil by combining it with compost to create a higher level of soil porosity.
3. Plant native plants with deep root systems in the basin bottom to filter out pollutants and infiltrate stormwater.
4. Construct a stone berm at the outlet structure of the basin to hold a shallow volume of water for a short period of time to retain runoff from small storms for treatment and infiltration.

There will be additional stormwater basin retrofit projects in Lower Allen Township in the coming years as part of our PRP. Look for stormwater project updates in future articles of the Township Newsletter. If you have any questions regarding any of the upcoming projects please contact Rebecca Davis, Stormwater Program Manager, at rdavis@latwp.org, or 717-975-7575 ext. 1010.

Cumberland County Household Hazardous Waste Program:

New Program Format for 2019: Appointments required and a fee of $0.30/lb will be charged.

Participants must sign up for an appointment in advance. Appointment slots are available in 15 minute increments and are limited to 12 customers per slot.

All acceptable material will be weighed as is and each customer will be charged $0.30 per pound for disposal. Pre-registration will help control traffic flow and reduce congestion.

When
• Thursday, July 18, 2019, 12pm – 6pm
• Saturday, August 17, 2019, 9am – 3pm
• Thursday, September 19, 2019, 12pm – 6pm

Each event will be limited to the number of registrants listed (288).
Appointments are available on a first-come, first-served basis.
Only one appointment per customer allowed.

Where
• Cumberland County Recycling Center
• 1001 Claremont Road
• Carlisle, PA

Visit www.ccpa.net/3499/2019-HHW-Drop-Off-Program to see:
• Acceptable Materials list
• Frequently Asked Questions (FAQs)
• Appointments - schedule on-line or call 717.240.6489

John McDowell What is the process to deal with these items outside this program? There is only one vendor listed from the CCPA website and that company's website doesn't work, at all. According to the EPA website that company is under active investigation.

Author

Lower Allen Township, PA You can google "Getting rid of household hazardous waste". There are several companies, including regular waste haulers, who will make arrangements with you for the collection of HHW. They would charge a separate fee.

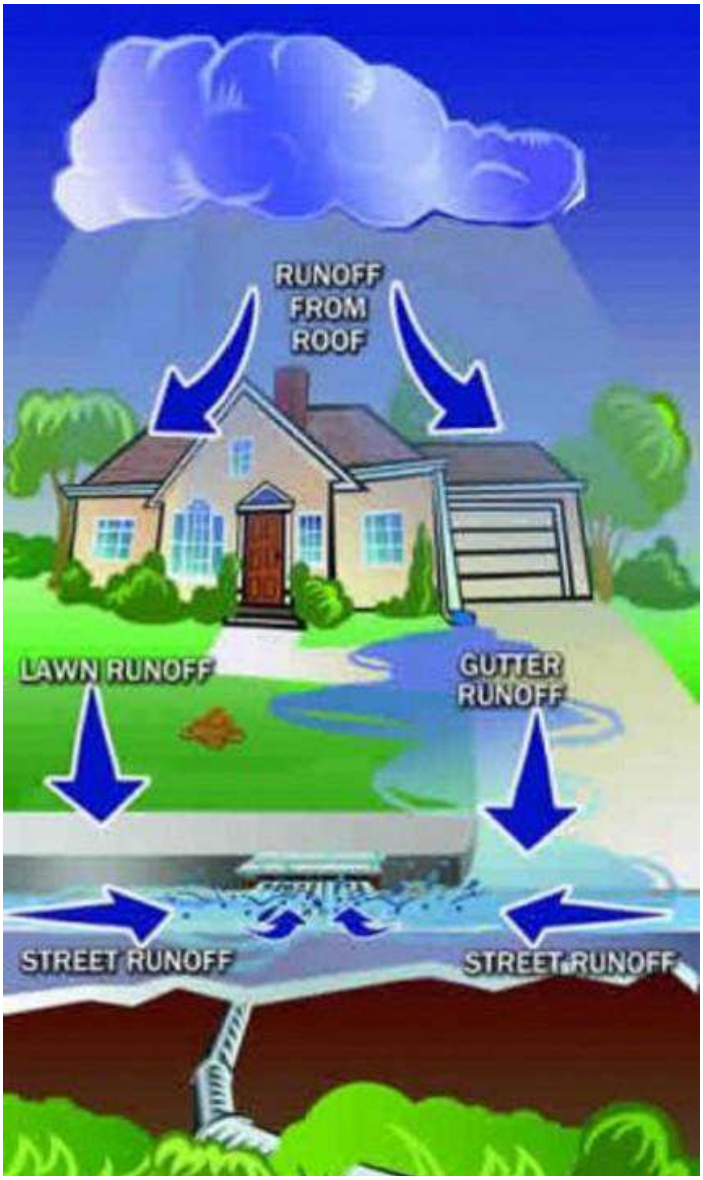
LOWER ALLEN TOWNSHIP, PA – A Township of the First Class

(http://www.latwp.org)

MS4 Information



(http://www.latwp.org/wp-content/uploads/Stormwater-Runoff1.jpg)Lower Allen Township's 2018 General MS4 Permit is effective from March 16, 2018 through March 15, 2023. The Township is required to report annually to the Pennsylvania Department of Environmental Protection (PA DEP), since the entirety of the township is located within the urbanized area. The Township will monitor the Stormwater Management Program (SWMP) and update it as necessary, including the Good Housekeeping Operation & Maintenance Program targeting Minimum Control Measure (MCM) #6. As part of the Township's authorization to discharge runoff from the MS4 to surface waters of the Commonwealth, there are specific requirements that include pollution prevention and good housekeeping for municipal operations to improve water quality.

There is no widget. You should add your widgets into **MS4** sidebar area on **Appearance => Widgets** of your dashboard.

MS4 Program Near Term Efforts

- Complete and submit annual report
  - Refine and continue implementation of the SWMP
  - Increase program documentation
  - Evaluate new permit requirements and prepare implementation schedule
  - Implement Chesapeake Bay Pollution Reduction Plan (PRP)

MS4 PROGRAM LONG TERM EFFORTS

- Revise and update target audience list as needed
  - Step up our public involvement and participation and outreach programs
  - Prepare for the changes in the new PAG-13 Permit (2018-2023)
  - Put a greater emphasis on water quality

POLLUTION REDUCTION PLAN (PRP)

- Lower Allen Township prepared the Pollution Reduction Plan by using Instructions from PA Department of Environmental Protection (PADEP).
  - Lower Allen Township is required to reduce pollutants within the next 5-year permit term period by a 10% reduction in sediment.
  - The PRP proposes to retrofit 10 Stormwater Management Basins to bioretention areas/basins in the Township to reduce pollutants to the waters of the commonwealth. Four of the areas where the basins are located are owned by Lower Allen Township. Six of the locations are privately owned and will require easements.
  - The details of the retrofit projects will be determined after the PRP is approved by PADEP.

STORMWATER UPDATES

2020 Stormwater Projects – Your Stormwater Fees at Work!

As part of our Pollution Reduction Plan (PRP) mandated by the Pennsylvania Department of Environmental Protection (PADEP), Lower Allen Township will be retrofitting two stormwater detention basins into Bioretention Facilities this year on Township owned property. The project locations are as follows:

Lower Allen Township Public Works Facility - 1400 Saint Johns Road, Camp Hill – basin is located in front of the public works building along Saint Johns Road.
Sheepford Crossing West – Basin is located at the intersection of Lisburn Road and Sheepford Road.

The projects are going out to bid this spring with construction beginning late spring/summer. Completion is expected by October of this year. The basins are required to be retrofitted due to a federal mandate from the Environmental Protection Agency (EPA) and PADEP to remove pollutants from the Township's stormwater runoff. Retrofitting the basins from detention basins into bioretention facilities will reduce the pollutants that enter our stormwater runoff that reaches the Cedar Run, Yellow Breeches Creek, Susquehanna River, and eventually the Chesapeake Bay.

The retrofit projects will involve several steps:

1. Excavate and remove existing soil in basin bottom.
2. Amend topsoil by combining it with compost to create a higher level of soil porosity.
3. Plant native plants with deep root systems in the basin bottom to filter out pollutants and infiltrate stormwater.
4. Construct a stone berm at the outlet structure of the basin to hold a shallow volume of water for a short period of time to retain runoff from small storms for treatment and infiltration.

There will be additional stormwater basin retrofit projects in Lower Allen Township in the coming years as part of our PRP. Look for stormwater project updates in future articles of the Township Newsletter. If you have any questions regarding any of the upcoming projects please contact Rebecca Davis, Stormwater Program Manager, at rdavis@latwp.org, or 717-975-7575 ext. 1010.

Lower Allen Township Public Works Facility (Existing Conditions)

Sheepford Crossing West Basin (Existing Conditions)

Municipal Separate Storm Sewer System (MS4) Update: Maintaining your grass swale

In many neighborhoods and commercial properties, stormwater runoff (rain and melting snow) from building roofs, driveways, and roads is directed into grass drainage swales. They are designed to convey stormwater runoff safely downstream and can be located along the side property lines between adjacent houses, rear property lines, along roads and parking lots.

During large storms, swales can direct runoff to other stormwater facilities or to the storm drain system. Swales can cause flooding and ponding problems if they are not maintained properly. The grass covering the side and bottom slopes of a swale provides a filtration surface for the water and helps to reduce the flow velocity.

Actions you can take to maintain your swale in good working condition include:

Monthly

- ⇒ Inspect your swale after storms to make sure that rainwater has drained and there is no erosion.
- ⇒ Remove sediment, trash, and debris from in and around the swale.

Seasonally

- ⇒ Mow grass no shorter than 2 ½ - 3 inches. Remove or compost tall grass clippings.
- ⇒ Manually remove any weeds or invasive plants
- ⇒ Remove or compost leaves in the fall. Leaves may block the flow of water and prevent the water from infiltrating.
- ⇒ Adjust the mower height to avoid scalping the edges of the side slopes.

As Needed

- ⇒ Reseed any bare areas.

Don't

- ⇒ Use fertilizer or pesticides in your swale.
- ⇒ Over mow the swale or mow immediately after a rain event.
- ⇒ Do not install sheds, playground equipment, fences or any other structure in drainage swales.

Remember

- ⇒ Grass drainage swales are designed and constructed to protect you and your property from potential flooding and ponding problems.
- ⇒ If you own a drainage swale, please make sure that it functions as designed.
- ⇒ As the property owner, you are responsible for the maintenance of your grass drainage swale!
- ⇒ By maintaining your swale, you are doing your part to help the environment and protect the local streams and ultimately the Chesapeake Bay.

If you have any questions regarding swale maintenance or stormwater runoff please contact Rebecca Davis, MS4 Coordinator, at rdavis@latwp.org, or 717-975-7575 ext. 1010.

MS4 UPDATES

MS4 (MUNICIPAL SEPARATE STORM SEWER SYSTEM) UPDATE
PROTECT OUR WATERSHED

SPRING TIPS

MEASURE
Always follow directions to use proper amounts of fertilizers and herbicides. Too much can wash off your property into storm drains and can harm aquatic life.

REUSE
Keep grass at least 3" to promote healthy root growth. Dispose of clippings in a compost pile or yard waste bag so they don't wash into storm drains. Clippings also make great natural mulch!

CARE
Have a spill kit handy to immediately clean up any spills in your driveway or the road like gas and oil leaks. Report any major spills to the Township, at *www.latwp.org, or 717-975-7575.*

CONSERVE
Watch your watering! Lawns only need about 1" of rain per week. Overwatering can result in runoff, which can carry fertilizers and herbicides along with it. Avoid watering during mid-day.

CLEANUP
Get involved in a local stream cleanup. Check out the Yellow Breeches Watershed Association's website: *www.ybwatershed.org,* for updates on stream cleanup dates and events.

WASH
Wash cars at a commercial carwash, where wash water is connected to sanitary sewers and treated. At home, wash your car in the grass, not driveway and direct the soapy water away from storm drains.

Visit www.latwp.org and click on MS4/Stormwater - for more ways to help clean up our stormwater runoff!

Buses & RVs

The Board of Commissioners, at their June 24th public meeting, enacted Ordinance 2019-02, which governs the parking of buses and RVs in Residential Zones (R-1, R-2, R-3, and MUN).

RVs Recreational vehicles of 30 feet or less in overall length, used for transportation of an occupant of a residential premise may be parked within the front, rear or side yards of a residential premise, provided the location thereof is approved under Chapter 220, Zoning, as an impervious off-street parking space. Such vehicles may be parked on the residential street for no more than 72 hours for the purpose of loading, unloading, or cleaning. All recreational vehicles stored on a residential property must be currently licensed, registered, and inspected.

Recreational vehicles of greater than 30 feet may only be stored on a residential property or residential street for up to 72 hours for the purpose of loading, unloading, or cleaning. No recreational vehicle may have slide-outs open while parked on a public street.

Buses Standard Buses are not permitted to park in Residential Zones (R-1, R-2, R-3, MUN) at any time. Currently licensed and registered Small Buses may be parked only on a driveway or pad constructed of impervious material, the dimensions of which at least encompass the entire length and width of the bus parked thereon. Small Buses are not permitted to park on any residential street at any time. Restrictions in this section shall not apply to micro-coaches, micro-buses, or high-capacity vans.

Right-of-Way obstructions This ordinance also clarifies that roll-off waste containers, storage pods, or similar containers may not be placed on any street or public right-of-way without a temporary exemption issued by the Manager's office. An application for exemption will be reviewed for:

- Safety hazard or sight distance obstruction.
- Valid reasons why the ROW obstruction can't be placed on the property instead of the street.
- Reasonable duration of the placement.
- Potential interference with road maintenance, leaf collection, snow and ice removal, or stormwater drainage.

The full ordinance may be viewed on the Township website under the Elected Government tab, *Ordinances*.

The 2020 Census At A Glance

Important - Once every decade, the federal government conducts a census of the entire population to count everyone in the United States and record basic information about them. Our nation's founders believed this data was so important that they mandated the decennial census in the Constitution.

Easy and Convenient - In 2020, for the first time ever, the U.S. Census Bureau will accept responses online, but you can still respond by phone or mail if you prefer.

Confidential and Secure - Strict federal law protects your census responses. It is against the law for any Census Bureau employee to disclose or publish any census information that identifies an individual or business. Census Bureau employees take a lifelong pledge of confidentiality to handle data responsibly and keep respondents' information private. The penalty for wrongful disclosure is a fine of up to $250,000 or imprisonment for up to 5 years, or both. No law enforcement agency (not the DHS, ICE, FBI, or CIA) can access or use your personal information at any time. Data collected can only be used for statistical purposes that help inform important decisions, including how much federal funding your community receives.

The Census Bureau will never ask for your Social Security number, bank or credit card account numbers, money or donations, or anything on behalf of a political party. The Census Bureau has a robust cybersecurity program that incorporates industry best practices and federal security standards for encrypting data.

Whether you receive a census form in the mail, or a census taker visits your home, please take the time to participate in the census. Getting an accurate count of our population is important to our legislative representation at both the State and Federal levels and may have an impact on certain revenues available to the Township. More information about the census can be found at https://2020Census.gov.

The U.S. Census Bureau is hiring census takers. For more information and to apply online, go to https://2020census.gov/jobs or call 1-8055-JOB-2020.

Winter Stormwater Pollution Prevention Tips

Start shoveling early! The more snow you remove, the less salt and sand you'll need. Below are some do's and don'ts when shoveling or plowing snow to prevent stormwater pollution.

Do:

⇒ Pile snow in locations with the most opportunity to infiltrate into the ground.
⇒ Pile snow in areas where water does not pond.
⇒ Clear away any snow that may have been piled onto the storm drains.
⇒ Clear your downspouts to allow melting roof snow to flow and not collect at your foundation.
⇒ Pay special attention to places that are eroding during snow melt and plan to improve these areas in spring using plants that can slow and stop erosion, like native grasses and meadow plants or native trees and shrubs.

Don't:

⇒ Do not pile snow on top of storm drains or near water bodies and wetlands.
⇒ Do not pile snow onto rain gardens or bioretention areas.
⇒ Do not overuse de-icing chemicals and salts and avoid spreading around sensitive areas like waterways and your private well.

Tips to Avoid Using Salt as a De-icer:

⇒ More salt does not equal more melting snow. Follow product instructions when spreading deicing material and give it time to work. Sweep up any material remaining after the snow/ice melts.
⇒ When temperatures hit 15° F or below, salt is not effective. Consider using traction materials that contain an acetate, potassium chloride, magnesium chloride, or cracked cornmeal instead of sand or kitty litter.

Vector Control Weights & Measures

As of 10/1/2019 Vector Control is finished setting data collection traps. In 2019 we set 1,383 gravid (adult mosquito) traps compared to last year we collected 462. In dips (larvae mosquitoes) we have 892 collections whereas in 2018 we had collected 222. We performed 271 larval treatments through the season. Last year we had 118 treatments throughout the county.

Last year a total of 242 West Nile **positive** mosquito samples were collected. In 2019, we have collected **nine** samples that have tested positive. One of the samples was from New Cumberland Borough, one from Dickinson Township, one Mount Holly Borough, two from Shippensburg Township, Camp Hill Borough, and Silver Spring Township. All appropriate steps were taken to combat the problems.

We set and collected more traps this year than any year prior since the beginning of the program in 2001. However, the number of mosquitoes per trap is much lower than previous years. We attribute this to many of the additional larval treatments we have conducted this year, as well as the drier weather we experienced the last couple of months.

Throughout 2019 members of Vector Control participated in many outreach opportunities. We partook in First Friday in Carlisle, National Night Out in Camp Hill and Silver Spring Township, the Carlisle Farmers Market, and other municipal events. We performed five separate interviews for local television news stations, and one radio interview. We are looking for opportunities to preform outreach in more municipalities for 2020. We also performed a tire collection in Mechanicsburg, and would like to attempt to host one on the Western end of the county in 2020.

Pictured to the left is a gravid trap and the number of gravid traps set throughout the county in 2019

Wanted to let residents know that, starting July 1st, an intern from Harrisburg University will be using a drone to take photos of the stormwater retention basins in the Township. This is part of the Township's Stormwater Pollution Reduction Plan (PRP).

The intern will be carrying Township ID. He will only be flying the drone over the stormwater basins. Flights will take about 20 minutes.

He will be photographing Township-owned basins first, beginning with the two basins in Sheepford Crossing, then the Village of Moreland and the Public Works Facility. Permission is being obtained for him to do the privately-owned basins at the Westport Business Center, Rossmoyne Business Center, BJs Wholesale Club, The Heights of Beacon Hill, Bethany Village West, and the United Methodist Homes.

The project is expected to continue through the month of July.

Upcoming Detention Basin Retrofit Projects:

As part of our Pollution Reduction Plan (PRP) mandated by the Pennsylvania Department of Environmental Protection (PADEP), Lower Allen Township will be retrofitting two stormwater detention basins into Bioretention Facilities on Township-owned property. The project locations are as follows:

Lower Allen Township Public Works Facility - 1400 Saint Johns Road, Camp Hill – basin is located in front of the Public Works building along Saint Johns Road.

Sheepford Crossing West – Basin is located at the intersection of Lisburn Road and Sheepford Road.

Construction is expected to begin in late June 2020 with completion expected to be early fall of 2020. This schedule is weather dependent. The basins are required to be retrofitted due to a federal mandate from the Environmental Protection Agency (EPA) and PADEP to remove pollutants from the Township's stormwater runoff. Retrofitting the basins from detention basins into bioretention facilities will reduce the pollutants that enter our stormwater runoff that would reach the Cedar Run, Yellow Breeches Creek, Susquehanna River, and eventually the Chesapeake Bay.

The Township will continue to own and maintain the facilities once completed.

If you have any questions regarding this upcoming project please contact Rebecca Davis, Stormwater Program Manager, at rdavis@latwp.org, or 717-975-7575 ext. 1010.

Stormwater Updates

POSTED ON FEBRUARY 13, 2019 / BY HELEN GRUNDON (HTTP://WWW.LATWP.ORG/?AUTHOR=5) / IN TOWNSHIP NEWS (HTTP://WWW.LATWP.ORG/?CAT=25)

STORMWATER FEE BEGINNING APRIL 2019

Beginning April 1, 2019, you will see a **NEW** Stormwater Fee as a line item on your existing Sewer and/or Refuse bill from the Township, or you will begin to receive a Stormwater bill from the Township if you are currently not served by public sewer or refuse. This is a quarterly fee that is being assessed on all properties in Lower Allen Township. Residential, including vacant properties, will be billed a flat $19.00 fee per quarter. Non-residential and multifamily units will be billed based upon the area of impervious coverage on the property.

The dedicated source of funding generated by the Stormwater Management Program Fee provides the resources to address the Environmental Protection Agency (EPA) and the Pennsylvania Department of Environmental Protection (PADEP) mandated Municipal Separate Storm Sewer System (MS4) compliance requirements. The Township's Chesapeake Bay Pollution Reduction Plan (PRP) was approved by PADEP in December of 2018. Township staff is currently working on implementation of that plan, which includes the conversion of 10 detention basins into bioretention facilities within a five-year period. In addition to the PRP implementation, the Operation and Maintenance of our Stormwater System is a significant portion of the Stormwater Program.

If you received your stormwater bill and think there might be an error, you should complete a Stormwater Appeal Form and submit it to Rebecca Davis, MS4 Coordinator, at rdavis@latwp.org (mailto:rdavis@latwp.org). To file an appeal, go to the Lower Allen Township website, www.latwp.org (http://www.latwp.org/), and click on the Lower Allen Stormwater Icon. A link to a form fillable appeal form will be at the bottom of the page. Forms are also available at the Township office.

Updates on the Stormwater Program will be placed on the Township website (www.latwp.org) and in future issues of the Township News. If you have any questions regarding the fee, or Stormwater Program, please contact Rebecca Davis, MS4 Coordinator, @ rdavis@latwp.org (mailto:rdavis@latwp.org), or 717-975-7575 ext. 1010.

STORMWATER PROGRAM FEE UPDATE 2-8-19

The Lower Allen Township Board of Commissioners heard a presentation from Arcadis, the Township's consultant, regarding the Stormwater Fee and Feasibility Study at their regular meeting on October 8, 2018. Recommendations regarding the Stormwater rate structure were discussed with the Commissioners as well as the Stormwater Management Program scope and budget.

The 5-year Stormwater Program budget is projected to be approximately 1.2 million dollars per year. Most of the money in the budget is allocated to the EPA and PADEP federally-mandated Municipal Separate Storm Sewer System (MS4) Compliance requirements. Additional budgeted funds will be spent on stormwater infrastructure maintenance, inspection and replacement as required.

The following rate structure was presented to the Commissioners: Residential properties, including vacant properties, will be billed a flat fee. Non-residential and multifamily units will be billed based upon the impervious area on the property. An Equivalent Residential Unit (ERU) was calculated to equal 3,115 SF. This number was based upon a digitized study of buildings, sidewalks, and driveways in the Township. To determine the fee per ERU, the total number of ERUs in the Township was calculated and this number was divided by the Stormwater Program costs. The quarterly stormwater fee for Lower Allen Township properties was presented to the Commissioners as $19 per ERU.

Residential and vacant properties will be billed a flat rate of $19.00 (1 ERU) per quarter. Non-residential and multifamily units will be billed based on the number of ERUs (3,115 SF) that the property has, times the rate of $19/per ERU, per quarter. The chart below illustrates fee examples:

	OWNER	SF	ERU's	QUARTERLY FEE/ERU	YEARLY FEE
1	Residential Property	Inclusive	1	$19	$76
2	School	337,092	108	$2,052	$8,208
3	Grocery Store	460,753	148	$2,812	$11,248
4	Mall	1,818,727	584	$11,096	$44,384

At the conclusion of the presentation by Arcadis, the Commissioners voted unanimously to advertise an ordinance authorizing the Stormwater Fee. Ordinance 2018-10 was enacted by the Board of Commissioners on October 22, 2018, authorizing LATSA to enact and collect stormwater fees and to provide a system for collection of the fees for payment to Lower Allen Township to maintain stormwater facilities and fund other stormwater related expenditures. At their November 1, 2018 regular meeting, LATSA unanimously approved Resolution 2018-A-01, enacting the Stormwater Fee rate of $19.00/ERU to be billed quarterly. A Stormwater Credit and Appeals Policy is being drafted currently and will be reviewed and discussed by the LATSA board at their monthly meetings.

The initial quarterly Stormwater Fee bills are projected to mailed in April 2019. If you currently receive a refuse and/or sewer bill, you will see this charge as a separate line item on your bill. If you do not receive a refuse and/or sewer bill, you will now receive a stormwater fee bill from the Township.

Arcadis's October 8, 2018, presentation is available for review on the Lower Allen Township website:

http://www.latwp.org/wp-content/uploads/Lower-Allen-Stormwater-Fee-Study-Board-Presentation-8Oct2018.pdf. (http://www.latwp.org/wp-content/uploads/Lower-Allen-Stormwater-Fee-Study-Board-Presentation-8Oct2018.pdf)

Updates on the Stormwater Program and information about the Stormwater Authority will be placed on the Township website (www.latwp.org) and in future issues of the Township News. If you have any questions regarding the fee, stormwater program or the Stormwater Authority, please contact Rebecca Davis, MS4

Lower Allen Township, PA
Published by Thomas Vernau · December 5, 2019 ·

NEXT WEEK IS THE FINAL WEEK FOR LEAF COLLECTION.
Public Works crews will begin the final week of leaf collection on Monday, December 9th. Progress may be tracked on the Township's website at www.latwp.org.

Please do not block leaves with vehicles, and keep stormwater inlets clear. Friday Dec. 13th will be the final day for leaf collection.

Published by Helen Grundon · December 16, 2019 ·

Leaf collection is completed 2019, Please DO NOT place leaves in the street. Placing leaves in the street after the pick-up period is a violation of the Stormwater Ordinance and will be treated as such. Please bag leaves and place them out with your trash. Thank you for your cooperation.

LOWER ALLEN TOWNSHIP

Best Management Practices for Stormwater Management on Construction Sites

Plan in Advance to Prevent Pollution!

Remove existing vegetation only as needed. This will enhance site stabilization.

Schedule excavation, grading, and paving operations for dry weather periods.

Train and educate employees and subcontractors about stormwater management requirements and pollution prevention.

Have extra erosion controls on site in case of a control failure.

Designate a specific area away from storm drains and waterways for material storage and equipment maintenance.

Protect storm drains and streams near the site. Use inlet protection and regularly check areas after storms.

Review regulations to make sure you have obtained the required permits necessary for construction activities.

REMEMBER:
Allowing stormwater with sediment pollutants to leave your construction site and enter a storm drain or waterway is against federal and state laws!

The most common source of pollution associated with construction activities is **SEDIMENTATION** caused by erosion.

Failure to maintain adequate **Erosion and Sediment Controls (E&SC)** at construction sites often results in sediment discharge into the storm drain system and ultimately waterways.

Once this discharge reaches waterways, it creates problems such as turbidity (cloudiness of the water) and chemical changes to the water. These changes effect drinking water quality and can even kill fish and other aquatic life.

The only thing that should leave your project's site and enter a storm drain is clean, uncontaminated **stormwater.**

The Yellow Breeches Creek and Cedar Run are only a Storm Drain away!

Please remember to:

- Clean up spills immediately
- Sweep frequently and limit access to/from the site.
- Stabilize construction entrances and exits and perform maintenance when necessary.
- Do not stockpile materials near a storm drain, wetland, or stream.
- Maintain silt fence and silt socks to make sure no materials are getting beyond them; replace/repair as necessary.
- Remove trash and litter from the site.
- Check trash containers for leaks and keep them covered.

If you have questions prior to the start of construction please contact the Township to schedule a site meeting. We would be happy to review these regulations with you prior to start of construction activities.

For a more comprehensive list of Best Management Practices and stormwater guidance for the construction industry, go to EPA's website at :www.epa.gov and search "construction stormwater."

LOWER ALLEN TOWNSHIP

Best Management Practices for Fresh Concrete and Mortar Application on Construction Sites

What Can YOU do?
Best Management Practices

At the yard and construction site, always store dry and wet materials under cover, protect them from rainfall and runoff, and away from storm drains and waterways.

Secure bags of cement after they are open. Be sure to keep wind blown cement powder away from gutters, storm drains, rainfall and runoff.

Wash out concrete equipment/mixers/trucks only in designated wash out areas in your yard. The wash out areas should be lined and identified.

Dispose of settled, hardened concrete in the proper waste receptacle. Whenever possible, recycle washout by pumping back into mixers for reuse. Never dispose of washout into the street, storm drains, drainage ditches, or streams.

DURING CONSTRUCTION

1. Don't mix up more fresh concrete or mortar than you will use in a two-hour period.
2. Set up and operate small mixers on tarps or heavy plastic drop cloths. Clean tools in a contained area.
3. Protect application of fresh concrete and mortar from rainfall and runoff until the material has dried.
4. Locate concrete washout facilities near the area where concrete is being poured. The facilities should not be placed within **50** feet of storm drains, open ditches, or waterbodies.
5. On large construction sites with extensive work, washouts should be placed at multiple locations for use by ready mixed truck drivers. The washouts should be easily identified.
6. Inspect concrete washout facilities daily and after heavy rains to check for leaks, identify if the plastic liner has been damaged by construction activities, and determine whether the washout is filled over 75 percent of its capacity. Replace and repair as required.
7. When breaking up pavement, be sure to pick up all the pieces and dispose of properly. Dispose of small amounts of excess **DRY** concrete, grout, and mortar in the trash.
8. When cleaning up after driveway or sidewalk installation, wash fines onto stabilized areas, not down the driveway and into the street and possibly the storm drains. If necessary divert runoff with temporary berms.

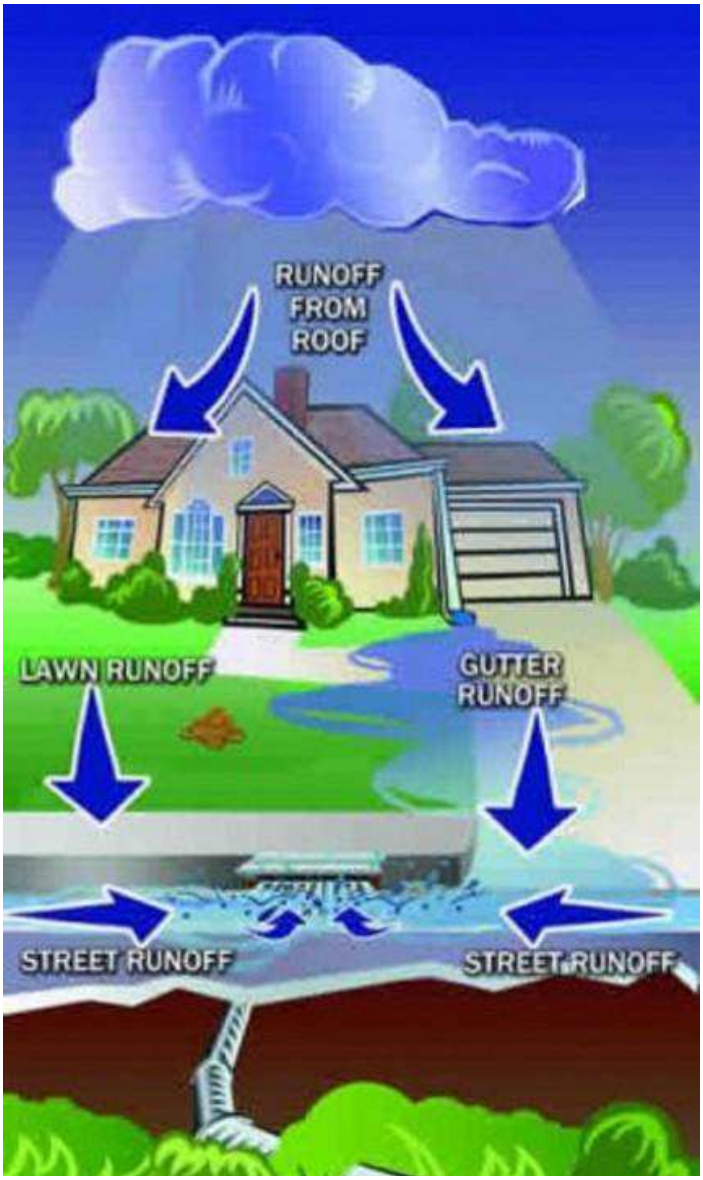
As an Owner, Operator, or supervisor of a construction site, you may be held financially responsible for any environmental damage caused by your subcontractor or employees. Concrete washout requirements should be included with your contracts with concrete delivery companies.

For more information on concrete washout requirements go to EPAs website link at: https://www3.epa.gov/npdes/pubs/concretewashout.pdf

LOWER ALLEN TOWNSHIP, PA – A Township of the First Class

(http://www.latwp.org)

MS4 Information



(http://www.latwp.org/wp-content/uploads/Stormwater-Runoff1.jpg)Lower Allen Township's 2018 General MS4 Permit is effective from March 16, 2018 through March 15, 2023. The Township is required to report annually to the Pennsylvania Department of Environmental Protection (PA DEP), since the entirety of the township is located within the urbanized area. The Township will monitor the Stormwater Management Program (SWMP) and update it as necessary, including the Good Housekeeping Operation & Maintenance Program targeting Minimum Control Measure (MCM) #6. As part of the Township's authorization to discharge runoff from the MS4 to surface waters of the Commonwealth, there are specific requirements that include pollution prevention and good housekeeping for municipal operations to improve water quality.

There is no widget. You should add your widgets into **MS4** sidebar area on **Appearance => Widgets** of your dashboard.

MS4 Program Near Term Efforts

- Complete and submit annual report
  - Refine and continue implementation of the SWMP
  - Increase program documentation
  - Evaluate new permit requirements and prepare implementation schedule
  - Implement Chesapeake Bay Pollution Reduction Plan (PRP)

MS4 PROGRAM LONG TERM EFFORTS

- Revise and update target audience list as needed
  - Step up our public involvement and participation and outreach programs
  - Prepare for the changes in the new PAG-13 Permit (2018-2023)
  - Put a greater emphasis on water quality

POLLUTION REDUCTION PLAN (PRP)

- Lower Allen Township prepared the Pollution Reduction Plan by using Instructions from PA Department of Environmental Protection (PADEP).
  - Lower Allen Township is required to reduce pollutants within the next 5-year permit term period by a 10% reduction in sediment.
  - The PRP proposes to retrofit 10 Stormwater Management Basins to bioretention areas/basins in the Township to reduce pollutants to the waters of the commonwealth. Four of the areas where the basins are located are owned by Lower Allen Township. Six of the locations are privately owned and will require easements.
  - The details of the retrofit projects will be determined after the PRP is approved by PADEP.

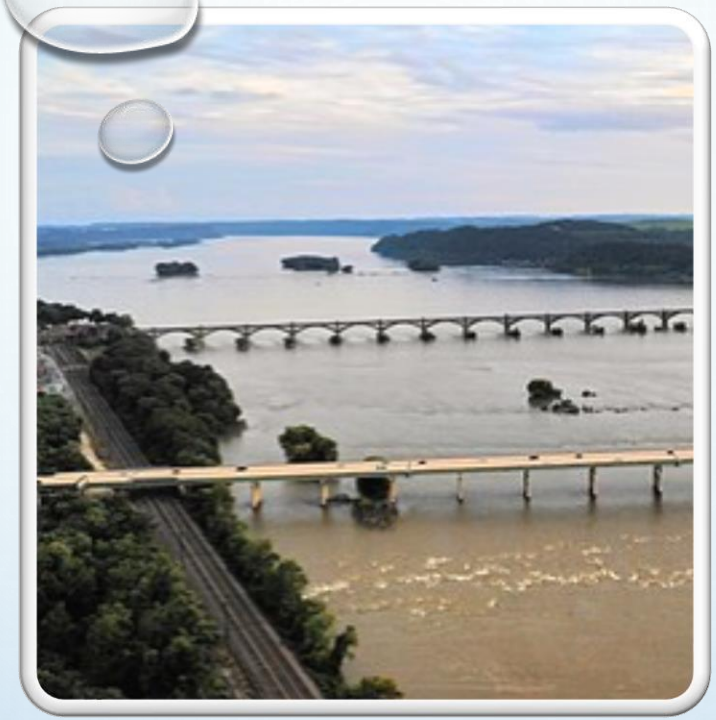
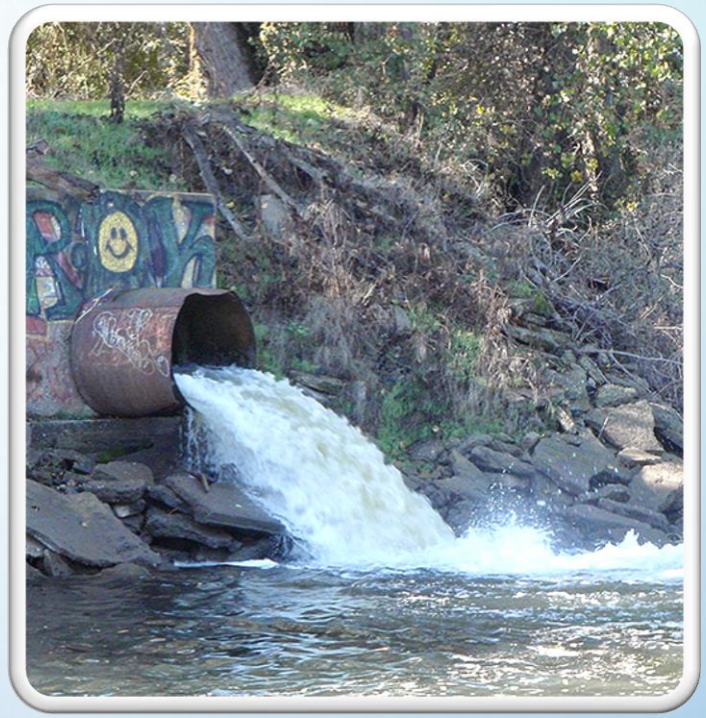
SOUTH MOUNTAIN PARTNERSHIP MS4 PRESENTATION





MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4)

REBECCA DAVIS, MS4 COORDINATOR – LOWER ALLEN TOWNSHIP

KELLY KURTAS, MS4 COORDINATOR - SOUTH MIDDLETON TOWNSHIP

OUR BACKGROUND

REBECCA DAVIS

- 1996 Graduate of Cumberland Valley High School
- 2000 Graduate of Juniata College – B.S. in Environmental Science
- Began career working for Engineering Consulting Firms: Performed Wetland Delineations, Reviewed Subdivision Plans, Zoning Ordinance Revision, Comprehensive Plans
- Moved to Municipal Government in 2004 Zoning & Building permit review, Planning, Stormwater Management, MS4
- Currently - MS4 Coordinator for Lower Allen Township, Cumberland County, PA
- Certified Chesapeake Bay Landscape Professional
- Certified Stormwater Inspector

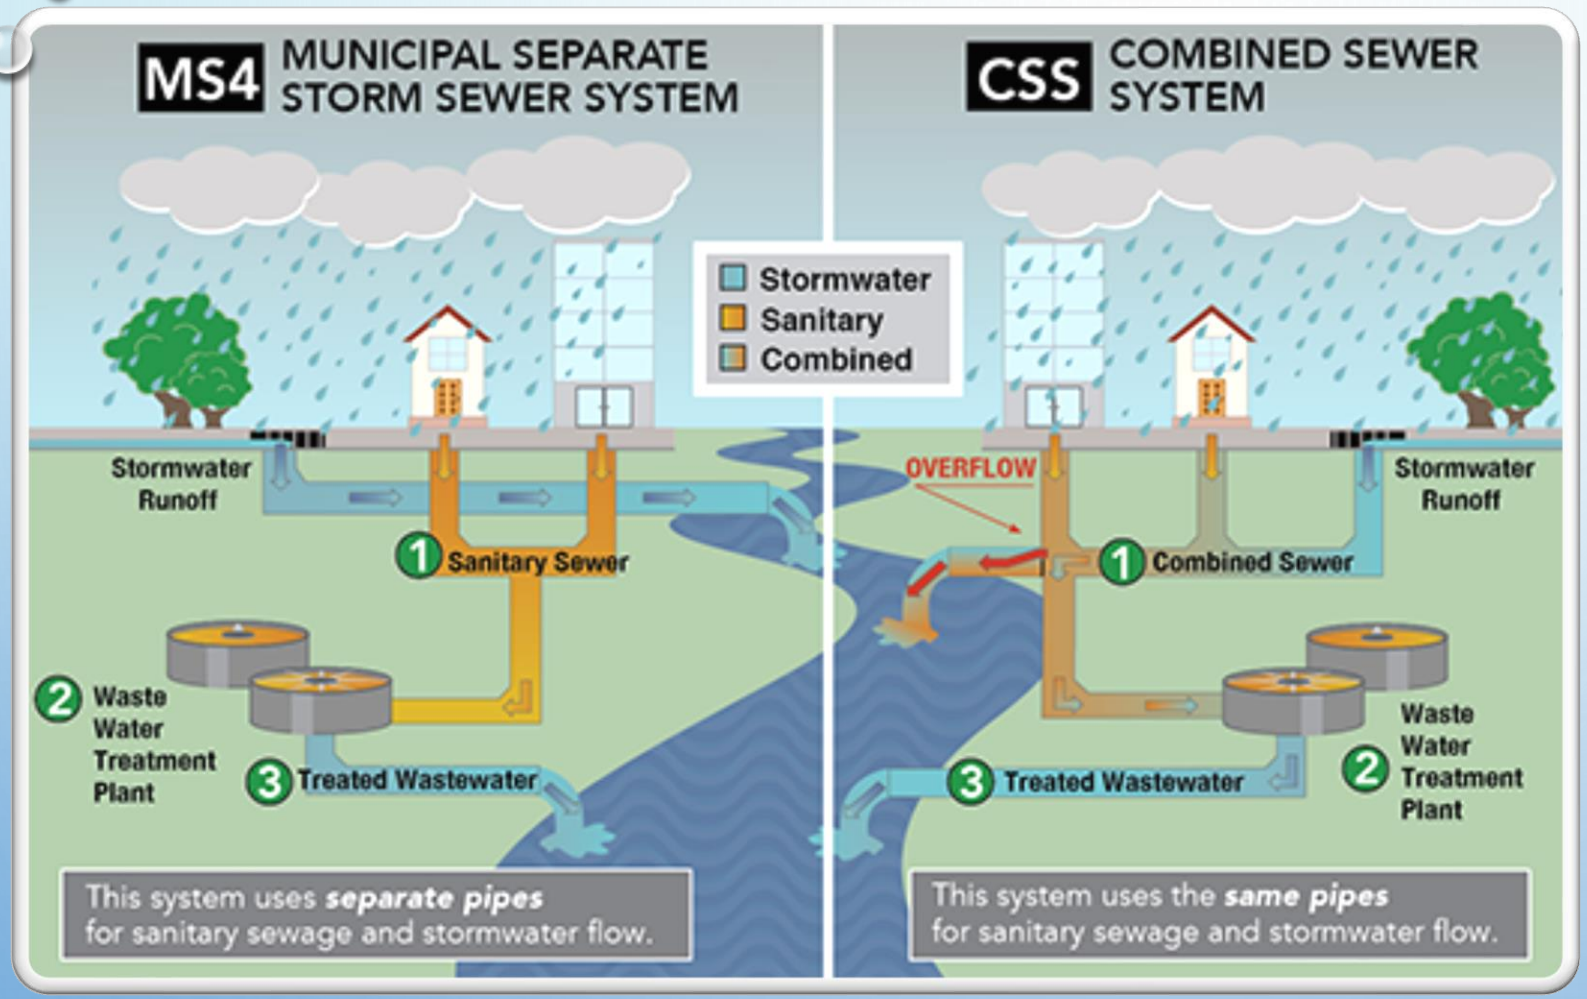
KELLY KURTAS

- 1996 Graduate of Archbishop Ryan High School
- 2000 Graduate of Shippensburg University– B.S. in Geography
- 2005 Shippensburg University – M.S. in Environmental Studies (Hydrology and GIS)
- 12 Years of experience working in private consulting focusing in floodplain management
- MS4 at Silver Spring Township
- Currently - MS4 Coordinator for South Middleton Township, Cumberland County, PA
- Certified Stormwater Inspector

GOALS OF DISCUSSION TODAY

- LEARN THE MEANING OF **"MS4"** AND THE REGULATIONS ASSOCIATED WITH DEVELOPING AND IMPLEMENTATION OF A **MS4** PROGRAM.

- LEARN HOW MUNICIPALITIES, WATERSHED ASSOCIATIONS, COUNTIES, AND THE PRIVATE SECTOR CAN WORK TOGETHER TO MEET THE REQUIREMENTS OF THE MS4 PROGRAM.



MS4

- MUNICIPAL
- SEPARATE
- STORM
- SEWER
- SYSTEM

WHAT IS AN MS4?

- AN MS4 IS A CONVEYANCE OR SYSTEM OF CONVEYANCES THAT IS:
  - OWNED BY A STATE, CITY, TOWN, VILLAGE, OR OTHER PUBLIC ENTITY THAT DISCHARGES TO THE WATERS OF THE COMMONWEALTH.
  - DESIGNED OR USED TO COLLECT OR CONVEY STORMWATER (ROADS, DRAINAGE SYSTEMS, CURBS, GUTTERS, PIPES, DITCHES.)

MS4 PERMIT PROGRAM FOR SMALL COMMUNITIES – PHASE II NPDES

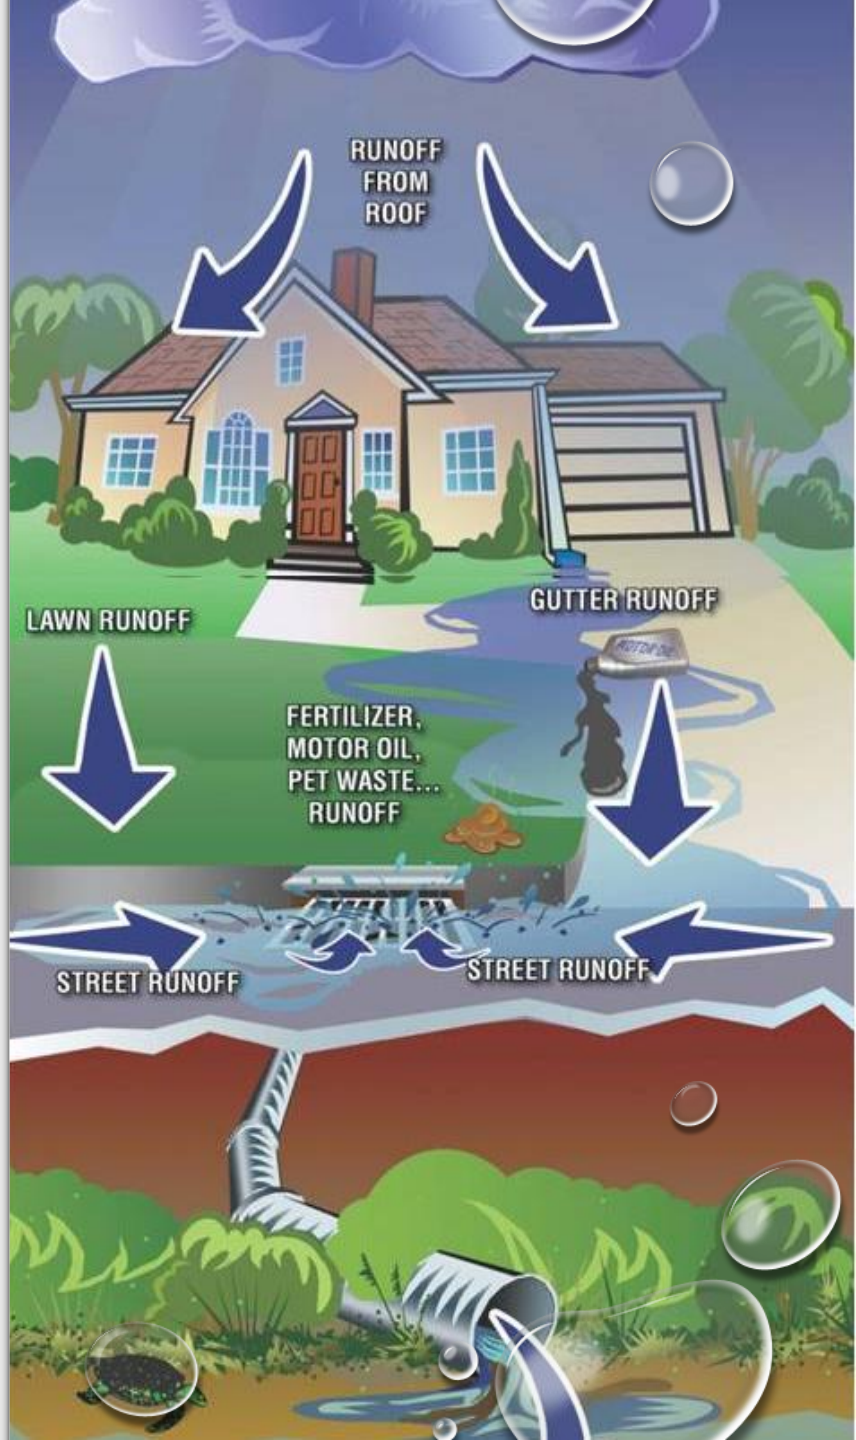
- FEDERAL REGULATION REQUIRES PERMIT FOR MUNICIPALITIES THAT ARE CLASSIFIED BY THE USEPA AS URBANIZED AREAS (BASED OFF THE US CENSUS).

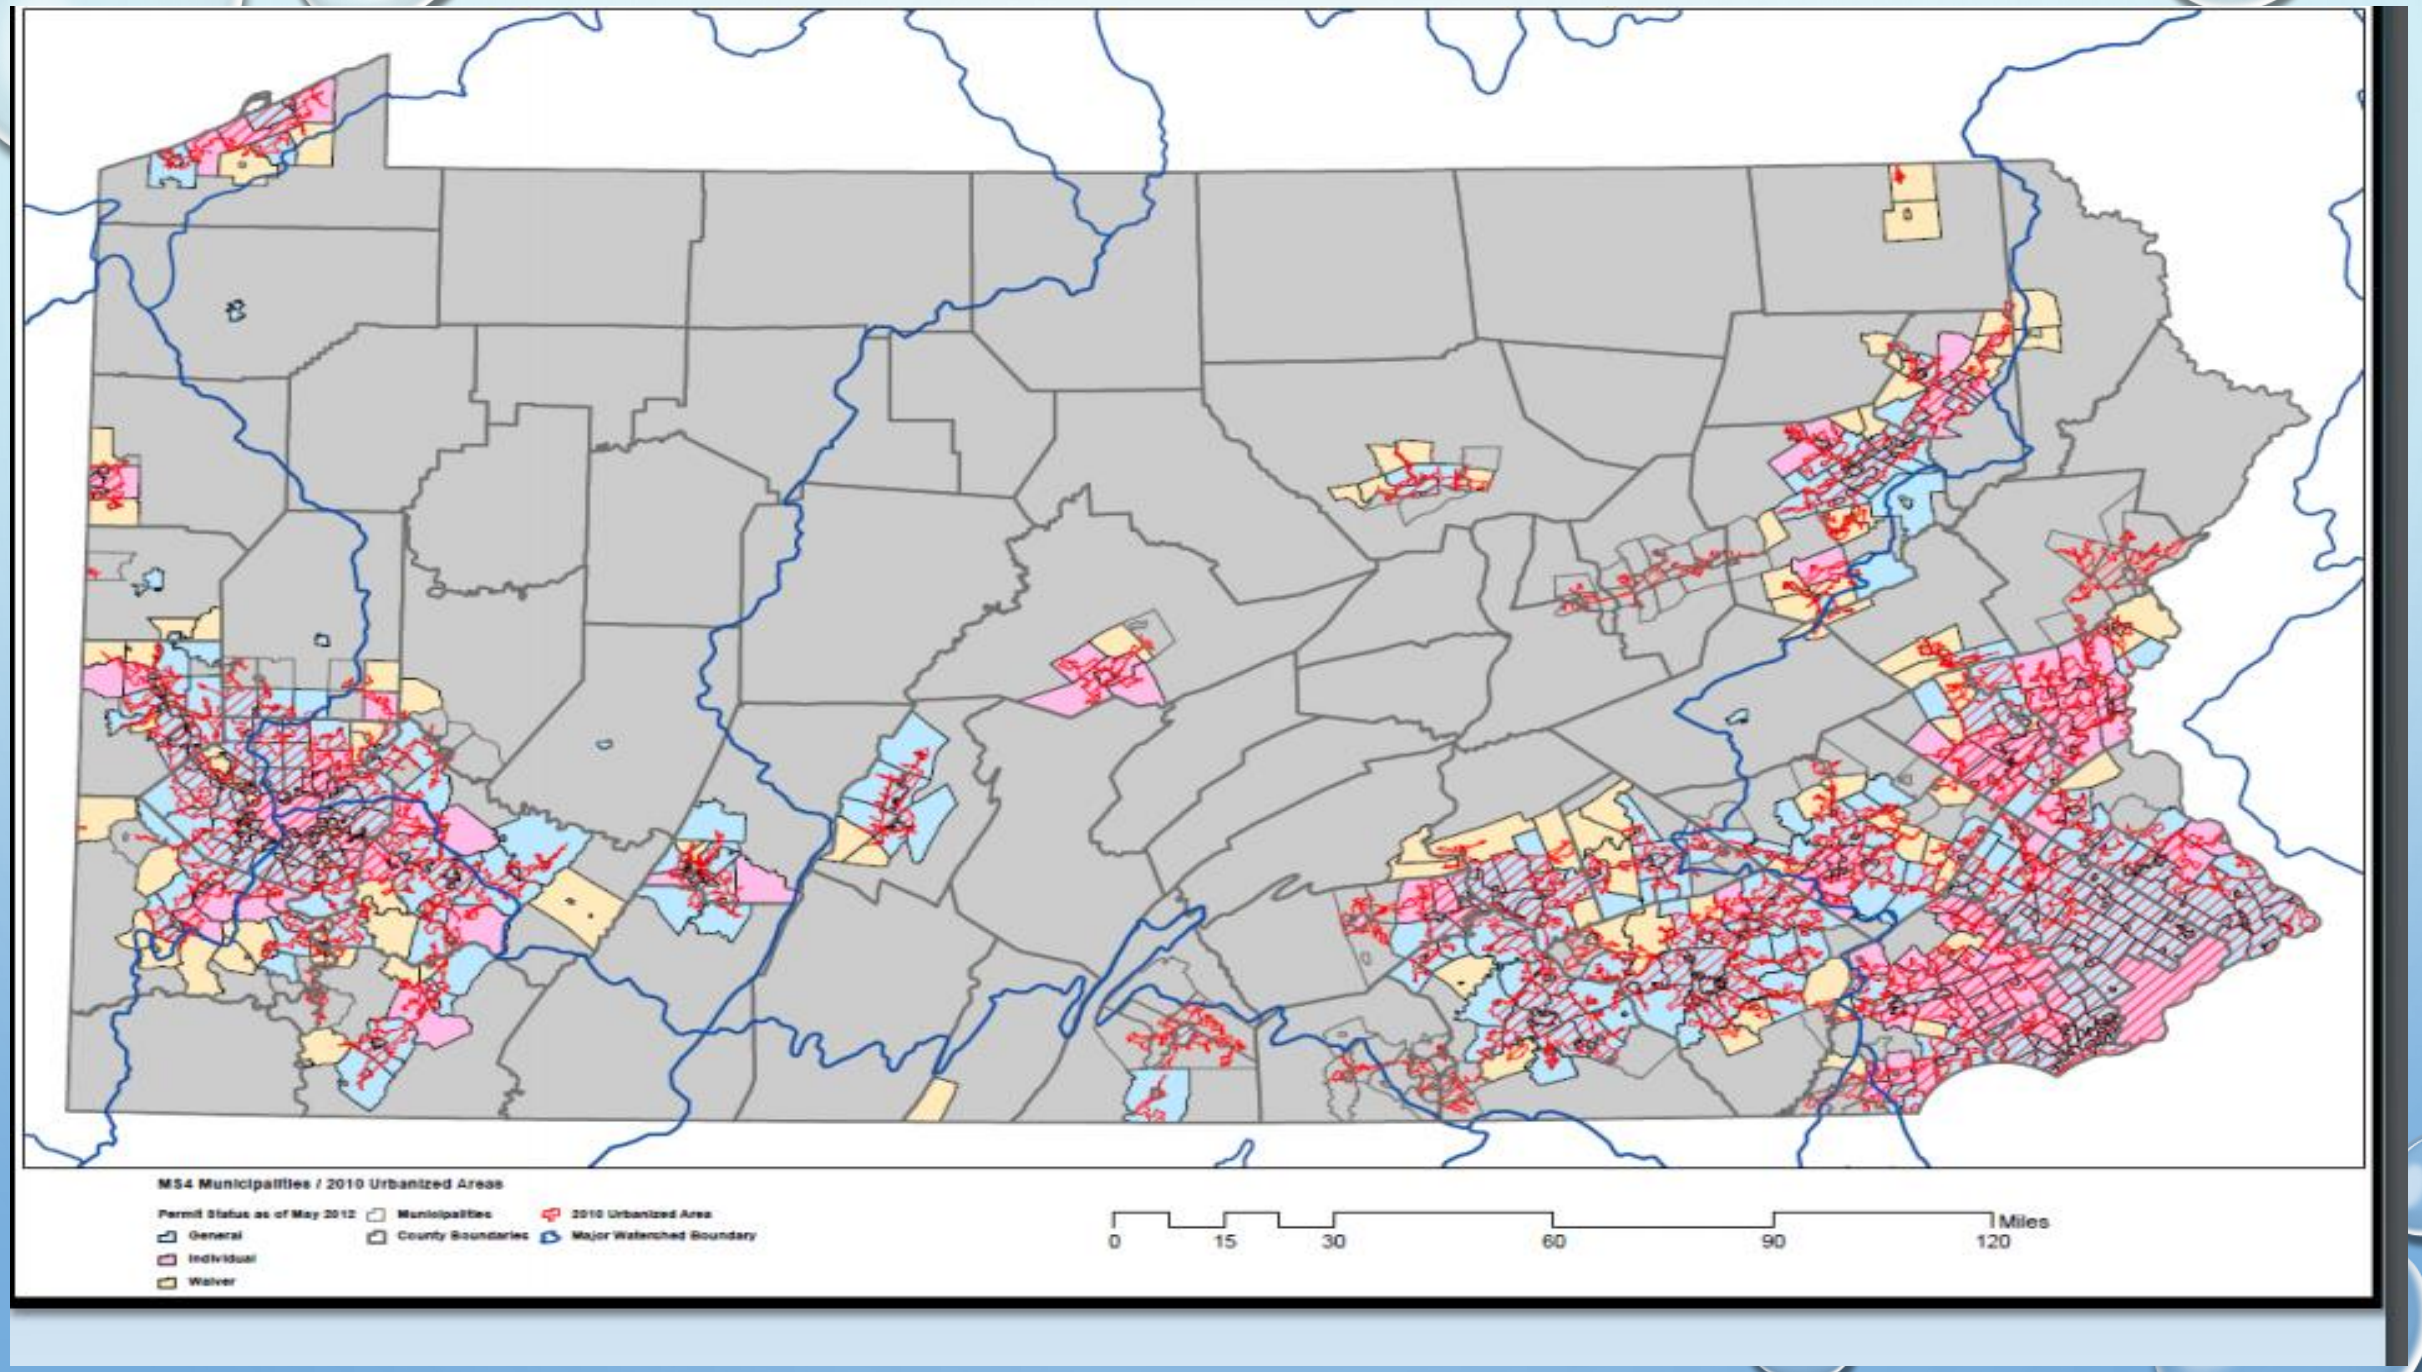
  - NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PAG -13.

PADEP CREATED THE STATE PERMITTING PROGRAM TO MEET THIS REQUIRED FEDERAL REGULATION.

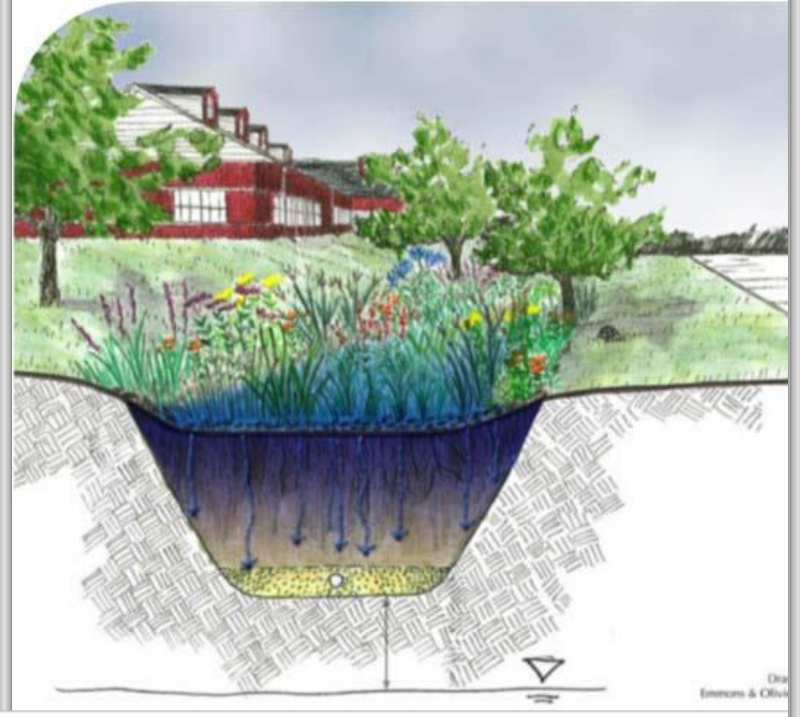
MS4 PERMIT PROGRAM

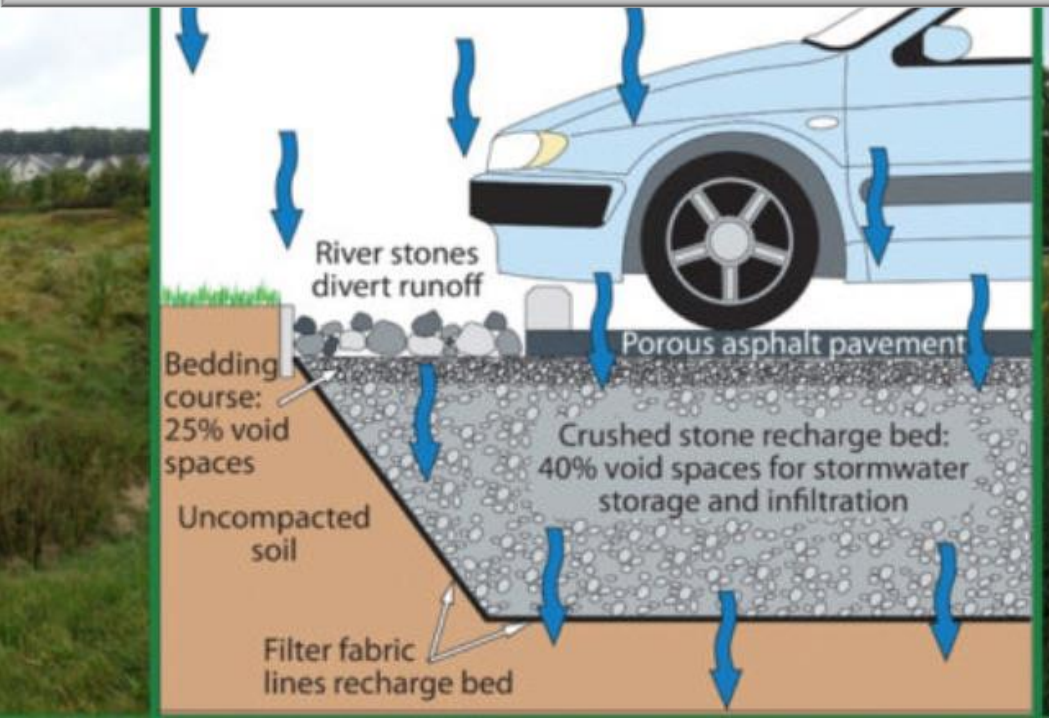
- POLLUTED STORMWATER RUNOFF IS TRANSPORTED BY MS4S AND DISCHARGED (UNTREATED) INTO LOCAL WATERBODIES.
- GOALS OF THE MS4 PERMIT PROGRAM:
  - REDUCE NITROGEN, PHOSPHORUS, AND SEDIMENTS IN STORMWATER RUNOFF
  - SLOW DOWN RUNOFF VELOCITY AND INFILTRATE STORMWATER RUNOFF – GROUNDWATER RECHARGE
  - THERE ARE CLOSE TO 1,000 MS4S IN PENNSYLVANIA

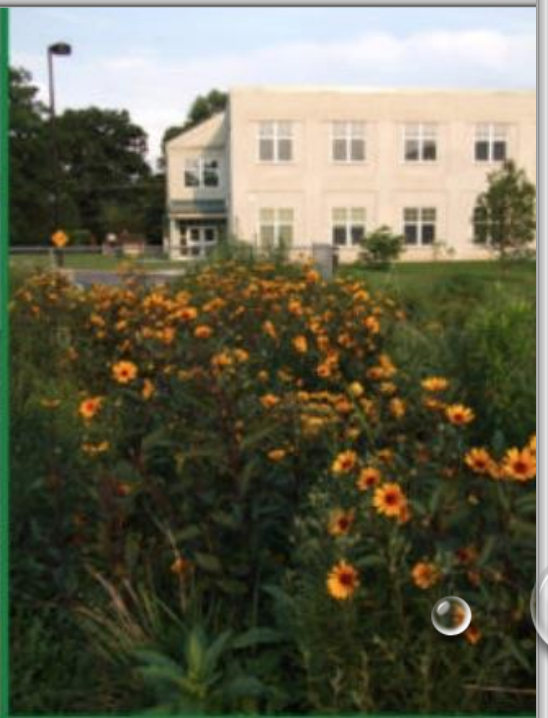




MS4 Municipalities / 2010 Urbanized Areas
Permit Status as of May 2012
General
Individual
Waiver
Municipalities
County Boundaries
2010 Urbanized Area
Major Watershed Boundary
0
15
30
60
90
120
Miles







BEST MANAGEMENT PRACTICES

STRUCTURAL

- GREEN ROOFS
- PERMEABLE PAVEMENT
- RAIN GARDENS
- BIORETENTION FACILITIES

NONSTRUCTURAL

- MULCH YOUR LAWN
- KEEP GRASS CLIPPINGS OUT OF THE STREET
- PICK UP AFTER YOUR PET
- RECYCLE
- DISPOSE OF HAZARDOUS MATERIALS PROPERLY

HOW DOES THE MS4 PERMIT WORK?

MUNICIPALITIES ACQUIRE A NPDES PERMIT THAT COVERS A 5-YEAR PERIOD.

THE PERMIT REQUIRES THE MUNICIPALITY TO MEASURE ITS EFFORTS TO REDUCE POLLUTANTS IN 6 DIFFERENT AREAS – MINIMUM CONTROL MEASURES (MCMS)

ANNUALLY, THE MUNICIPALITY MUST REPORT TO PADEP ON HOW THEY HAVE IMPROVED, CHANGED, AND MANAGED THESE AREAS IN ORDER TO MAINTAIN COMPLIANCE WITH THEIR PERMIT.

MINIMUM CONTROL MEASURES MUST BE RE-EVALUATED ANNUALLY TO DETERMINE COMPLIANCE.

MS4 PERMIT REQUIREMENTS

- 6 MINIMUM CONTROL MEASURES
- CHESAPEAKE BAY POLLUTION REDUCTION PLAN (PRP)
- POLLUTION CONTROL MEASURES (PCMS)
- ANNUAL REPORTS
- DEP INSPECTIONS
- DOCUMENTATION!!

MS4 WORKGROUP SOUTH CENTRAL PA

- INITIAL START UP – SPRING 2019
- FIRST MEETING – JULY 17, 2019- LOWER ALLEN TOWNSHIP MUNICIPAL BUILDING
- BEGAN DUE TO A NEED FOR COLLABORATION AMONG MS4 COORDINATORS AND STORMATER PROGRAM MANANGERS TO FULFILL THE REQUIREMENTS OF THE MS4 PERMIT PROGRAM
- 31 CURRENT MEMBERS INCLUDE MS4 COORDINATORS FROM MUNICIPALITIES, COUNTY PLANNERS, CONSERVATION DISTRICTS, PRIVATE SECTOR , AND NON-MS4 MUNICIPALITIES
- CONDUCT QUARTERLY MEETINGS
- GUEST SPEAKERS ATTEND MEETINGS TO DISCUSS MS4 TOPICS
- OPEN MEMBERSHIP

BENEFITS OF WORKGROUP PARTICIPATION

- NETWORKING
- PUBLIC OUTREACH
- TRAINING/EDUCATION
- FULFILLMENT OF MINIMUM CONTROL MEASURES FOR MS4 PERMIT COMPLIANCE
- GRANT OPPORTUNITIES
- INFORMATION SHARING PLATFORM
- ENHANCED WORKING RELATIONSHIP ACROSS MUNICIPALITIES/COUNTIES/PRIVATE SECTOR

MS4 WORKGROUP UPCOMING MEETINGS

2020 MS4 Workgroup Meetings		
Date	Location	Speaker
1/28/2020	Lower Allen Township	Holly Smith & Andy Yencha - Penn State Extension
4/28/2020	South Middleton Township	Beth Ginter - Chesapeake Bay Landscape Certification Program
7/28/2020	South Londonderry Township	Aaron Brouse - ESRI
10/27/2020	Hampden Township	Conservation District Speakers – Cumberland, Dauphin, York

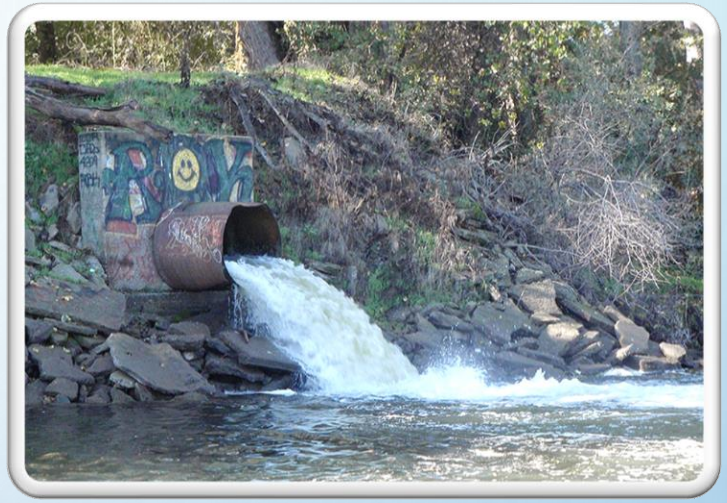
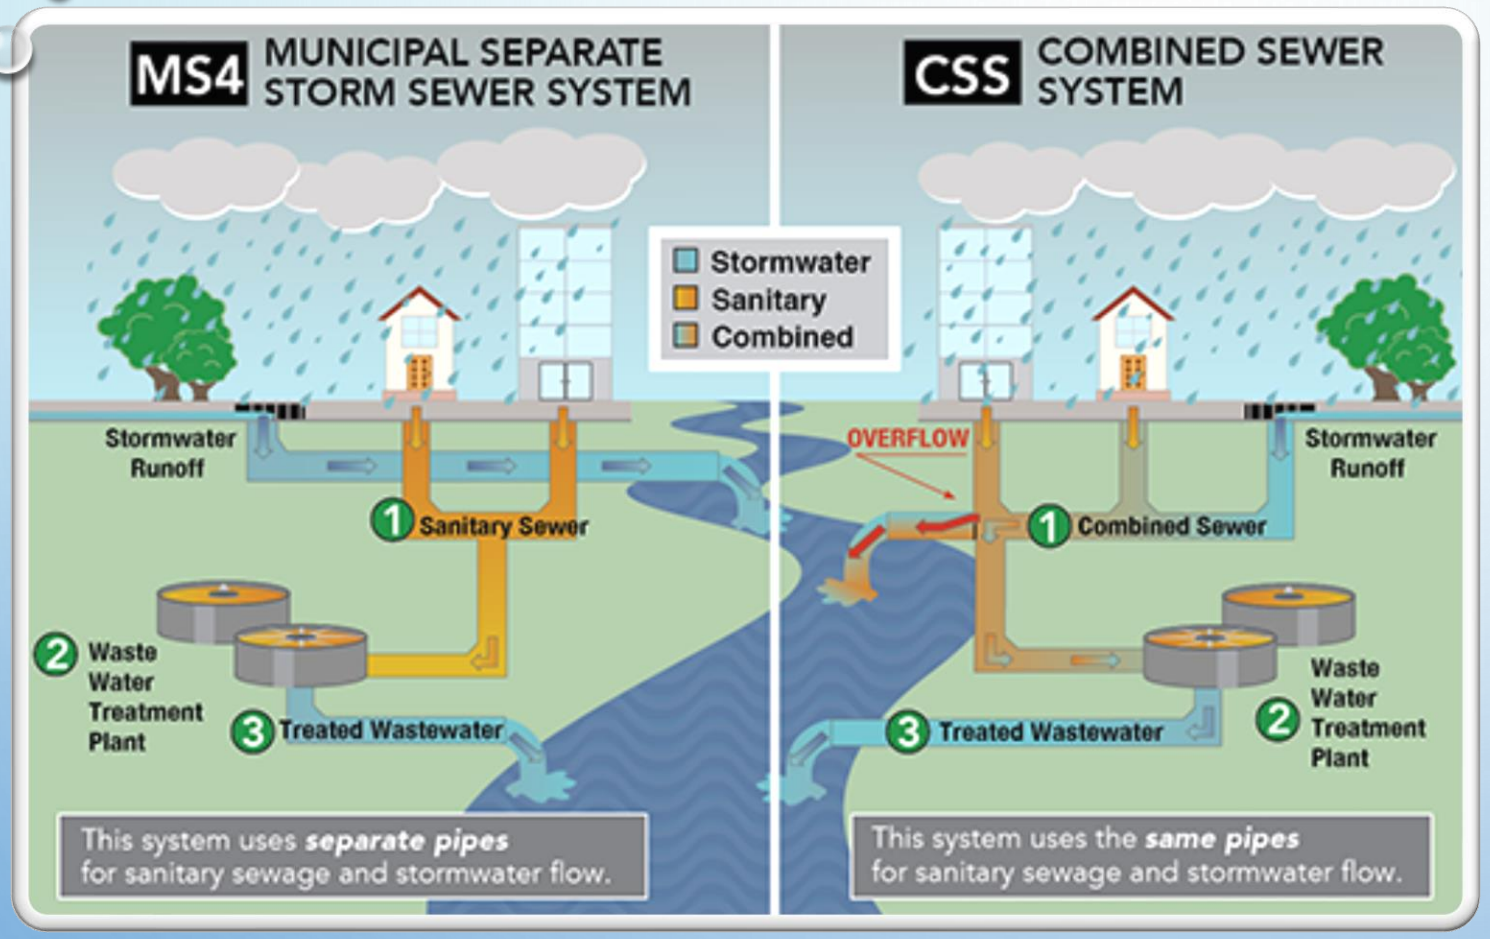
NEW RESIDENT WORKSHOP



STORMWATER MANAGEMENT

LOWER ALLEN TOWNSHIP



MS4

- MUNICIPAL
- SEPARATE
- STORMSEWER
- SYSTEM

HOW DOES THE MS4 PERMIT WORK?

MUNICIPALITIES ACQUIRE A NPDES PERMIT THAT COVERS A 5-YEAR PERIOD.

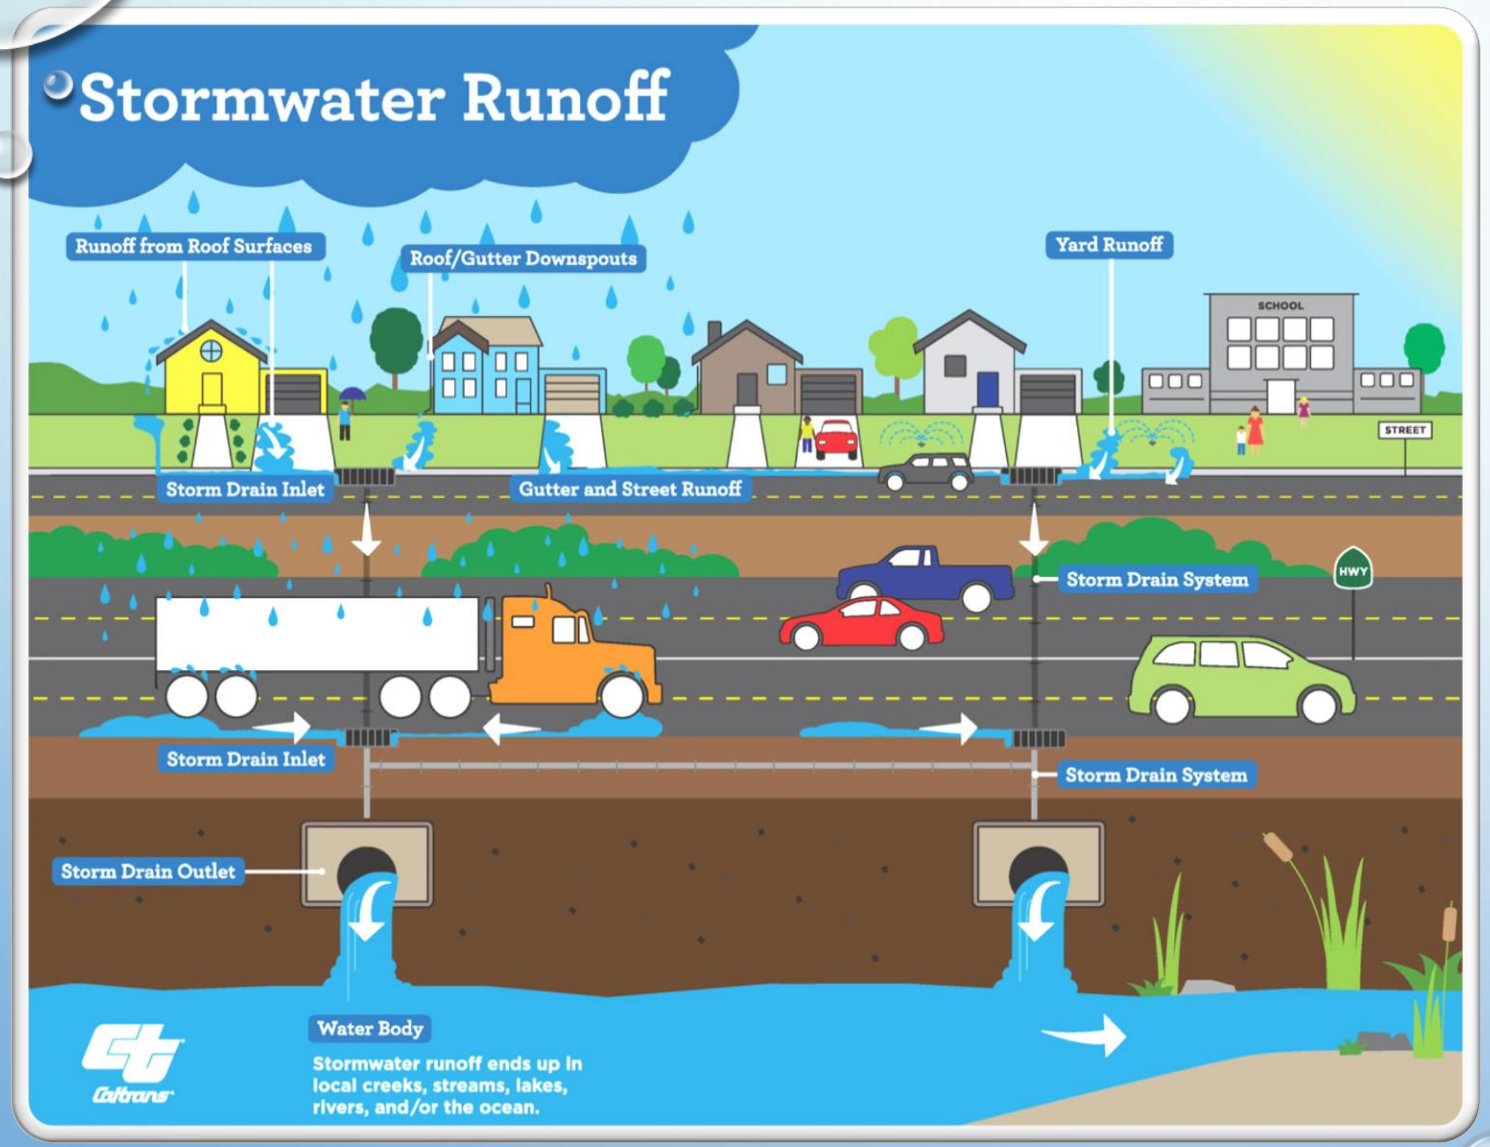
THE PERMIT REQUIRES THE MUNICIPALITY TO MEASURE IT'S EFFORTS TO REDUCE POLLUTANTS IN 6 DIFFERENT AREAS.

ANNUALLY, THE MUNICIPALITY MUST REPORT TO PADEP ON HOW THEY HAVE IMPROVED, CHANGED, AND MANAGED THESE AREAS IN ORDER TO MAINTAIN COMPLIANCE WITH THEIR PERMIT.

MINIMUM CONTROL MEASURES MUST BE RE-EVALUATED ANNUALLY TO DETERMINE COMPLIANCE.

COMMON STORMWATER POLLUTANTS

- OIL & GREASE
- SEDIMENT
- NUTRIENTS
- TRASH
- TOXICS
- CHLORIDES
- BACTERIA

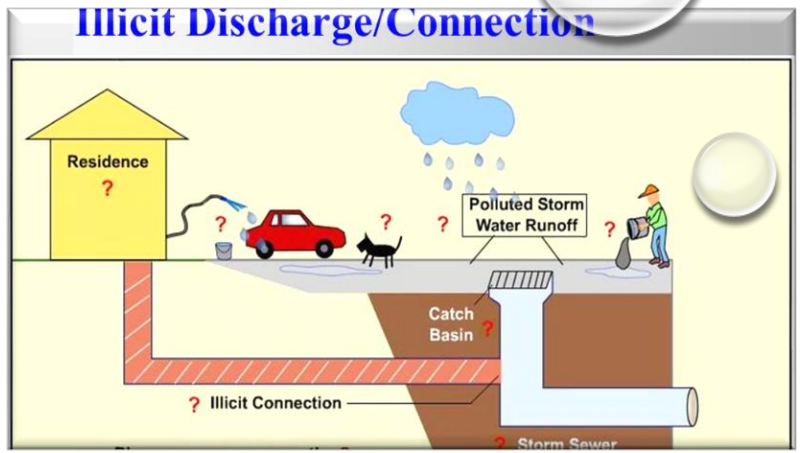


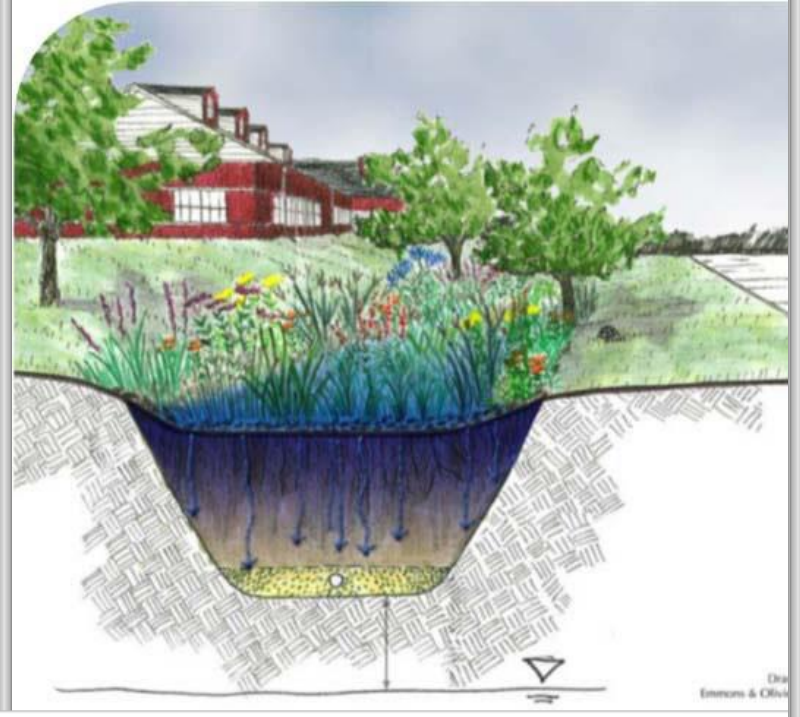
WHERE ARE POLLUTANTS GOING IF NOT CONTROLLED AT THE SOURCE?

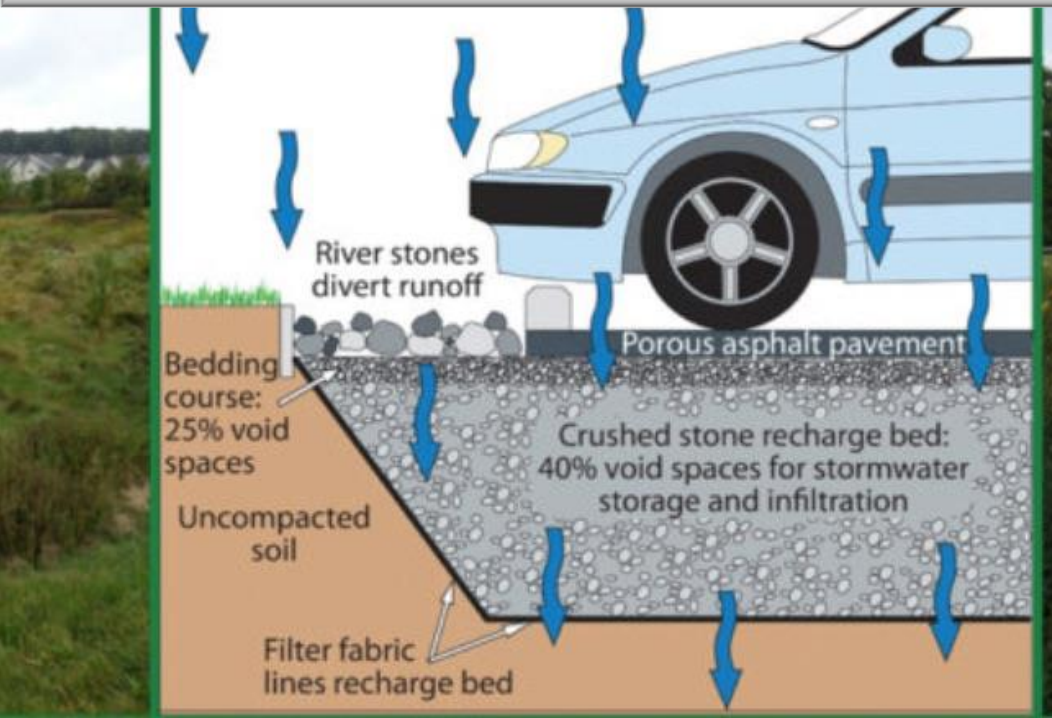
- RAIN AND SNOWMELT CAN DIFFUSE POLLUTANTS INTO A MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) THAT DISCHARGES INTO CREEKS AND RIVERS

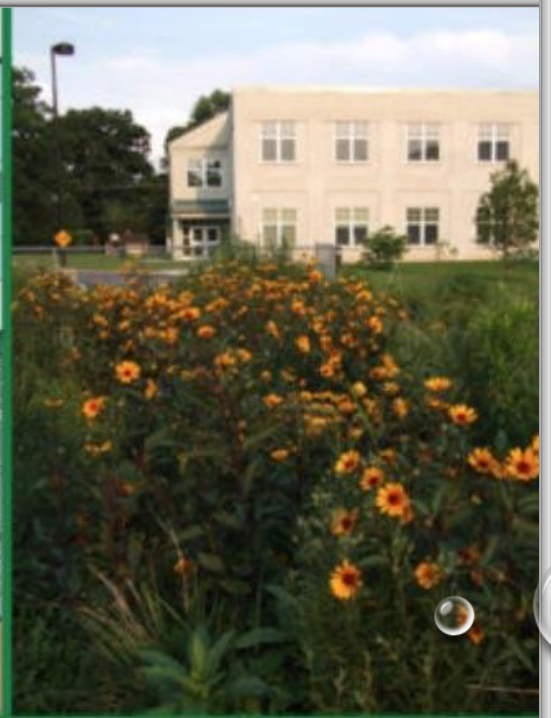
STORMWATER VIOLATIONS

- ILLEGAL CONNECTIONS – ROOF DRAINS/SUMP PUMPS
  - ROOF DRAINS MUST BE SET BACK A MINIMUM OF 5 FEET FROM PROPERTY LINES.
- DUMPING – DEBRIS, OIL, TRASH, GREASE, SPILLS, CONCRETE WASH OUT
- ALTERATION OF A STORMWATER BEST MANAGEMENT PRACTICE
  - EASEMENTS
  - STRUCTURES
  - FACILITIES









BEST MANAGEMENT PRACTICES

STRUCTURAL

- GREEN ROOFS
- PERMEABLE PAVEMENT
- RAIN GARDENS
- BIORETENTION FACILITIES

NONSTRUCTURAL

- MULCH YOUR LAWN
- KEEP GRASS CLIPPINGS OUT OF THE STREET
- PICK UP AFTER YOUR PET
- RECYCLE
- DISPOSE OF HAZARDOUS MATERIALS PROPERLY

STORMWATER FEES

- LOWER ALLEN TOWNSHIP ENACTED A STORMWATER FEE IN APRIL OF 2019 THAT IS CURRENTLY BEING ASSESSED ON ALL PARCELS IN THE TOWNSHIP. THE FEE WILL BE ON YOUR SEWER/REFUSE BILL **OR** WILL BE A STAND-ALONE BILL IF YOU ARE NOT A SEWER/REFUSE CUSTOMER.
- THE FEE FOR A SINGLE-FAMILY RESIDENTIAL UNIT IS $19/QUARTER.
- NON-RESIDENTIAL AND MULTI-FAMILY UNITS WILL BE BILLED BASED ON THE NUMBER OF SQUARE FEET OF IMPERVIOUS COVERAGE THAT A PROPERTY HAS (ALSO KNOW AS AN EQUIVALENT RESIDENTIAL UNIT – **ERU**), TIMES THE RATE OF $19/PER **ERU** PER QUARTER. ONE **ERU** IS THE EQUIVALENT OF 3,115 SQUARE FEET.
- CREDITS ARE AWARDED TO PROPERTIES THAT HAVE A QUALIFYING STRUCTURAL BEST MANAGEMENT PRACTICE THAT CONTROLS THE VOLUME OF STORMWATER RUNOFF AND CAPTURES AND TREATS THE POLLUTANTS GENERATED BY THE RUNOFF.

WHERE WILL THE FEE BE ALLOCATED ?

Lower Allen township is under an unfunded federal mandate from the United States Environmental Protection Agency and the Pennsylvania Department of Environmental Protection to remove pollutants from our stormwater runoff.

The 5-year stormwater program budget is projected to be approximately 1.2 million dollars per year.

The majority of the funds are allocated to the MS4 compliance requirements, including but not limited to the pollution reduction plan (PRP).

Additional budgeted funds will be spent on stormwater infrastructure maintenance, inspection, and replacement as required.

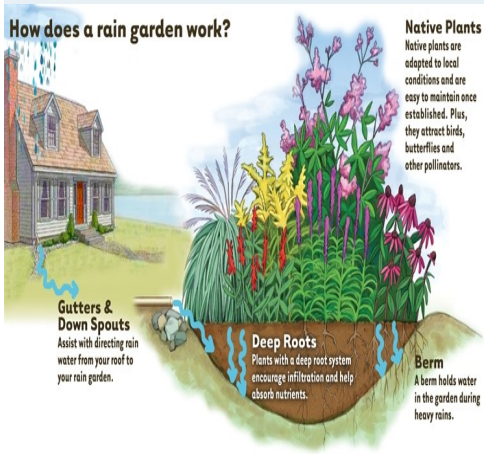
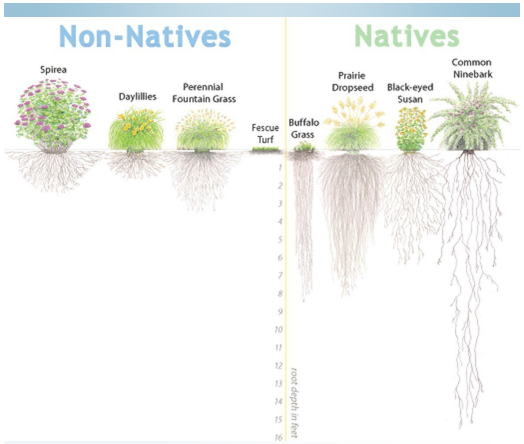
EPA does not oversee independent Soak Up the Rain programs.

What is a Rain Garden?

A rain garden is an easy and effective tool that you can use to help reduce stormwater runoff on your property. The gardens are placed on property to intercept stormwater runoff until it can be absorbed into the ground.

- A rain garden is designed to serve as a “bowl” to collect stormwater from your property.
- The water is able to slowly infiltrate into the underlying soil.





The importance of Non-Native vs. Native Plants:

1. Native plants are the best option for rain gardens because they need little maintenance once established.
2. Native Plants develop deeper root systems and can absorb more water than non –native plants.
2. Native plant s attract birds, butterflies, and many other species.

Lower Allen Township

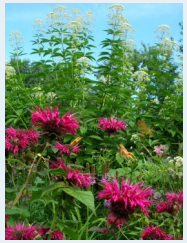
A Township of the First Class

A Residential Guide for Constructing Your Own Raingarden

Anatomy of a Rain Garden

A rain garden can be summarized in three main components: **Plants, Soils, and Cover.**

Plants: Select native plants for the edge of the rain garden. Consider sun, partial sun, shade. The plants should be aesthetically pleasing.



Soils: Loose soils that offer filtration and allow easy root growth. Amend soils if necessary - 50-60% Sand, 20-30% topsoil, 20-30% compost.

Cover: (gravel or mulch) - offers soil erosion control. Large stones can be used for edge reinforcement during storms.

Rain Gardens are made up of a bowl like depression in the ground. The downhill side has a raised berm of soil to allow water to sit in the garden and infiltrate. The shape is typically similar to a kidney bean to allow a wide sheet flow of runoff to enter the garden.

Build it Yourself

Installing a rain garden on your property is something that most homeowners can do all by themselves. The steps below outline the process.

1. **Choose Your Location:** The rain garden must be in a place that can collect runoff from as much impervious area as possible. It should be located at least 5'-15' away from your home and where water naturally drains but does not pond.

2. **Call PA One Call (811)** prior to digging to make sure the site is clear of underground utilities.

3. **Conduct a soil infiltration test*:** Without proper infiltration your rain garden may turn into a pond. This test will determine the proper location for your rain garden.

4. **Sizing the Garden*:** The surface area should be based on the contributing drainage area to the rain garden.

Build It Yourself (cont.)

5. **Excavate the rain garden:** Your rain garden depth will be between 18"-36", with 6" ponding area.

6. **Fill the rain garden with soil media mix.** Limited clay content is very important. The mix should consist of 50% sand, 25% topsoil, and 25% compost.

7. **Plant and Mulch:** Choose native plants that will need little maintenance when established.

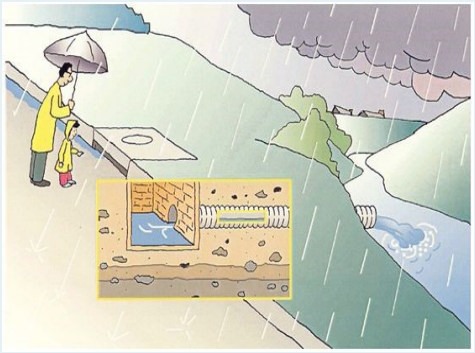
8. **Maintenance:** Rain gardens will require weeding, watering when there are dry conditions, and raking mulch .

*Additional information regarding conducting infiltration tests and rain garden sizing can be found on the Alliance for the Chesapeake Bay website: www.stormwater.allianceforthebay.org

What is MS4?

MS4 is known as Municipal Separate Storm Sewer System. An MS4 is a conveyance or system of conveyances that is:

- Owned by a state, city, town, village, or other public entity that discharges to waters of the commonwealth.
- Designed or used to collect or convey stormwater (roads with drainage systems, storm drains, curbs, gutters, pipes, ditches).



Help Lower Allen Township stop stormwater pollution! Report potential problems to the Township via the website or the contact below.

Lower Allen Township

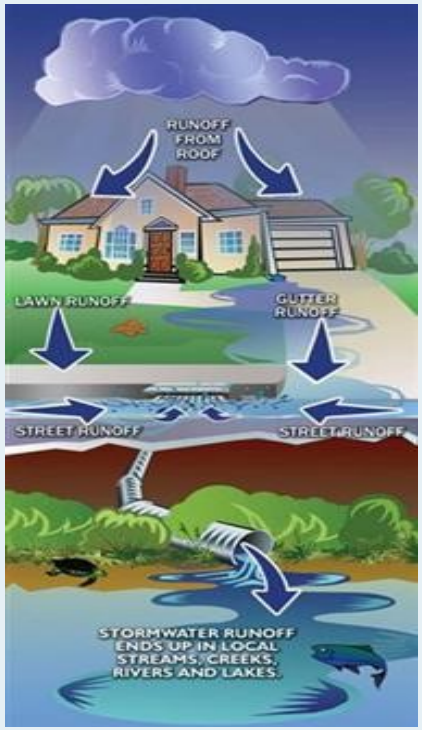
A Township of the First Class

A Residential Guide for Preventing Stormwater Pollution

Residential Causes of Stormwater Pollution

As stormwater runs over our homes, lawns, driveways and sidewalks it picks up debris and pollutants. The polluted stormwater runoff is conveyed to the MS4 and ultimately to our streams without treatment. The stormwater can carry pesticides, chemicals, sediment, trash, fertilizers, and other pollutants that are harmful to our streams



How You Can Help?

- Be mindful of the area where you wash your vehicles. Take care to ensure that the discharges are not emptying directly into a stormwater inlet.
- Check your vehicles often for leaks and repair them promptly. If you notice a fluid leak use a drip pan to contain the leak until you can get the problem fixed.
- Recycle used oil and fluid at vehicle service repair stations. Check with the County Recycling site regarding acceptable items for recycling - https://www.ccpa.net/124/Recycling-Waste
- Participate in the Township's Yard Waste Drop Off and Leaf Composting Programs. Information is available on our website www.latwp.org.
- Do not overwater your lawn and use pesticides and fertilizers according to their recommended amounts. Do not overspray or spread these products into the street.
- Pick up your pet waste and dispose of it properly into your trash receptacles.
- Regularly inspect your septic system and pump your tank as necessary.

Best Management Practices (BMPs) for your home

Rain Gardens—

Specially designed areas planted with native plants can provide natural places for rainwater to collect and soak into the ground.

Rain Barrels—

Homeowners can collect rain water from rooftops and downspouts in containers. The water collected can be used later on lawns, plants, and garden areas.

Downspout Planters— a decorative garden planter filled with gravel, soil, and vegetation that utilizes rainfall from the roof as irrigation. They are connected to the roof downspout to let water flow into the planter and slow down the water velocity.

Lower Allen Township is asking you to DO YOUR "DOODY" for Clean Water

You hate stepping in it and fish hate swimming in it too! Dogs produce a lot of waste which, if not disposed of properly, can end up in our waterways. Do your part to keep our water and public areas clean and healthy! Bag your pet's waste and throw it in a proper trash receptacle.

DO

DON'T

Did you know that the average dog can produce nearly a pound of waste each day?

- Pet waste let on lawns and in public spaces is very harmful to the environment.
- Pet waste contains twice as much bacteria as human waste!
- If left on your lawn, it can kill grass and other plants.
- Adults and children who come into contact with it can get sick.

STATE CAPITOL

Pennsylvania law restores school police arrest powers

Jan Murphy *jmurphy@pennlive.com*

School police officers in Pennsylvania have had their powers to make arrests restored after being inadvertently taken away earlier this year.

In the recent flurry of bills that Gov. Tom Wolf signed into law was one that addresses a couple of issues related to school safety officers.

Aside from returning arrest powers to school police officers, it extends the deadline for certain school police, resource and unarmed school security officers to complete required training to the start of the next school year rather than the middle of this school year.

It also sets the deadline for armed school security officers to obtain their training by Feb. 28 unless that creates a hardship. In that case, the school's governing body can extend the deadline up to the start of the 2020-21 school year.

Returning arrest powers to law enforcement officers employed by a public or private school prior to Sept. 2 and who have court approval was important to the 80 school districts across the state that have their own district police force.

Among them is Central Dauphin School District, which employs three officers. Gabriel Olivera, director of safety and security at Central Dauphin, said restoring arrest powers to school police officers allows his officers to better perform their jobs of protecting children.

For the few months of this school year when school police officers had their arrest powers stripped from them, it created a situation that if an individual was detained on school property by a school police officer, they had to wait for a local law enforcement to arrive who could then make the arrest. Then when the case went to court, both officers would have to appear.

Olivera said it was an inconvenience.

In an unrelated provision included in this new law, public school students can now receive up to one course credit upon successful completion of a personal financial literacy during grades nine through 12, starting with the graduating class of 2020-21.

ELECTION 2020

Rep. Kauffman to seek re-election to ninth term

Jan Murphy *jmurphy@pennlive.com*

Franklin County Republican incumbent Rep. Rob Kauffman has stated it is his intention to seek re-election to another two-year term in Pennsylvania's House of Representatives.

Kauffman, 45, of Scotland, was named chairman of the powerful House Judiciary Committee this year. In that role, he is tasked with serving as the chamber's gatekeeper for legislation dealing with the criminal justice, judicial reforms, and law enforcement and related issues.

He used that authority in a notable way by declaring that as long as he was chairman, the judiciary committee would not consider the so-called "red flag" legislation that would establish a procedure for family, friends or police to take away guns from people considered a risk to themselves or others. Kauffman said his objections to this legislation relate to its fairness toward gun owners.

Under his leadership, the committee has advanced a number of other gun-related bills aimed at keeping them out of the hands of criminals and individuals who self-exclude themselves from buying or receiving a firearm for up to five years. It also has passed bills that address criminal justice reform issues and crime victim protections, among a litany of other topics.

Earlier this year, legislation became law that Kauffman championed in the House with Senate Judiciary Committee Chairman Lisa Baker, R-Luzerne County, taking the lead on it in the Senate, that expanded the circumstances when out-of-court statements by children can be admissible in court.

He has served in the state House since 2005.

PREVENT STORMWATER POLLUTION

Stormwater pollution threatens our rivers, streams, and wetlands.

Stormwater picks up debris, chemicals, dirt, manure, and other pollutants as it flows over surfaces. We rely on our rivers and streams for drinking, recreation, and to support wildlife.

Do Your Part to Protect our Waters!

How you can help prevent stormwater pollution:

- Remember, only rain goes down the drain. Do not dump anything down storm drains and keep them clear of debris.
- Wash your car over your lawn or gravel.
- Minimize your use of lawn and garden chemicals.
- Minimize the use of salt-melt.
- Install a rain barrel or cistern to capture roof runoff.

For more ideas, visit DEP or your municipality's website.

MS-4 BUILDING PERMIT HANDOUTS

LOWER ALLEN TOWNSHIP

Best Management Practices for Stormwater Management on Construction Sites

Plan in Advance to Prevent Pollution!

Remove existing vegetation only as needed. This will enhance site stabilization.

Schedule excavation, grading, and paving operations for dry weather periods.

Train and educate employees and subcontractors about stormwater management requirements and pollution prevention.

Have extra erosion controls on site in case of a control failure.

Designate a specific area away from storm drains and waterways for material storage and equipment maintenance.

Protect storm drains and streams near the site. Use inlet protection and regularly check areas after storms.

Review regulations to make sure you have obtained the required permits necessary for construction activities.

REMEMBER:
Allowing stormwater with sediment pollutants to leave your construction site and enter a storm drain or waterway is against federal and state laws!

The most common source of pollution associated with construction activities is **SEDIMENTATION** caused by erosion.

Failure to maintain adequate **Erosion and Sediment Controls (E&SC)** at construction sites often results in sediment discharge into the storm drain system and ultimately waterways.

Once this discharge reaches waterways, it creates problems such as turbidity (cloudiness of the water) and chemical changes to the water. These changes effect drinking water quality and can even kill fish and other aquatic life.

The only thing that should leave your project's site and enter a storm drain is clean, uncontaminated **stormwater.**

The Yellow Breeches Creek and Cedar Run are only a Storm Drain away!

Please remember to:

- Clean up spills immediately
- Sweep frequently and limit access to/from the site.
- Stabilize construction entrances and exits and perform maintenance when necessary.
- Do not stockpile materials near a storm drain, wetland, or stream.
- Maintain silt fence and silt socks to make sure no materials are getting beyond them; replace/repair as necessary.
- Remove trash and litter from the site.
- Check trash containers for leaks and keep them covered.

If you have questions prior to the start of construction please contact the Township to schedule a site meeting. We would be happy to review these regulations with you prior to start of construction activities.

For a more comprehensive list of Best Management Practices and stormwater guidance for the construction industry, go to EPA's website at :www.epa.gov and search "construction stormwater."

LOWER ALLEN TOWNSHIP

Best Management Practices for Fresh Concrete and Mortar Application on Construction Sites

What Can YOU do?
Best Management Practices

At the yard and construction site, always store dry and wet materials under cover, protect them from rainfall and runoff, and away from storm drains and waterways.

Secure bags of cement after they are open. Be sure to keep wind blown cement powder away from gutters, storm drains, rainfall and runoff.

Wash out concrete equipment/mixers/trucks only in designated wash out areas in your yard. The wash out areas should be lined and identified.

Dispose of settled, hardened concrete in the proper waste receptacle. Whenever possible, recycle washout by pumping back into mixers for reuse. Never dispose of washout into the street, storm drains, drainage ditches, or streams.

DURING CONSTRUCTION

1. Don't mix up more fresh concrete or mortar than you will use in a two-hour period.
2. Set up and operate small mixers on tarps or heavy plastic drop cloths. Clean tools in a contained area.
3. Protect application of fresh concrete and mortar from rainfall and runoff until the material has dried.
4. Locate concrete washout facilities near the area where concrete is being poured. The facilities should not be placed within **50** feet of storm drains, open ditches, or waterbodies.
5. On large construction sites with extensive work, washouts should be placed at multiple locations for use by ready mixed truck drivers. The washouts should be easily identified.
6. Inspect concrete washout facilities daily and after heavy rains to check for leaks, identify if the plastic liner has been damaged by construction activities, and determine whether the washout is filled over 75 percent of its capacity. Replace and repair as required.
7. When breaking up pavement, be sure to pick up all the pieces and dispose of properly. Dispose of small amounts of excess **DRY** concrete, grout, and mortar in the trash.
8. When cleaning up after driveway or sidewalk installation, wash fines onto stabilized areas, not down the driveway and into the street and possibly the storm drains. If necessary divert runoff with temporary berms.

As an Owner, Operator, or supervisor of a construction site, you may be held financially responsible for any environmental damage caused by your subcontractor or employees. Concrete washout requirements should be included with your contracts with concrete delivery companies.

For more information on concrete washout requirements go to EPAs website link at: https://www3.epa.gov/npdes/pubs/concretewashout.pdf

- Guest Speaker

MS4 Workgroup – Meeting Summary – July 17, 2019

Introductions:

Several members of the MS4 Community spanning over numerous counties in central Pennsylvania met to discuss the creation of a MS4 Workgroup. The meeting was held at the Lower Allen Township Municipal Services Center in Camp Hill, PA. The meeting began with attendee introductions and discussion about the value of creating a workgroup for professionals in the MS4/Stormwater field.

Topics for Future Meetings:

The workgroup discussed topics that would be beneficial to put on the agenda for future meetings including:

- **Best Management Practices**
  - Design
  - Maintenance
  - Inspection
  - Training for staff to maintain the facilities
- **Stormwater Fees**
  - Fee enactment
  - Credit & Appeals Policies
  - Public Involvement & Education
- **MS4 Permit Requirements**
  - Public Education & Outreach
  - Good Housekeeping
  - Training – creating innovative topics for staff
  - Illicit Discharges – pools, car washing, etc.
  - 2022 PADEP Model Stormwater Management Ordinance
  - Outfalls – sampling kits & procedures, priority outfalls
- **Grant Funding**
  - Discuss funding opportunities that are currently available
  - Possibly invite guest speakers to discuss funding
- **Network Information Sharing**
  - BMP Inspection forms, presentations, outreach materials
  - How would we accomplish/who is the driver?

Future Meetings:

- **Scheduling**
  - Bi-Monthly
  - Several attendees offered to host
  - Invitation of guest speakers
  - Next Meeting Date – TBD – Workgroup members will be notified

MS4 WORKGROUP MEETING – JULY 17, 2019

GIRL SCOUT VOLUNTEER SPOTLIGHT EVENT

VOLUNTEER SPOTLIGHT – MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4)

POSTED IN SPRING 2020 NEWSLETTER

Lower Allen Township would like to show their sincere appreciation to Girl Scout Cadette Troop 11523, led by Mrs. Dana Facius and Mrs. Christina Dryden, for volunteering their time to mark stormwater inlets in the Allendale Community! The troop marked over 2/3 of the stormwater inlets in the neighborhood on June 20, 2020. The goal of the volunteer MS4 volunteer program is to help our community understand that anything that enters the storm drains goes to our local streams and rivers untreated and to involve individuals in outreaching to residents of our community by participating in environmental educational activities throughout the Township. The troop earned a badge for their efforts for World Thinking Day from the Girl Scout Organization.

DOG PARK REGISTRANT MAILING

Lower Allen Township is asking you to DO YOUR "DOODY" for Clean Water

You hate stepping in it and fish hate swimming in it too! Dogs produce a lot of waste which, if not disposed of properly, can end up in our waterways. Do your part to keep our water and public areas clean and healthy! Bag your pet's waste and throw it in a proper trash receptacle.

DO

DON'T

Did you know that the average dog can produce nearly a pound of waste each day?

- Pet waste let on lawns and in public spaces is very harmful to the environment.
- Pet waste contains twice as much bacteria as human waste!
- If left on your lawn, it can kill grass and other plants.
- Adults and children who come into contact with it can get sick.
- When pet waste washes into storm drains and waterways, it can make the water unhealthy for people and wildlife.
- Pet waste in waterways can even cause algae to grow, making the water turn an unpleasant green color. Algae can deplete oxygen from water.

To learn more about stormwater pollution visit www.latwp.org and click on the stormwater icon. Questions about stormwater pollution can be directed to Rebecca Davis, MS4 Coordinator, rdavis@latwp.org or 717-975-7575 ext. 1010.

DATE: **8/26/2019**

SUBJECT: MCM #1 & MCM #2 – Radio Show Appearance on Garden Talk with Bob Carey

This memorandum is to document my appearance on the radio show Garden Talk hosted by Bob Carey. My appearance was on Sunday August 25, 2019. This show is broadcasted live every Sunday at 11:30 -12:30 PM on WIOO AM 1000, WEEO AM 1480, and streamed to WIOO.

I was a guest speaker on the show and discussed Lower Allen Township's MS4 Program. Topics included the Township's plan for our Stormwater Program and Stormwater Fee, Best Management Practices for your home, harmful effects of overusing fertilizers, the problematic issue of grass clippings in the street, and the Township's Pollution Reduction Plan. Attached to this memorandum is a photograph of myself in the studio.

Re: Grass Clippings in street – **FINAL NOTICE**
32 Kensington Drive, Tax ID #13-25-0022-071

Dear Mr. and Mrs. Chambers,

Personnel from the Township verified that grass clippings from your residence were being mulched directly into Kensington Drive. These actions will result in a prohibited discharge entering the stormwater system of Lower Allen Township as defined in the Lower Allen Township Stormwater Management Ordinance, Chapter 184, as adopted.

The Lower Allen Township Stormwater Management Ordinance Chapter 184, Section 37.B, states *"Discharges to the municipality's separate storm sewer system or to waters of the commonwealth which are not composed entirely of stormwater shall be prohibited."*

You are hereby ordered to terminate such discharges **IMMEDIATELY UPON RECEIPT OF THIS LETTER!** Such actions not only represent violations of the Lower Allen Township Stormwater Ordinance but also endanger the residents of our community and the health of the receiving stream.

This is the last notice you will receive regarding this matter. If these discharges are not eliminated, we will follow this letter with a formal Notice of Violation. Anyone violating provisions of the Lower Allen Township Stormwater Ordinance shall be guilty of a summary offense and, and upon conviction, shall be subject to a fine of not more than $500 for each violation, plus court costs and attorney fees. Each day that the violation continues shall be a separate offense.

If you have questions regarding this correspondence, please feel free contact me at rdavis@latwp.org or 717-975-7575 ext. 1010.

Sincerely,

Rebecca L. Davis
MS4 Coordinator

Re: Grass Clippings in street – Hartzdale Drive – **FINAL NOTICE**

Dear Mr. Smith,

Personnel from the Township verified that grass clippings from mowing the lawn on mall property were being mulched directly into Hartzdale Drive. These actions will result in a prohibited discharge entering the stormwater system of Lower Allen Township as defined in the Lower Allen Township Stormwater Management Ordinance, Chapter 184, as adopted.

The Lower Allen Township Stormwater Management Ordinance Chapter 184, Section 37.B, states *"Discharges to the municipality's separate storm sewer system or to waters of the commonwealth which are not composed entirely of stormwater shall be prohibited."*

You are hereby ordered to terminate such discharges **IMMEDIATELY UPON RECEIPT OF THIS LETTER!** Such actions not only represent violations of the Lower Allen Township Stormwater Ordinance but also endanger the residents of our community and the health of the receiving stream.

This is the last notice you will receive regarding this matter. If these discharges are not eliminated, we will follow this letter with a formal Notice of Violation. Anyone violating provisions of the Lower Allen Township Stormwater Ordinance shall be guilty of a summary offense and, and upon conviction, shall be subject to a fine of not more than $500 for each violation, plus court costs and attorney fees. Each day that the violation continues shall be a separate offense.

1120 Carlisle Road
Camp Hill, PA 17011
Attn: Store Manager

Re: Grass Clippings in Carlisle Road
1120 Carlisle Road, Tax ID #13-23-0545-343U1

Attention Store Manager:

Lower Allen Township has received complaints about grass clippings being blown into Carlisle Road from your business. Recent site visits by Township staff have confirmed grass clippings in the street in front of your business. This is an informative letter to explain the environmental damage that grass clippings can have on the stormwater and stormwater system in Lower Allen Township, Cedar Run and Yellow Breeches Watershed, and ultimately the Chesapeake Bay.

Grass clippings being discharged or blown into the street continues to be a big problem in the Township. While most residents are conscientious about keeping the clippings out of the street, others continue to ignore this. Placing your clippings in the street can cause blockages in storm drains, which subsequently can lead to flooding, and releases harmful chemicals into our stormwater system and watershed. In addition, placing the clippings in the street is a violation of Lower Allen Township's Stormwater Management Ordinance. Please keep this in mind the next time you mow your lawn! Blow your grass clippings onto your lawn and/or sweep them out of the street. While mulching is best for the health of your lawn please be contentious and responsible for the grass clippings that get deposited into the Township streets while mowing and dispose of them properly.

Please refrain from blowing the grass clippings from your business into the street. If the Township continues to receive complaints regarding this matter and the complaints are validated, we will follow this letter with an official notice of violation (NOV).

If you have questions regarding this correspondence, please feel free contact me at rdavis@latwp.org or 717-975-7575 ext. 1010.

Sincerely,

Rebecca L. Davis
Stormwater Program Manager

Dear Ms. Davis & Ms. Nissley,

Lower Allen Township has received complaints about grass clippings being blown into Carlisle Road from your residence. Recent site visits by Township staff have confirmed grass clippings in the street in front of your dwelling. This is an informative letter to explain the environmental damage that grass clippings can have on the stormwater and stormwater system in Lower Allen Township, Cedar Run and Yellow Breeches Watershed, and ultimately the Chesapeake Bay.

Grass clippings being discharged or blown into the street continues to be a big problem in the Township. While most residents are conscientious about keeping the clippings out of the street, others continue to ignore this. Placing your clippings in the street can cause blockages in storm drains, which subsequently can lead to flooding, and releases harmful chemicals into our stormwater system and watershed. In addition, placing the clippings in the street is a violation of Lower Allen Township's Stormwater Management Ordinance. Please keep this in mind the next time you mow your lawn! Blow your grass clippings onto your lawn and/or sweep them out of the street. While mulching is best for the health of your lawn please be contentious and responsible for the grass clippings that get deposited into the Township streets while mowing and dispose of them properly.

Please refrain from blowing the grass clippings from your residence into the street. If the Township continues to receive complaints regarding this matter and the complaints are validated, we will follow this letter with an official notice of violation (NOV).

If you have questions regarding this correspondence, please feel free contact me at rdavis@latwp.org or 717-975-7575 ext. 1010.

Sincerely,

Rebecca L. Davis
Stormwater Program Manager

FROM: **Rebecca L. Davis**
MS4 Coordinator

DATE: **7/1/2019**

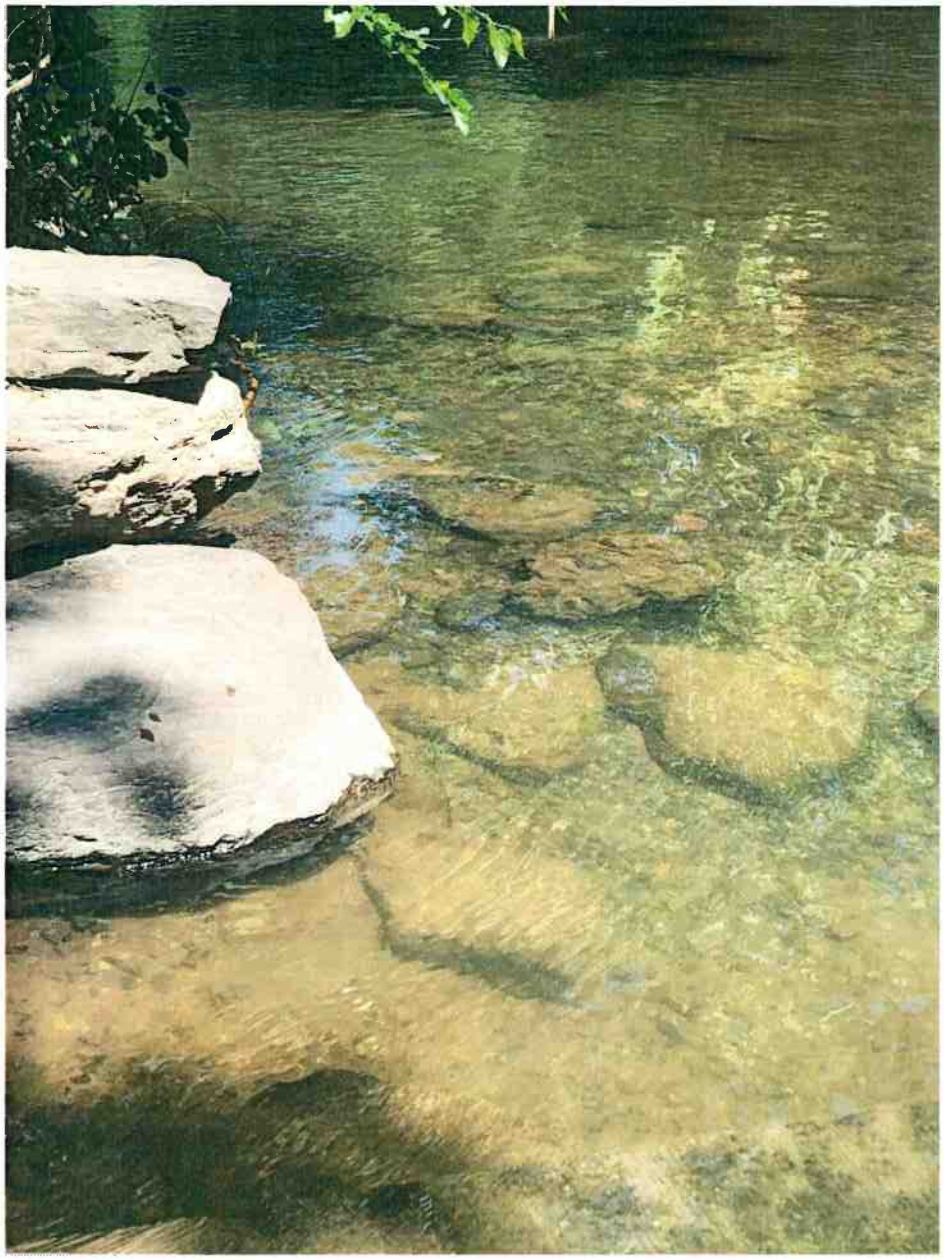
SUBJECT: Complaint Investigation – Lower Allen Community Park

This memorandum is to document in the MS4 file that a complaint was called in to Lower Allen Township that there was an oil sheen on the Yellow Breeches Creek at the boat launch at Lower Allen Community Park. The complaint was called in on Sunday June 30, 2019. I called the complainant, Holly Hill, regarding her observations. Ms. Hill stated that she was sitting on the rocks at the boat launch and noticed a sheen on the water. She was concerned and wanted to call the Township to let us know. I asked her if there was any smell, odor, or bubbles. She stated that there was not.

I performed a site visit immediately after hanging up with Ms. Hill to the Lower Allen Community Park at the boat launch location along the Yellow Breeches. There were several residents there utilizing the launch for kayaking. There was also a man sitting on the rocks when I walked up to the creek. Upon visual inspection, there was no observation of a sheen on the water surface. I did not observe any odor, smell, or bubbles on the water surface. The photographs attached illustrate the field observations. No illicit discharges were found.

Photograph #1 – Yellow Breeches Creek at the boat launch

Picture #2 – Yellow Breeches Creek at the boat launch



After verifying no illicit discharges at the boat launch, I performed site visits at the outfall locations up and down stream of the park. Neither outfall had flow present and no illicit discharges were observed.

I called Ms. Hill back to let her know that I did not observe any sheen on the water during my inspections.

MEMORANDUM

LOWER ALLEN TOWNSHIP

TO: **MS4 File – 915 S. 30th Street**

FROM: **Rebecca L. Davis**
MS4 Coordinator

DATE: **7/30/2019**

SUBJECT: **Complaint Investigation – 915 S. 30th Street**

This memorandum is to document in the MS4 file that a complaint was called in to Lower Allen Township that there was mud on the road and covering the stormwater inlet at 915 S. 30th Street, Camp Hill, PA 17011.The complaint was called in on July 30, 2019. I pulled the property information in the Township files and discovered that the owner had obtained a demolition permit for a pool.

I performed a site visit to the property on July 30, 2019. There was some staining on the road in front of the property. The inlet was not covered with mud or debris and there was no visible mud in the inlet box. At the same time of my site visit, the Lower Allen Township Street Sweeper happened to be street sweeping on S. 30th street and swept up any mud staining that was on the road. The photographs attached illustrate the field observations. No illicit discharges were found. The site was stabilized with seeding and hay.

Photograph #1 – Picture of S. 30th Street. Staining is observed on the road.

Picture #2 – Inlet in front of 915 S. 30th Street. There were no illicit discharges observed.

Picture #3 – Site stabilized with seeding and hay.

Re: Grass Clippings in Carlisle Road
1301 Carlisle Road, Tax ID #13-23-0545-416EX

Attention Facilities Manager,

Lower Allen Township has received complaints about grass clippings being blown into Carlisle Road from the school property. Recent site visits by Township staff have confirmed grass clippings in the street in front of the school. This is an informative letter to explain the environmental damage that grass clippings can have on the stormwater and stormwater system in Lower Allen Township, Cedar Run and Yellow Breeches Watershed, and ultimately the Chesapeake Bay.

Grass clippings being discharged or blown into the street continues to be a big problem in the Township. While most residents are conscientious about keeping the clippings out of the street, others continue to ignore this. Placing your clippings in the street can cause blockages in storm drains, which subsequently can lead to flooding, and releases harmful chemicals into our stormwater system and watershed. In addition, placing the clippings in the street is a violation of Lower Allen Township's Stormwater Management Ordinance. Please keep this in mind the next time you mow your lawn! Blow your grass clippings onto your lawn and/or sweep them out of the street. While mulching is best for the health of your lawn please be contentious and responsible for the grass clippings that get deposited into the Township streets while mowing and dispose of them properly.

Please refrain from blowing the grass clippings from school property into the street. If the Township continues to receive complaints regarding this matter and the complaints are validated, we will follow this letter with an official notice of violation (NOV).

If you have questions regarding this correspondence, please feel free contact me at rdavis@latwp.org or 717-975-7575 ext. 1010.

Sincerely,

Rebecca L. Davis
Stormwater Program Manager

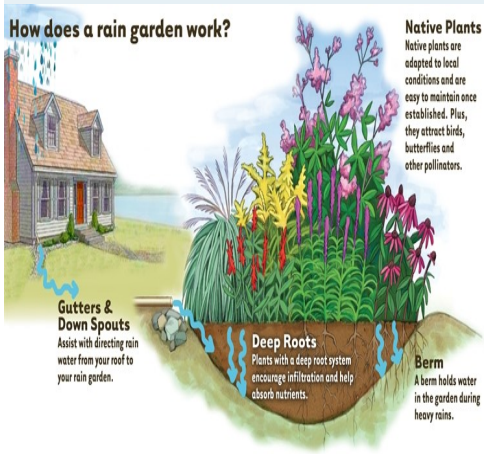
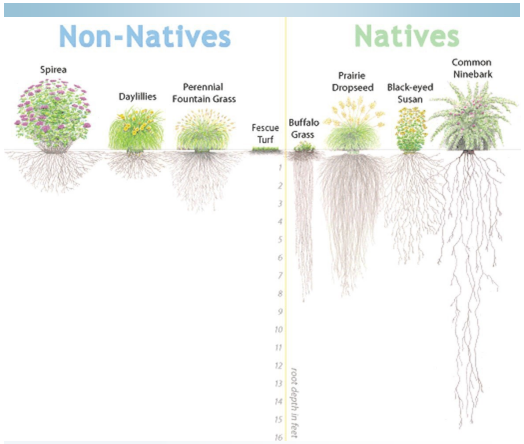
Poster created by U.S. EPA Office of Wetlands, Oceans and Watersheds.
EPA does not oversee independent Soak Up the Rain programs.

What is a Rain Garden?

A rain garden is an easy and effective tool that you can use to help reduce stormwater runoff on your property. The gardens are placed on property to intercept stormwater runoff until it can be absorbed into the ground.

- A rain garden is designed to serve as a “bowl” to collect stormwater from your property.
- The water is able to slowly infiltrate into the underlying soil.





The importance of Non-Native vs. Native Plants:

1. Native plants are the best option for rain gardens because they need little maintenance once established.
2. Native Plants develop deeper root systems and can absorb more water than non –native plants.
2. Native plant s attract birds, butterflies, and many other species.

Lower Allen Township

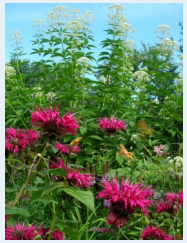
A Township of the First Class

A Residential Guide for Constructing Your Own Raingarden

Anatomy of a Rain Garden

A rain garden can be summarized in three main components: **Plants, Soils, and Cover.**

Plants: Select native plants for the edge of the rain garden. Consider sun, partial sun, shade. The plants should be aesthetically pleasing.



Soils: Loose soils that offer filtration and allow easy root growth. Amend soils if necessary - 50-60% Sand, 20-30% topsoil, 20-30% compost.

Cover: (gravel or mulch) - offers soil erosion control. Large stones can be used for edge reinforcement during storms.

Rain Gardens are made up of a bowl like depression in the ground. The downhill side has a raised berm of soil to allow water to sit in the garden and infiltrate. The shape is typically similar to a kidney bean to allow a wide sheet flow of runoff to enter the garden.

Build it Yourself

Installing a rain garden on your property is something that most homeowners can do all by themselves. The steps below outline the process.

1. **Choose Your Location:** The rain garden must be in a place that can collect runoff from as much impervious area as possible. It should be located at least 5'-15' away from your home and where water naturally drains but does not pond.

2. **Call PA One Call (811)** prior to digging to make sure the site is clear of underground utilities.

3. **Conduct a soil infiltration test*:** Without proper infiltration your rain garden may turn into a pond. This test will determine the proper location for your rain garden.

4. **Sizing the Garden*:** The surface area should be based on the contributing drainage area to the rain garden.

Build It Yourself (cont.)

5. **Excavate the rain garden:** Your rain garden depth will be between 18"-36", with 6" ponding area.

6. **Fill the rain garden with soil media mix.** Limited clay content is very important. The mix should consist of 50% sand, 25% topsoil, and 25% compost.

7. **Plant and Mulch:** Choose native plants that will need little maintenance when established.

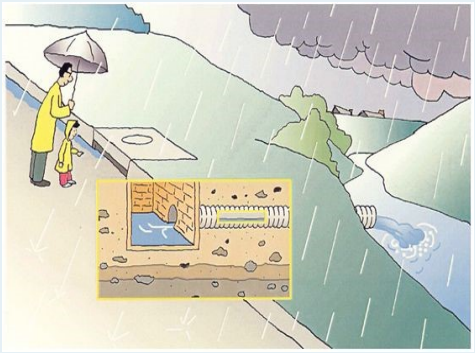
8. **Maintenance:** Rain gardens will require weeding, watering when there are dry conditions, and raking mulch .

*Additional information regarding conducting infiltration tests and rain garden sizing can be found on the Alliance for the Chesapeake Bay website: www.stormwater.allianceforthebay.org

What is MS4?

MS4 is known as Municipal Separate Storm Sewer System. An MS4 is a conveyance or system of conveyances that is:

- Owned by a state, city, town, village, or other public entity that discharges to waters of the commonwealth.
- Designed or used to collect or convey stormwater (roads with drainage systems, storm drains, curbs, gutters, pipes, ditches).



Help Lower Allen Township stop stormwater pollution! Report potential problems to the Township via the website or the contact below.

Lower Allen Township

Information provided by the Environmental Protection Agency (USEPA) www.epa.gov & PA Department of Environmental Protection (PADEP) www.dep.pa.gov

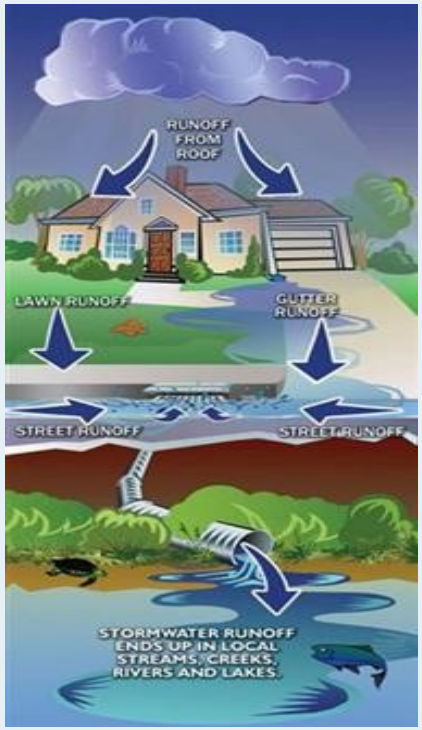
Lower Allen Township

A Township of the First Class

A Residential Guide for Preventing Stormwater Pollution

Residential Causes of Stormwater Pollution

As stormwater runs over our homes, lawns, driveways and sidewalks it picks up debris and pollutants. The polluted stormwater runoff is conveyed to the MS4 and ultimately to our streams without treatment. The stormwater can carry pesticides, chemicals, sediment, trash, fertilizers, and other pollutants that are harmful to our streams



How You Can Help?

- Be mindful of the area where you wash your vehicles. Take care to ensure that the discharges are not emptying directly into a stormwater inlet.
- Check your vehicles often for leaks and repair them promptly. If you notice a fluid leak use a drip pan to contain the leak until you can get the problem fixed.
- Recycle used oil and fluid at vehicle service repair stations. Check with the County Recycling site regarding acceptable items for recycling - https://www.ccpa.net/124/Recycling-Waste
- Participate in the Township's Yard Waste Drop Off and Leaf Composting Programs. Information is available on our website www.latwp.org.
- Do not overwater your lawn and use pesticides and fertilizers according to their recommended amounts. Do not overspray or spread these products into the street.
- Pick up your pet waste and dispose of it properly into your trash receptacles.
- Regularly inspect your septic system and pump your tank as necessary.

Best Management Practices (BMPs) for your home

Rain Gardens—

Specially designed areas planted with native plants can provide natural places for rainwater to collect and soak into the ground.

Rain Barrels—

Homeowners can collect rain water from rooftops and downspouts in containers. The water collected can be used later on lawns, plants, and garden areas.

Downspout Planters— a decorative garden planter filled with gravel, soil, and vegetation that utilizes rainfall from the roof as irrigation. They are connected to the roof downspout to let water flow into the planter and slow down the water velocity.

Lower Allen Township is asking you to DO YOUR "DOODY" for Clean Water

You hate stepping in it and fish hate swimming in it too! Dogs produce a lot of waste which, if not disposed of properly, can end up in our waterways. Do your part to keep our water and public areas clean and healthy! Bag your pet's waste and throw it in a proper trash receptacle.

DO

DON'T

Did you know that the average dog can produce nearly a pound of waste each day?

- Pet waste let on lawns and in public spaces is very harmful to the environment.
- Pet waste contains twice as much bacteria as human waste!
- If left on your lawn, it can kill grass and other plants.
- Adults and children who come into contact with it can get sick.
- When pet waste washes into storm drains and waterways, it can make the water unhealthy for people and wildlife.
- Pet waste in waterways can even cause algae to grow, making the water turn an unpleasant green color. Algae can deplete oxygen from water.

To learn more about stormwater pollution visit www.latwp.org and click on the stormwater icon. Questions about stormwater pollution can be directed to Rebecca Davis, MS4 Coordinator, rdavis@latwp.org or 717-975-7575 ext. 1010.

TRAINING

The Advantages and Disadvantages of Alternative Delivery Projects for Stormwater

July 25, 2019

Cindy Zawrotuk, P.E.

Overview

1) Introduction
2) Types of Project Delivery
3) Advantages & Disadvantages to Alternative Delivery Projects
4) Questions & Discussion

Introduction to AKRF

- Environmental, Planning and Engineering Consulting Firm
- Approximately 350 professionals in 9 Offices
- Local Offices in Harrisburg and Philadelphia
- Water Resources Services include:
  - Aquatic System Restoration
  - Watershed Management
  - Green Stormwater Infrastructure
  - Regulatory Compliance

Types of Project Delivery

- Traditional Delivery
- Alternative Delivery
  - Full Delivery
  - Public/Private Partnerships (P3)
  - Grant/Incentive Programs

Traditional Delivery

- Project Owner hires Design Firm
- Design Firm completes design and prepares bid documents
- Owner bids Project
- Design Firm assists with bidding
- Bids are evaluated and construction contract is awarded
- Design firm acts agent of the Owner during construction
- Contractor Builds project
- Payment to the Design Firm and Contractor occurs monthly

Traditional Delivery

- Advantages
  - Owner has a high level of control in the project
  - Multiple decision making points where Owner can change or stop the project
  - Familiar/Comfortable

Traditional Delivery

- Disadvantages
  - High level of involvement by Municipality
  - Longer schedule
  - High cost
  - Possible Design inefficiencies
  - High potential for Change Orders
  - Requirements to award construction to low bidder

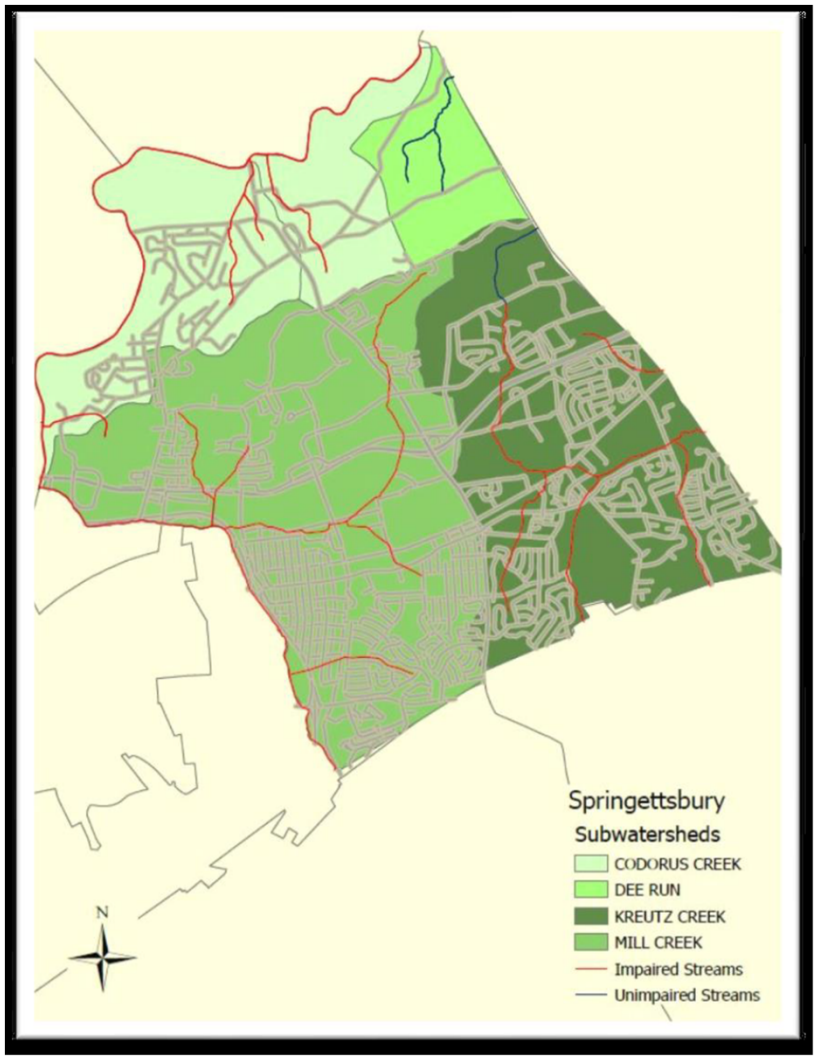
Full Delivery

- Municipality issues an RFP based on performance criteria
  - Municipality acts as Program Manager, handles asset management and reporting and tracking
- Design/build team identifies potential stormwater projects and proposes projects to meet performance criteria
- One or more design/build teams are selected to implement projects
  - Design/build team designs, permits, constructs, permits, maintains and monitors project for some period of time
- Payment is typically based on achieving milestones or pre-defined incentives

Full Delivery

Springettsbury Township Turnkey Performance Based Stormwater Project

- RFP Issued January 2019 for Turnkey performance based projects to meet sediment reductions required for Stormwater NPDES permit compliance
- Work Scope includes:
  - Prepare PRP
  - Identify project sites and acquire property
  - Design, permit and construct projects to achieve an anticipated 697,000 pounds of sediment reduction.
  - Operate, Monitor and Maintain project for duration of the permit cycle



Full Delivery

- Advantages
  - Shorter delivery timeline
  - More efficient design
  - Less decision making/less involvement by the Owner
  - Fewer RFIs and questions
  - Minimizes change orders

Full Delivery

- Disadvantages
  - Less control by the Owner
  - Limited ability to stop a project or change members of the project delivery team
  - More time in upfront negotiations

Public Private Partnership (P3)

- Municipality Issues an RFP for Operation and Management of their Stormwater Program
- Delivery Contractor is hired to Operate and Manage Stormwater Programs and assets for some period of time
  - Delivery Contractor manages existing assets and is responsible for bringing new assets online for regulatory compliance
  - Delivery Contractor acts as Program Manager, handles procurement, standards, asset management, regulatory compliance and reporting and tracking
- Delivery Contractor sources projects to one or more contractors to design and build the projects
  - Contractors design, build, operate and maintain facilities

Public Private Partnership (P3)

City of Chester Community Based Public Private Partnership (P3) Program

- RFP Issued September 2016 for Establishing a P3 for the Stormwater Authority of the City of Chester, PA
- Program is a 30-year contract to establish a partnership with a Private Sector Partner to implement, manage and maintain integrated green infrastructure driven stormwater controls to meet regulatory mandates.
- Program Goals:
  - Meet MS4 Permit Requirements
  - Flood & Resilience Planning
  - Economic Development/Reinvigoration
  - Address TMDL conditions in Chester Creek & Ridley Creek

CHESTER
PENNSYLVANIA
Settled in 1644

Public Private Partnership (P3)

- Advantages
  - Long contract period for operating and maintaining all stormwater assets
  - Municipality retains ownership of the assets
  - Little to no decision making/ involvement by the Owner
  - Delivery contractor has incentive to control costs throughout the program lifecycle
  - Ability to leverage private financing
  - No public bidding requirements

Public Private Partnership

- Disadvantages
  - Lack of Competition – costs are fixed over time
  - Little control by the Municipality
  - Almost no ability to stop a project
  - Heavy upfront negotiations
  - Regulatory burden primarily remains with the Municipality

Grant/Incentive Program

- Municipality or Third Party administers grant program
- Grants are offered to Private Property Owners to implement Stormwater Projects
- Landowner identify projects and applies for grant
- Landowner hires a contractor to design and build the project
- Landowner is required to operate and maintain the project for some period of time
- Typically used in conjunction with Stormwater Fee Credit Program

Grant/Incentive Program

Philadelphia Water Department SMIP/GARP Program

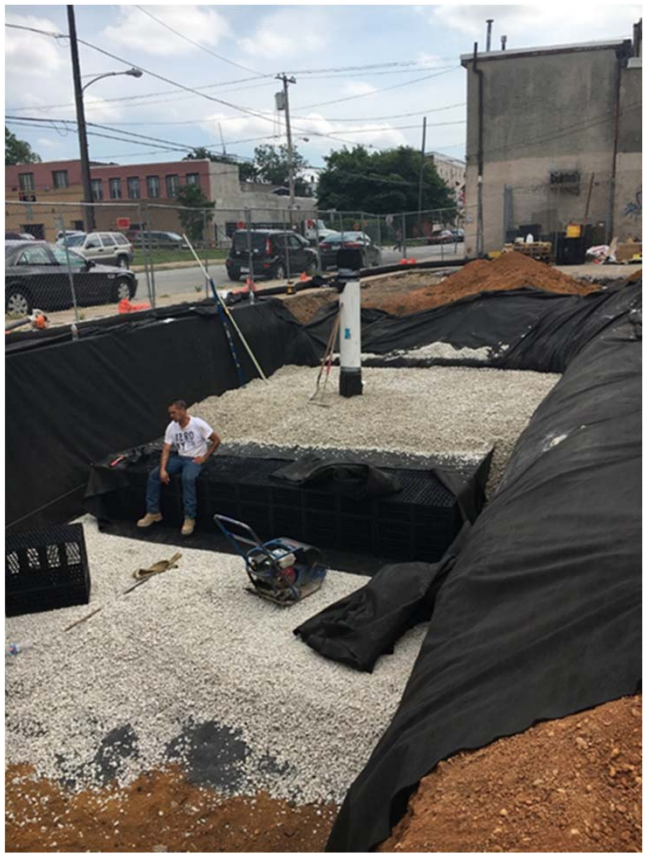
- Grants are offered to Private Property Owners to implement Stormwater Projects
- City will pay up to $200,000 per greened acre
- Grant Funds can be used for project development , design, permitting & construction costs
- Program is administered through PIDC
- Funding priority is for private projects that also control public runoff
- Property owner gets a reduced stormwater fee through the Stormwater Credit Program

Grant/Incentive Program

- Advantages
  - Promotes projects on Private Property
  - Can be used as an Outreach Tool
  - Lower cost than projects in the Public Right-of-Way

Grant/Incentive Program

- Disadvantages
  - Numerous contracts with landowners
  - Landowners may be inexperienced with Capital Projects
  - High administrative burden to Municipality
  - Low participation rates
  - Easier to implement in urban areas
  - Need a large amount of impervious area to benefit landowner
  - Legal constraints



Things to Consider for Alternative Delivery Projects

- Type of Alternative delivery Project is the best fit for Municipality
- Contract time
- Legal Considerations
- Clarity of performance Metrics
- Project Scale
- Incentives for exceeding schedule or performance standards
- Longer time is needed for RFP and Proposal development
- Mitigation of Risk Factors:
  - Qualifications & Experience of Delivery Contractor
  - Financial Stability of Delivery Contractor
  - Land Control

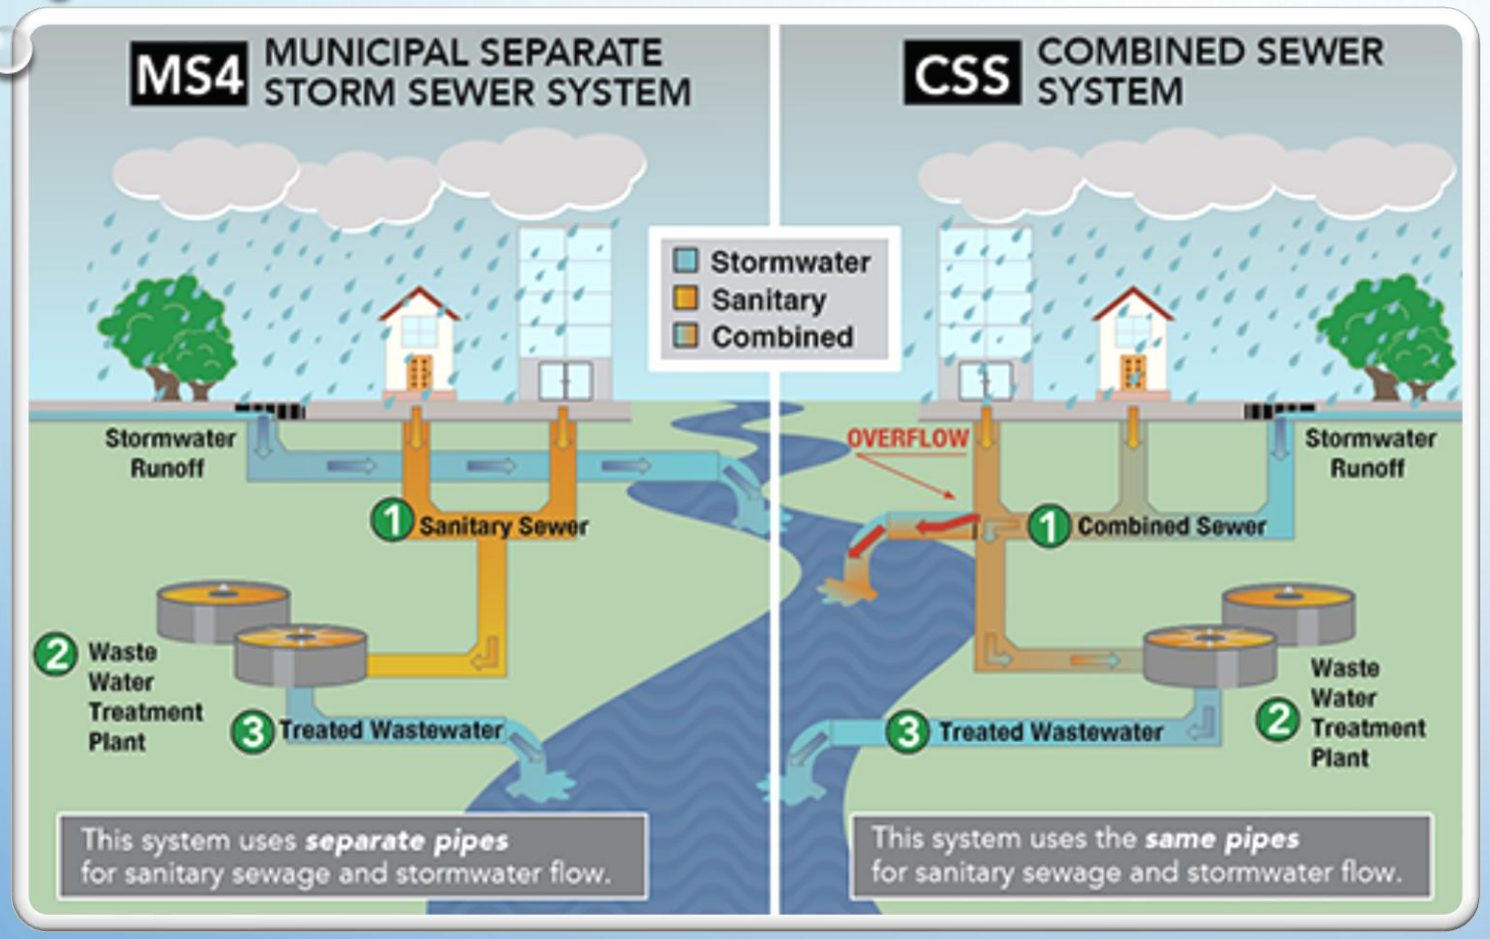
MS4 (MUNICIPAL SEPARATE STORMSEWER SYSTEM) GOOD HOUSEKEEPING ANNUAL EMPLOYEE TRAINING

JUNE 2020

LOWER ALLEN TOWNSHIP

TRAINING GOALS

- LEARN THE BACKGROUND AND HISTORY OF THE MS4 PROGRAM
- DISCOVER CHANGES TO OUR PAG-13 NPDES GENERAL PERMIT
- LEARN THE MAJOR STORMWATER RUNOFF POLLUTANTS AFFECTING LOWER ALLEN TOWNSHIP
- LEARN AND REVIEW GOOD HOUSEKEEPING PRACTICES
- REVIEW PPC PLAN
- DON'T BE MAD AT THE MESSENGER ☺



MS4

- MUNICIPAL
- SEPARATE
- STORMSEWER
- SYSTEM

HOW IT ALL BEGAN

FEDERAL CLEAN WATER ACT – 1972 – PASSED BY US CONGRESS

- WATERS ARE REQUIRED TO BE "FISHABLE, SWIMMABLE, AND DRINKABLE" BY 1983
- ELIMINATE POLLUTION DISCHARGED TO WATER BY 1985
- 1977 – ADJUSTMENTS WERE MADE TO ADDRESS LONG TERM FUNDING FOR WASTE WATER TREATMENT FACILITIES, SLUDGE MANAGEMENT, TOXIC POLLUTANTS, AND WETLAND PROTECTION

SECTION 101(A) (2) CLEAN WATER ACT

STORMWATER PERMITTING

- THE 1972 CLEAN WATER ACT WITH AMENDMENTS TO THE FEDERAL LAW LED TO THE CREATION OF THE NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITTING PROCESS
- ESTABLISHED IN 1987- NON POINT SOURCE POLLUTION CONTROL ALONG WITH GREAT LAKES AND CHESAPEAKE BAY PROTECTION PROGRAMS
- 2000 – UPDATED WATER QUALITY STANDARDS AND PATHOGEN MONITORING FOR RECREATIONAL WATERS

NPDES

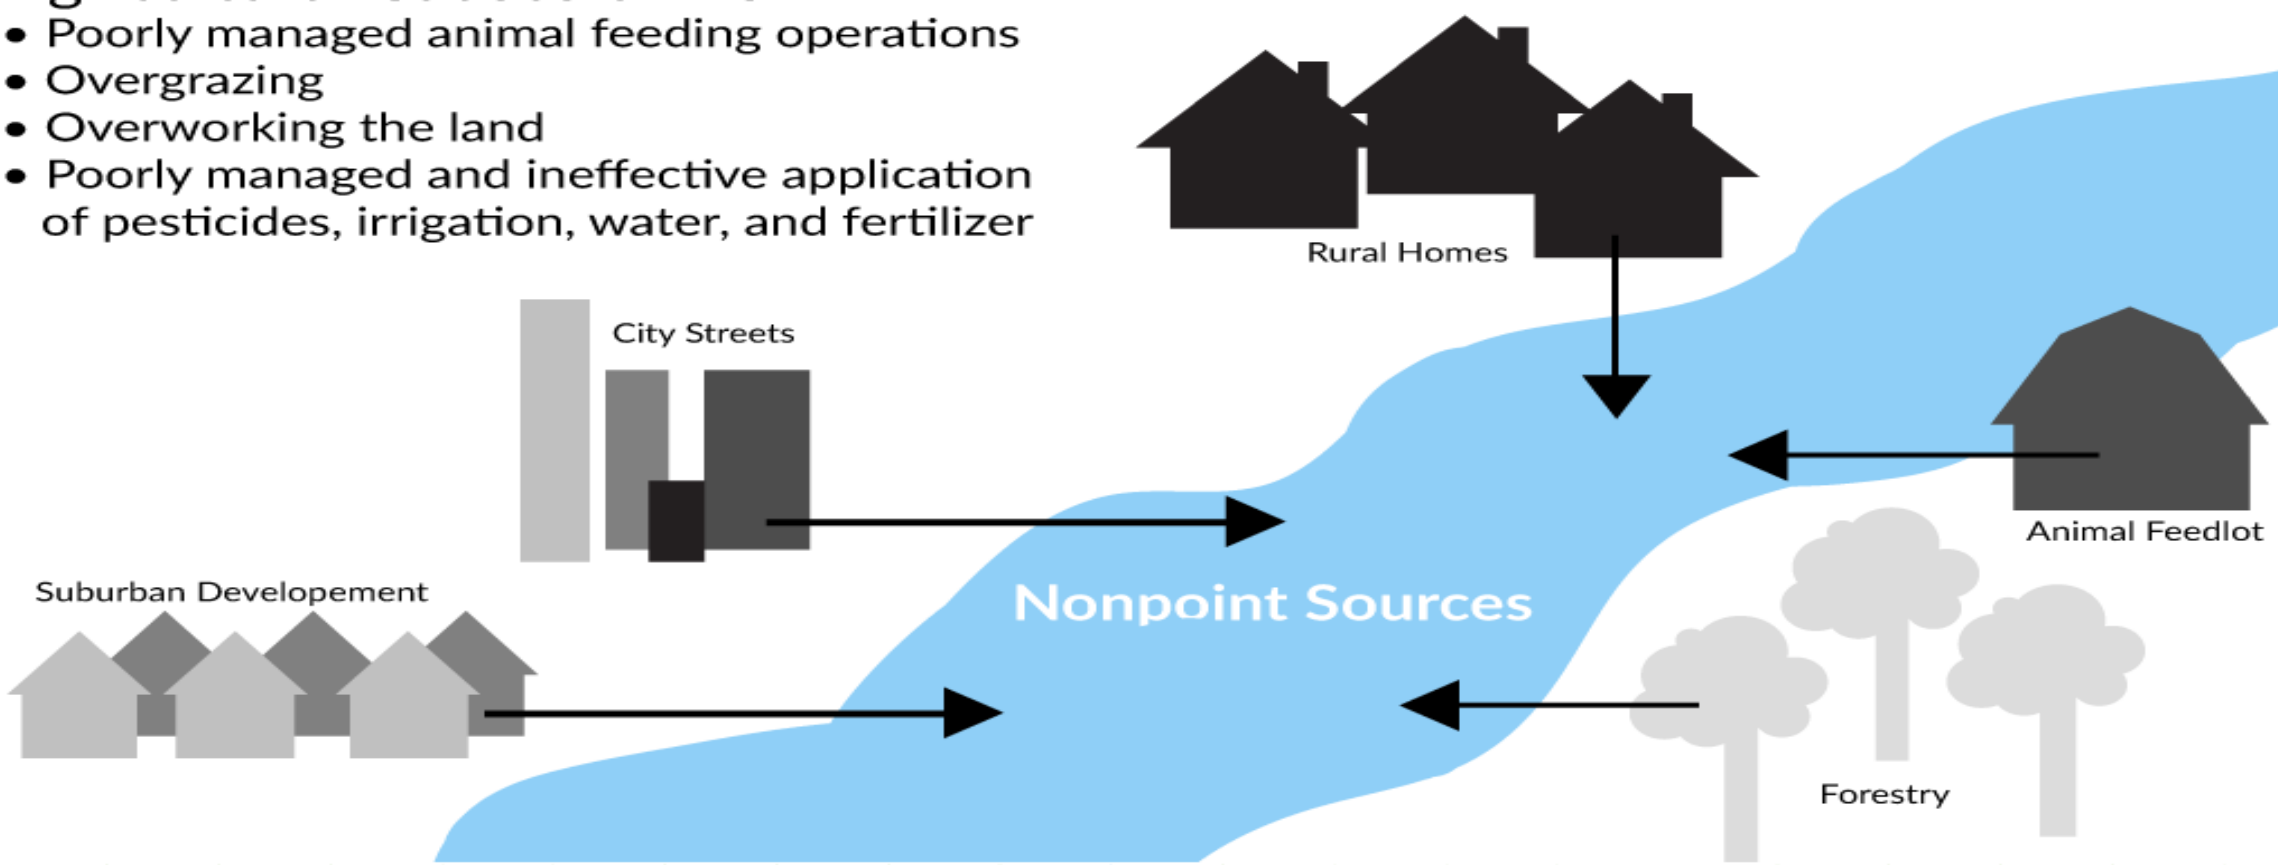
- NPDES REQUIRED AUTHORIZATION TO DISCHARGE POLLUTANTS FROM A POINT SOURCE INTO THE WATER OF THE UNITED STATES. THE SMALL MUNICIPAL NPDES PERMIT IS CALLED A PAG-13. THIS IS THE FEDERAL REGULATION
- PADEP CREATED THE STATE PERMITTING PROGRAM TO MEET THE FEDERAL REGULATION.

Nonpoint Source Pollution

NSP is when pollution runoff finds a way into waterways, mostly from storm drain collection systems. This classification of pollution is now the single largest cause of the worsening of our water quality, according to the U.S. Environmental Protection Agency.

Agricultural Causes of NSP

- Poorly managed animal feeding operations
- Overgrazing
- Overworking the land
- Poorly managed and ineffective application of pesticides, irrigation, water, and fertilizer



POINT SOURCE POLLUTION

POINT SOURCE POLLUTION –

POLLUTANT LOADS DISCHARGED AT A SPECIFIC LOCATION FROM PIPES, OUTFALLS, AND CONVEYANCE CHANNELS FROM EITHER MUNICIPAL WASTEWATER TREATMENT PLANTS, MUNICIPAL MS4'S, OR INDUSTRIAL WASTE TREATMENT FACILITIES.

HOW DOES THE MS4 PERMIT WORK?

MUNICIPALITIES ACQUIRE A NPDES PERMIT THAT COVERS A 5 YEAR PERIOD.

THE PERMIT REQUIRES THE MUNICIPALITY TO MEASURE IT'S EFFORTS TO REDUCE POLLUTANTS IN 6 DIFFERENT AREAS.

ANNUALLY, THE MUNICIPALITY MUST REPORT TO PADEP ON HOW THEY HAVE IMPROVED, CHANGED, AND MANAGED THESE AREAS IN ORDER TO MAINTAIN COMPLIANCE WITH THEIR PERMIT.

MINIMUM CONTROL MEASURES MUST BE RE-EVALUATED ANNUALLY TO DETERMINE COMPLIANCE.

MINIMUM CONTROL MEASURES (MCM'S)

PUBLIC EDUCATION AND OUTREACH

PUBLIC INVOLVEMENT AND PARTICIPATION

ILLICIT DISCHARGE DETECTION AND ELIMINATION

CONSTRUCTION SITE STORMWATER RUNOFF CONTROL

POST CONSTRUCTION STORMWATER MANAGEMENT

POLLUTION PREVENTION/GOOD HOUSEKEEPING

2018 PAG-13 NPDES GENERAL MS4 PERMIT

EFFECTIVE DATE: MARCH 16, 2018

EXPIRATION DATE: MARCH 15, 2023

FIRST REPORTING PERIOD ENDED ON JUNE 30, 2018

FIRST ANNUAL REPORT WAS DUE SEPTEMBER 30, 2018 **(4/1/2017 – 6/30/2018)**

ALL SUBSEQUENT ANNUAL REPORTS DUE BY SEPTEMBER 30 AND WILL COVER THE REPORTING PERIOD OF **JULY 1 – JUNE 30**

- ✓ CHANGE TO ANNUAL REPORT SUBMISSION - $500 FEE IS NOW REQUIRED TO BE SUBMITTED WITH EACH ANNUAL REPORT TO PADEP

CHANGES TO OUR MS4 PERMIT

- ✓ ORDINANCE UPDATE REQUIREMENT
- ✓ AUTHORIZED DISCHARGE CHANGES
- ✓ PRIORITY OUTFALL REQUIREMENTS AND INSPECTIONS – SAMPLING IF NEEDED
- ✓ ADDITIONAL APPENDICES ADDED TO PERMIT
- ✓ POLLUTION REDUCTION PLAN

ORDINANCE UPDATE REQUIREMENT

OUR PERMIT REQUIRES US TO ENACT PADEP'S MODEL ORDINANCE OR REVISE OUR EXISTING STORMWATER MANAGEMENT ORDINANCE BY **SEPTEMBER 30, 2022** AND SUBMIT THE REVISED ORDINANCE WITH OUR ANNUAL REPORT

THE REVISED ORDINANCE IS REQUIRED TO BE ADVERTISED AND HAVE A **PUBLIC COMMENT PERIOD** PRIOR TO ADOPTION – MCM #2 – PUBLIC INVOLVEMENT AND PARTICIPATION

THE ORDINANCE REVISIONS COVER THE FOLLOWING TOPICS:

- AUTHORIZED DISCHARGE'S TO THE MS4
- DEVELOP AND IMPLEMENT MEASURES TO ENCOURAGE LOW IMPACT DEVELOPMENT (LID) IN NEW DEVELOPMENT AND RE-DEVELOPMENT
- REVISE SECTIONS TO BE CONSISTENT WITH DEP'S NPDES CONSTRUCTION STORMWATER PERMITTING REQUIREMENTS

AUTHORIZED DISCHARGES TO THE MS4

* DEP HAS ***MODIFIED*** THE LIST OF AUTHORIZED NON-STORMWATER DISCHARGES TO THE MS4 AS FOLLOWS:

- POTABLE DRINKING WATER FROM HYDRANT FLUSHING OR LINE TESTING IS **ONLY** PERMITTED IF SUCH DISCHARGES DO NOT CONTAIN DETECTABLE CONCENTRATIONS OF TOTAL RESIDUAL CHLORINE (TRC)
- RESIDENTIAL (I.E., NOT COMMERCIAL) VEHICLE WASH WATER **ONLY** WHERE CLEANING AGENTS ARE NOT UTILIZED
- DECHLORINATED SWIMMING POOL WATER DISCHARGES ARE NOT AUTHORIZED TO BE RELEASED INTO THE MS4 – VIOLATION OF CLEAN WATER ACT. THEY SHOULD BE RELEASED TO A GRASSY AREA FOR INFILTRATION
- IN ADDITION TO AIR CONDITIONING CONDENSATE, THE DISCHARGE OF NON-CONTAMINATED WATER FROM GEOTHERMAL SYSTEMS IS AUTHORIZED

ESTABLISHMENT OF PRIORITY OUTFALLS

OUTFALL DEFINITION – A POINT SOURCE WHERE A MS4 DISCHARGES TO SURFACE WATERS AND DOES NOT INCLUDE OPEN CONVEYANCES

- IDENTIFY PRIORITY OUTFALLS AND INSPECT THOSE OUTFALLS ANNUALLY. THESE ARE AREAS THAT HAVE HIGH RISK ACTIVITIES OR A HISTORY OF WATER POLLUTION PROBLEMS
- IF POLLUTION (COLOR, ODOR, TURBIDITY) IS SUSPECTED DURING OUTFALL INSPECTION, SAMPLING MUST TAKE PLACE AND MEASURES TO DETERMINE POLLUTION SOURCE MUST BE FOLLOWED IF VALIDATED BY SAMPLE.
- INSPECT ALL OTHER IDENTIFIED MS4 OUTFALLS AT LEAST ONCE BY MARCH 15, 2023 – INCLUDE RESULTS IN MS4 ANNUAL REPORT

POLLUTANT CONTROL MEASURES (PCM'S)

- PADEP HAS DEVELOPED APPENDICES FOR PCM'S IN THE 2018 PAG-13 GENERAL PERMIT
- THE APPENDICES ARE RELATED TO PATHOGENS (APPENDIX B), AND PRIORITY ORGANIC COMPOUNDS (APPENDIX C)
- PCM REQUIREMENTS INCLUDE THE DEVELOPMENT OF MAPS, AN INVENTORY OF KNOWN OR SUSPECTED POLLUTANTS, AND SUBMISSION OF A REPORT DOCUMENTING INVESTIGATIONS OF SUSPECTED SOURCES

PCM'S (CONT.)

- CEDAR RUN IS LISTED AS IMPAIRED BY PATHOGENS ON THE PADEP MS4 REQUIREMENTS TABLE

- YELLOW BREECHES IS LISTED AS IMPAIRED BY PRIORITY ORGANIC COMPOUNDS ON THE PADEP MS4 REQUIREMENTS TABLE

PADEP MS4 REQUIREMENTS MAPPING

PA.GOV
Tom Wolf, Governor

MS4 Requirements

pennsylvania
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Patrick McDonnell, Secretary

MS4 Requirements

BACKGROUND

Municipalities and other entities such as universities and prisons that meet certain standards must obtain NPDES permit coverage for discharges of stormwater from their municipal separate storm sewer systems (MS4s).

A municipal separate storm sewer is any conveyance or system of conveyances (including but not limited to streets, ditches, and pipes) that is: owned by a municipality or other public body (created under state law) having jurisdiction over disposal of sewage, industrial wastes, stormwater or other wastes; designed or used for collecting or conveying stormwater; not a combined sewer (i.e., not intended for both sewage and stormwater); AND not part of a publicly owned treatment works (POTW).

Additional information regarding permitting requirements can be found at the Pennsylvania Municipal Stormwater Homepage.

Help is available by clicking the question mark icon in the header.

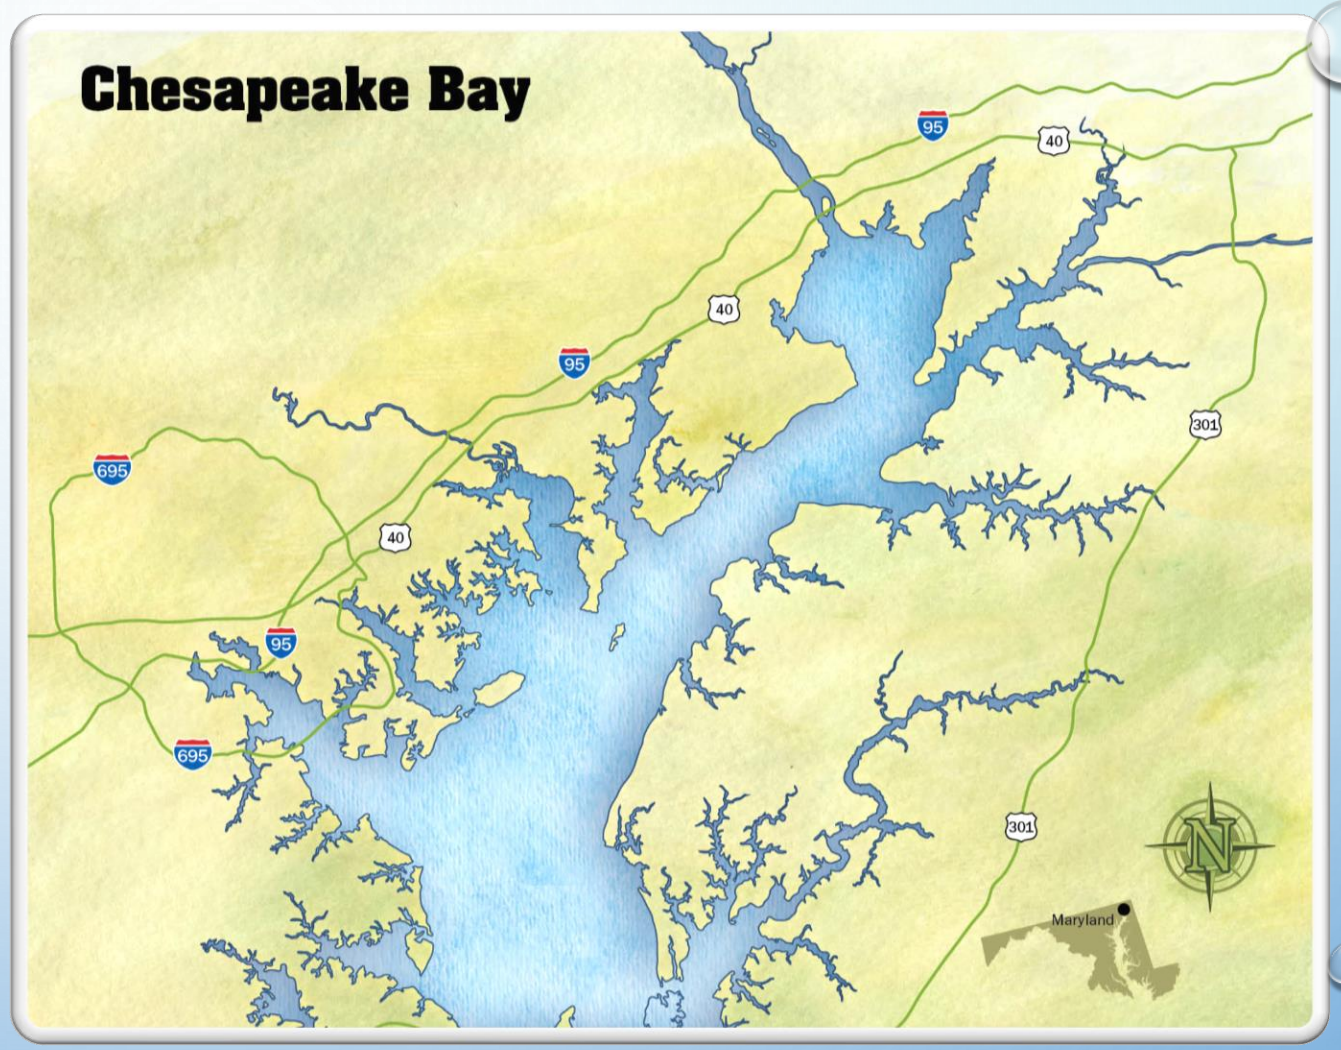
CHESAPEAKE BAY POLLUTION REDUCTION PROGRAM

- LAT IS REQUIRED TO REDUCE POLLUTANTS WITHIN THE NEXT 5 YEAR PERMIT TERM PERIOD BY A 10% REDUCTION IN SEDIMENT

- A PRP (POLLUTION REDUCTION PLAN) HAS BEEN APPROVED BY DEP

- THE PRP CONSISTS RETROFITTING 10 SWM BASINS TO BIORETENTION AREAS/BASINS IN THE TOWNSHIP TO REDUCE POLLUTANTS TO THE WATERS OF THE COMMONWEALTH

- PADEP GRANTS WERE OBTAINED FOR THE PUBLIC WORKS BASIN AND THE SHEEPFORD CROSSING WEST BASIN



LOWER ALLEN TOWNSHIP
MS4 PROGRAM
NEAR TERM EFFORTS

- REVISE AND CONTINUE IMPLEMENTATION OF SWMP
- BEGIN IMPLEMENTATION OF THE APPROVED CHESAPEAKE BAY POLLUTION REDUCTION PLAN (PRP)
- PREPARE IMPLEMENTATION SCHEDULE FOR NEW PERMIT REQUIREMENTS
- COMPLETE AND SUBMIT ANNUAL REPORT

COMMON STORMWATER POLLUTANTS

- OIL & GREASE
- SEDIMENT
- NUTRIENTS
- TRASH
- TOXICS
- CHLORIDES
- BACTERIA

Sources of Surface Water Pollution

When it rains, water that is not absorbed into the ground, intercepted by vegetation, or evaporated flows into surface waters such as rivers, canals and coastal waters. This flow is called runoff. As the runoff flows over the roads and land, it picks up pollutants.

Surface water can be polluted through groundwater.

Roads are a source of pollution. Oils, grease, construction dirt, trash & cigarette butts wash off roads when it rains.

Excess fertilizers wash off lawns & gardens when it rains & flow into surface water.

Things put into stormdrains and on the street can end up in our rivers, canals, & coastal waters

PUBLIC WORKS ACTIVITIES THAT COULD CONTRIBUTE TO NON-POINT SOURCE POLLUTION

- ROAD MAINTENANCE
- VEHICLE FLEET MANAGEMENT
- FUELING & VEHICLE REPAIR
- LOADING, TRANSFER & STORAGE OF MATERIALS
- WASTE MANAGEMENT
- CLEANING & DEGREASING
- FACILITY, PARK, & LANDSCAPE MAINTENANCE

OIL & GREASE

- DID YOU KNOW THAT 1 QUART OF OIL HAS THE POTENTIAL TO CONTAMINATE 250,000 GALLONS OF WATER IF RELEASED?
- SOURCES COME FROM –
  - POORLY MAINTAINED VEHICLES THAT LEAK OIL AND OTHER FLUIDS
  - GASOLINE SPILLS AT GAS STATIONS OR TOPPING OFF VEHICLES WHEN FUELING
  - PRESSURE WASHING PAVEMENT IN THE AREA OF VEHICLE MAINTENANCE OR GAS STATION PUMP AREA INTO STORM DRAINS
  - DUMPING USED OIL OR PETROLEUM INTO STORM DRAINS
  - VEHICLE ACCIDENTS THAT RUPTURE TANKS AND HOSES WITHOUT PROPER CLEAN UP AND CONTAINMENT
  - SPILLS AND POOR HOUSEKEEPING AROUND RESTAURANT GREASE STORAGE BINS

OIL & GREASE CONTAMINATION (CONT.)

- PRESSURE WASHING FUEL ISLAND THAT DRAINS TO STORM DRAIN
- IMPROPER STORAGE OF MATERIALS - NO SECONDARY CONTAINMENT
- LEAKING USED OIL CONTAINER

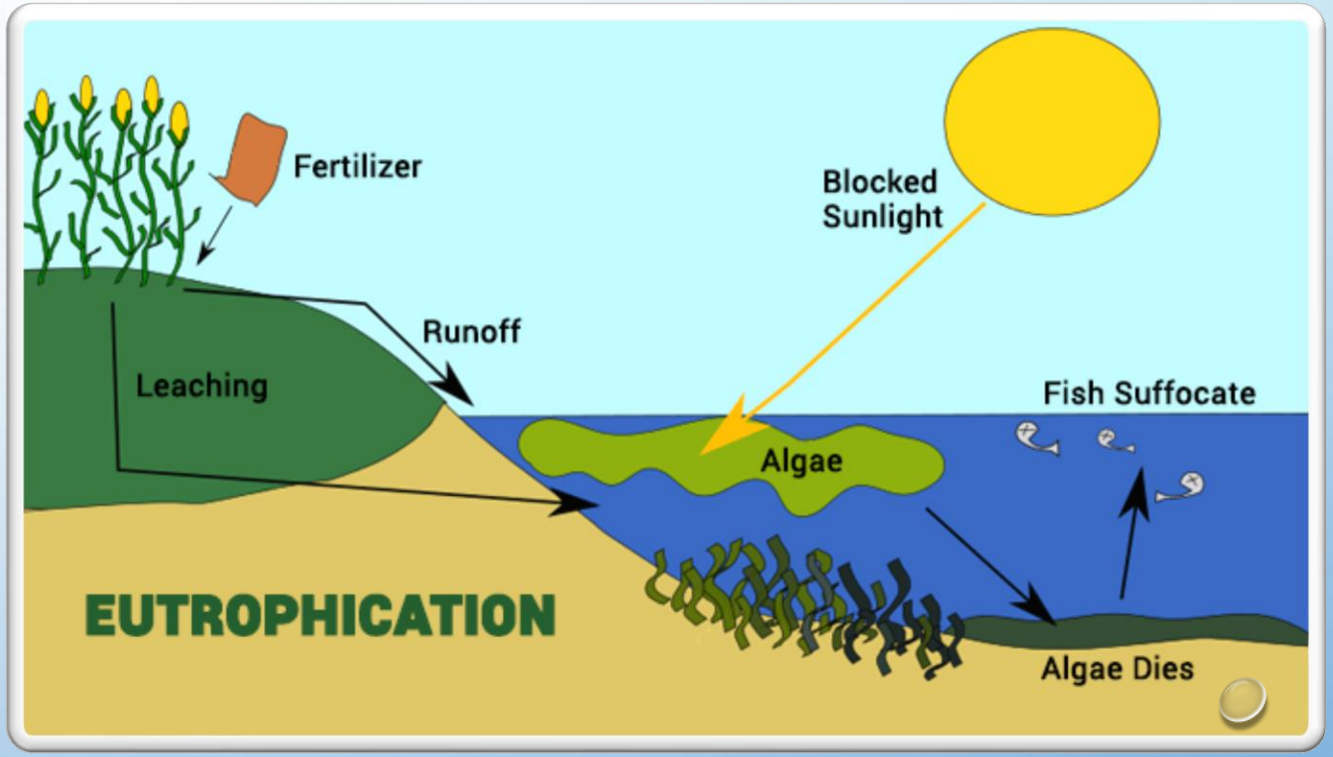
SEDIMENT POLLUTION

- WHEN SOIL, DIRT, SAND, CLAY, AND OTHER TINY BITS OF EARTH END UP IN STORMWATER
- SEDIMENT POLLUTION CAN CLOG FISH GILLS AND SUFFOCATES SMALL INSECTS
- IT CREATES MURKY, CLOUDY WATER THAT BLOCKS SUNLIGHT FROM REACHING PLANTS
- CHEMICALS AND POLLUTANTS BIND TO SEDIMENT AND ARE TRANSPORTED TO OUR WATER
- CAN CHANGE THE COURSE OF A CREEK BY DEPOSITING NEW BANKS
- COMES FROM MANY SOURCES, SUCH AS CONSTRUCTION/DIGGING, EROSION WHEN VEGETATION HAS BEEN REMOVED, DUST AND GRIME FROM PARKING LOTS & PUBLIC WORKS YARDS, BREAKDOWN OF ROADS, PARKING LOTS, AND OTHER PAVED SURFACES

SEDIMENT POLLUTION (CONT.)

NUTRIENT POLLUTION

- EXCESS PHOSPHOROUS & NITROGEN – CAUSE ALGAL BLOOMS THAT CONSUME OXYGEN IN STREAMS (PESTICIDES AND FERTILIZERS)
- CAUSED BY EXCESSIVE AMOUNTS OF FERTILIZERS APPLIED TO LANDSCAPES THAT WASH OFF AND ENTER THE STORMWATER SYSTEM
- PESTICIDES ARE SUBSTANCES, SOME OF WHICH ARE NATURAL AND SOME MANMADE, THAT ARE USED TO KILL INSPECTS, WEEDS, RODENTS AND MOLDS. WHEN USED EXCESSIVELY OR IMPROPERLY, THEY CAN END UP IN STREAMS AND HARM AQUATIC LIFE



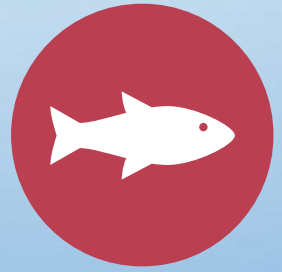
ALGAL BLOOM

TRASH, DEBRIS, & LITTER

Street litter ends up in our waterways

Improper storage of trash – uncovered trash cans and dumpsters – can be a large contributor

Litter clogs stormwater inlets, become floatable is stormwater infrastructure, and eventually make their way to creeks, streams, and rivers



Harm wildlife

TRASH, DEBRIS, & LITTER (CONT.)

CHEMICALS

POORLY MAINTAINED VEHICLES

OILY PARTS LEAKING/OVERFLOWING FROM OIL CONTAINERS

SOAP AND OTHER CLEANERS FROM VEHICLE WASHING

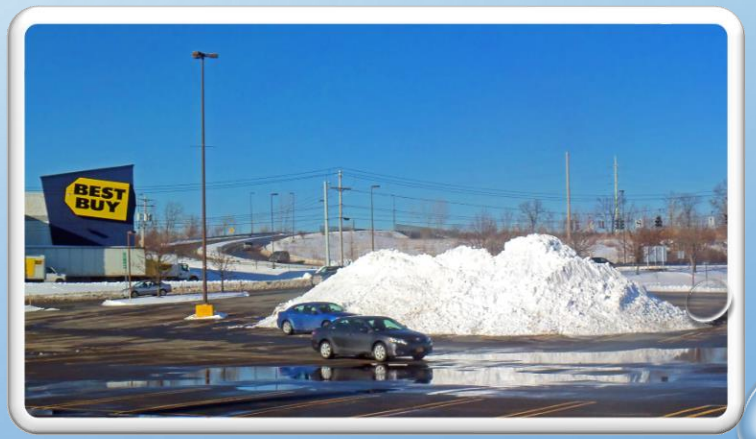
DUMPING OF MOP WATER OR CLEANING AGENTS

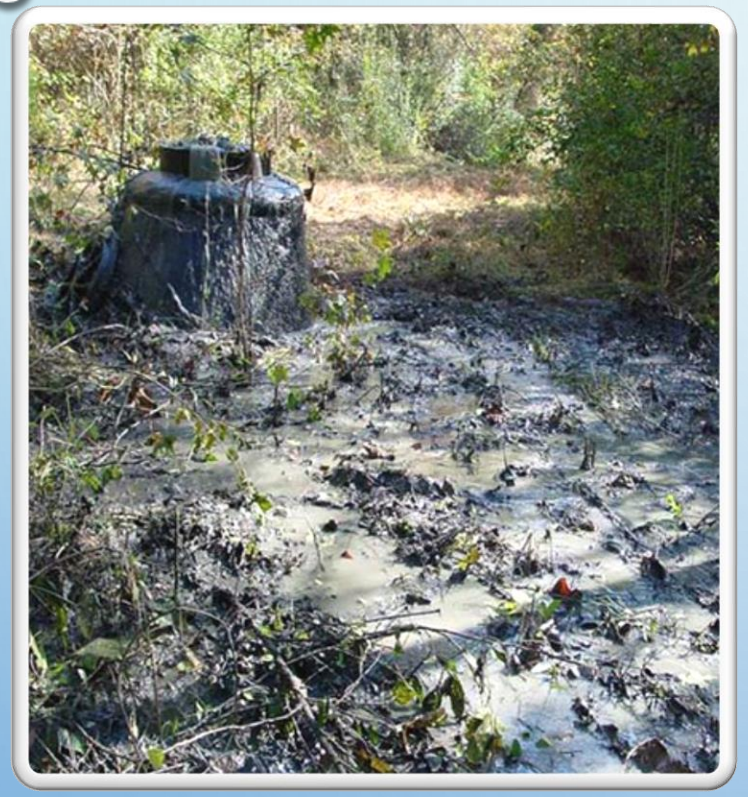
EXAMPLES OF CHEMICAL POLLUTANTS ARE:

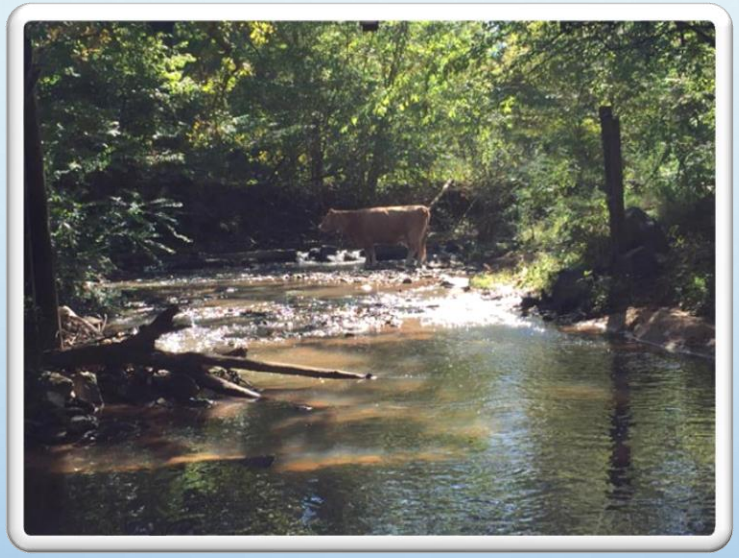
- SOLVENTS
- ANTI FREEZE
- HYDRAULIC FLUID
- LUBRICANTS
- PAINTS & COATING
- DETERGENTS

CHLORIDES

- CAN BE EASILY TRANSPORTED BY STORMWATER
- NOT EASILY REMOVED FROM STORMWATER ONCE DISSOLVED
- TOXIC PROPERTIES IN FRESHWATER STREAMS
- SALINE WATER IS CORROSIVE TO VEHICLES AND INFRASTRUCTURE

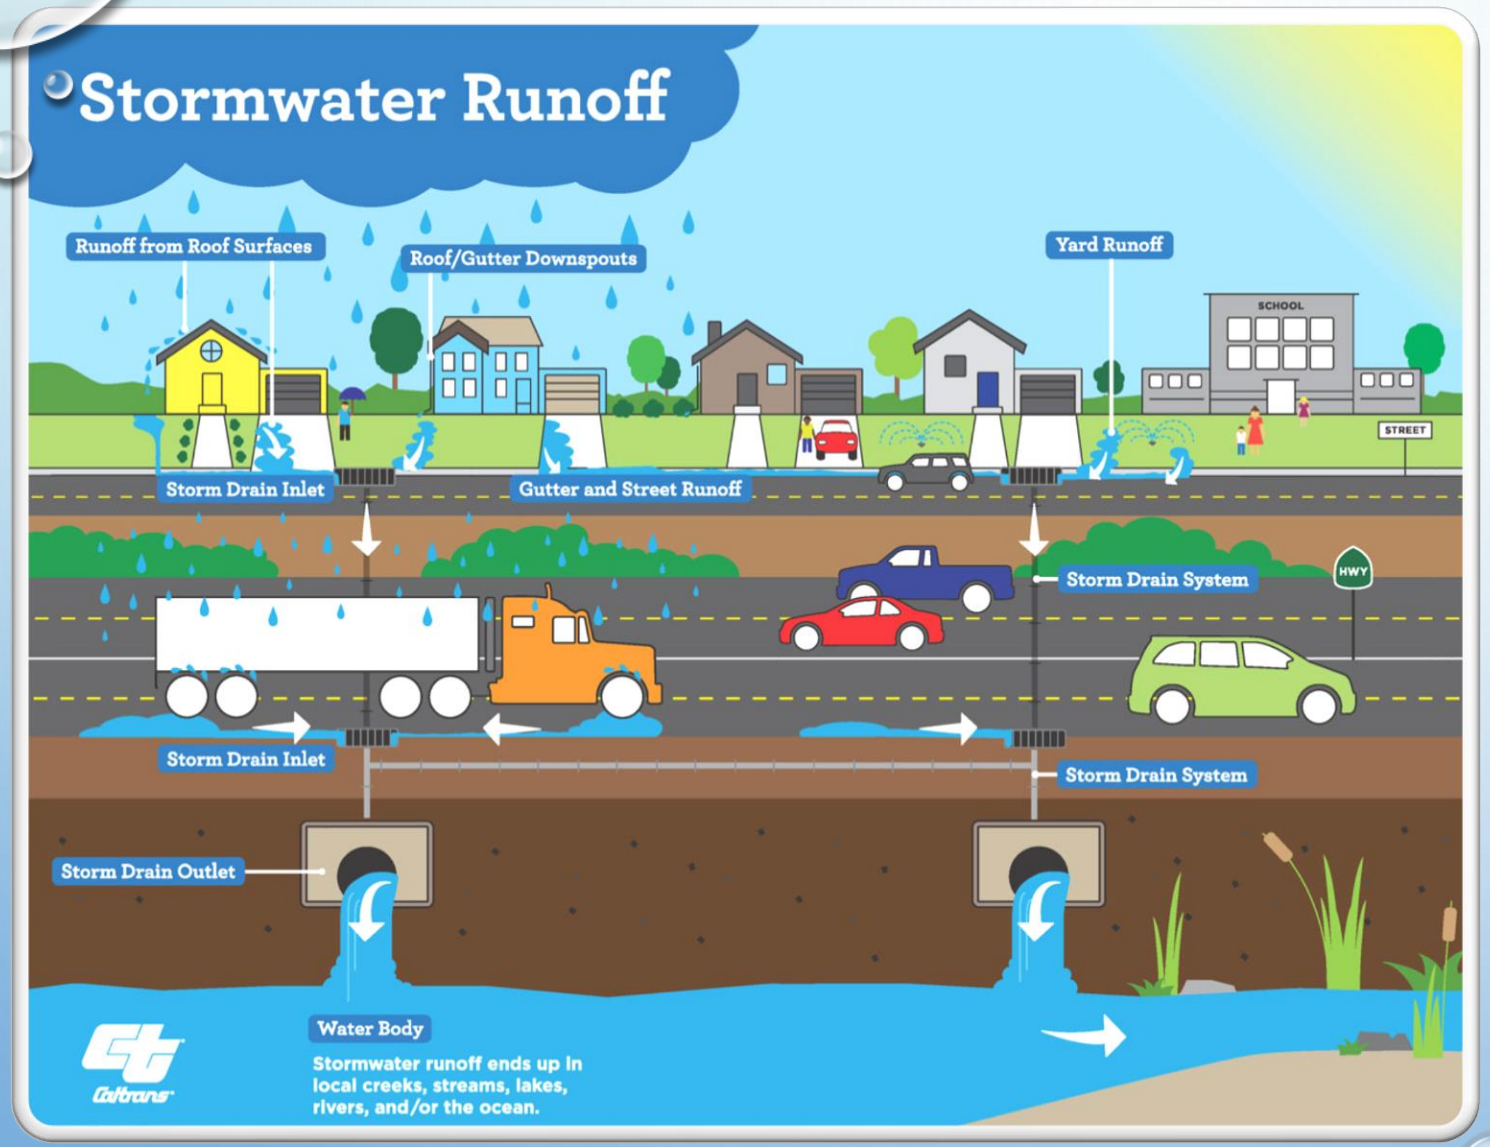






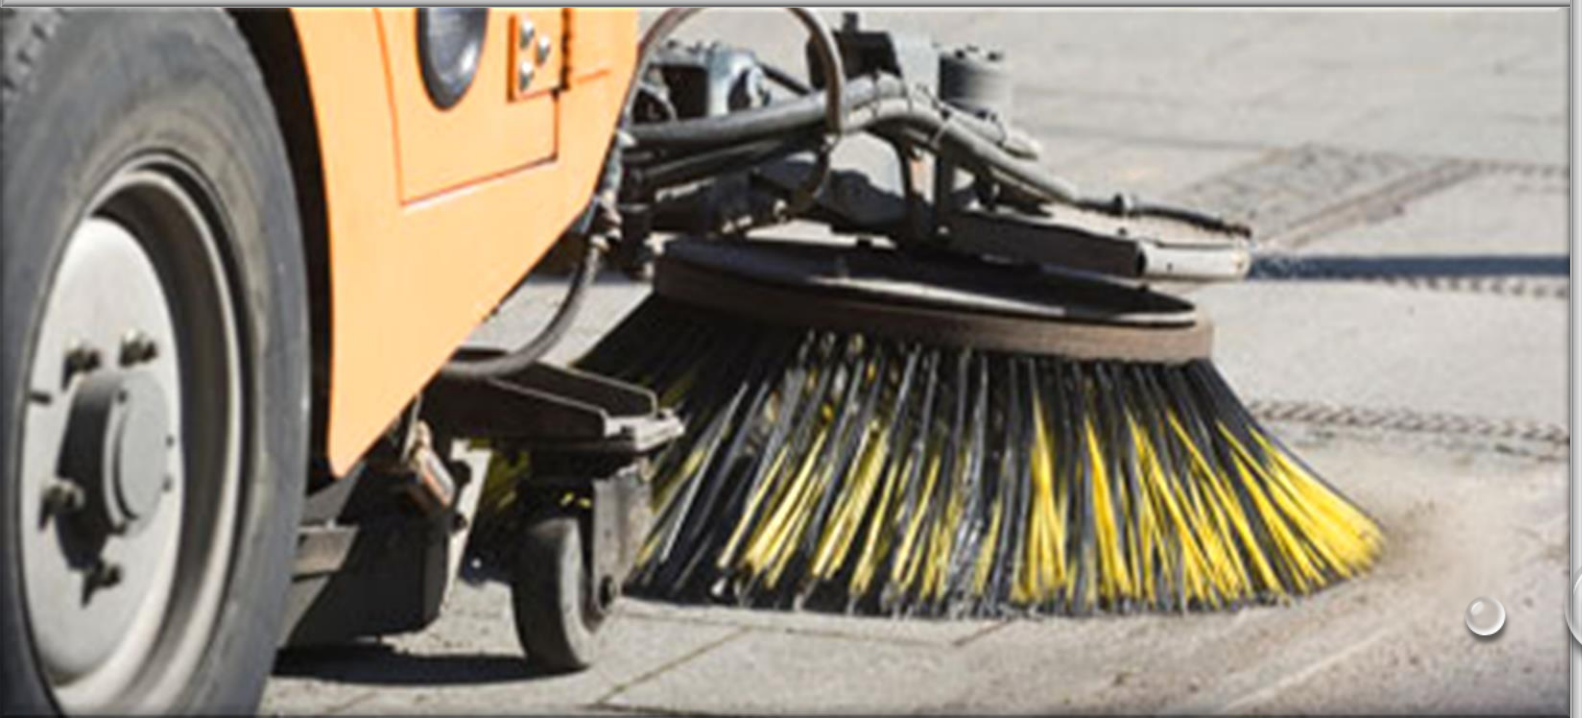
BACTERIA

- WILDLIFE & LIVESTOCK WASTE
- IMPROPER MANAGEMENT OF PET WASTES
- SEPTIC TANKS
- LEAKING SEWER LINES



WHERE ARE POLLUTANTS GOING IF NOT CONTROLLED AT THE SOURCE?

- RAIN AND SNOWMELT CAN DIFFUSE POLLUTANTS INTO A MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) THAT DISCHARGES INTO CREEKS AND RIVERS



TO REDUCE URBAN RUNOFF POLLUTION, MS4S MUST COMPLY WITH PADEP MS4 PERMIT REQUIREMENTS

- REQUIRED CONTROL MEASURES FOR MCM#6:

  - ✓ FACILITY INVENTORY
  - ✓ FACILITY OPERATION & MAINTENANCE PLAN
  - ✓ EMPLOYEE TRAINING

FACILITY INVENTORY & ACTIVITIES

INVENTORY

- STREETS, ROADS, PARKING LOTS
- MAINTENANCE & STORAGE YARDS
- PARKS
- FLEET/MAINTENANCE SHOPS
- STORMWATER CONVEYANCES
- STORMWATER BASINS

ACTIVITIES

INLET/OUTLET CLEANING

LAWN/GROUNDS CARE

STORM SYSTEM MAINTENANCE

PARK AND OPEN SPACE MAINTENANCE

VEHICLE MAINTENANCE

LEAF YARD DEBRIS MANAGEMENT

FACILITY INVENTORY

LOWER ALLEN TOWNSHIP
INVENTORY OF FACILITIES AND ACTIVITIES WITH POTENTIAL TO GENERATE STORMWATER RUNOFF

	Name	Location	Description	Acres	Facilities	Uses/ Activities	Township Operations	Potential Pollutants	BMPs
1	Beacon Hill	1525 Capitol View Drive	Neighborhood park	3.4	Play structure; Pavilion	Recreation	Maintenance	Trash	Grass lined swale
2	Radar Site	1612 Lowell Lane	Passive park	8.1	Open space; parking area	Passive recreation	Maintenance	Trash; vehicle drippings	Grass lined swale
3	Beacon Hill Land	Beacon Hill Blvd. At Poplar Avenue	Open field, wooded floodplain	9.7	Open space	Passive recreation	Maintenance	Trash	Riparian buffer
4	Creekwood	150 Creekwood Drive	Neighborhood park	5.6	Picnic tables; trail	Passive recreation; hiking; fishing; parking area	Maintenance	Trash; vehicle drippings	Porous asphalt trail; riparian buffer
5	Allendale	221 Deerfield Road	Neighborhood park	1.2	Pavilion; swing set; play structure; merry-go-round, basketball court	Recreation	Maintenance	Trash	None
6	Highland Park Playground	1301 Chatham Road	Neighborhood park	2.0	Pavilion; picnic tables; tennis court; basketball court; shuffleboard court; play structure; swing set	Recreation	Maintenance	Trash	None
16	Sheepford Crossing Basin 2	Ewe Road	Stormwater detention basin	1.0	Basin with outlet structure	None	Maintenance	Trash; vehicle drippings; other material in street runoff	SWM basin; rock filter at outlet structure
17	Public Works Shop	1400 St. Johns Road	Public Works Department Facility	16.2	Office, storage and maintenance building; storage sheds; asphalt pads; parking area; stormwater basins	Vehicle storage and maintenance; material storage; yard waste processing and storage	Building and site maintenance, vehicle storage and maintenance; material storage; yard waste processing and storage	Trash; vehicle drippings; road salt; vehicle maintenance materials and fluids	SWM basins; oil/water separator; salt settling basins
18	Leaf Composting Facility	2750 Yetter Court	Leaf composting facility	4.9	Asphalt pad	Composting leaves collected from throughout the Township	Composting leaves collected from throughout the Township	Trash; vehicle drippings; nutrients from leaf compost	SWM basin
19	LA Fire Station 2	800 Rupp Avenue	Fire station	0.7	Building, parking lot	Office; vehicle and equipment storage	Maintenance	Trash; vehicle drippings	None

MINIMUM CONTROL MEASURE 6

EMPLOY POLLUTION PREVENTION GOOD HOUSEKEEPING BEST MANAGEMENT PRACTICES (BMPS) TO CONTROL STORMWATER RUNOFF POLLUTION AT TOWNSHIP OWNED FACILITIES

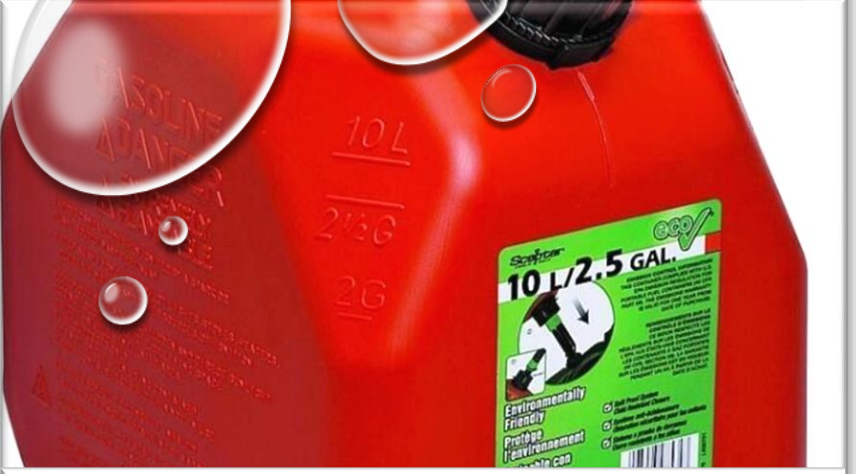
- PUBLIC WORKS FACILITY
- FACILITY AND ROAD MANAGEMENT
- WASTE HANDLING AND DISPOSAL
- LOADING & UNLOADING
- STOCKPILING & STAGING
- PAINTING
- COMPOSTING
- EARTH DISTURBANCE & CONSTRUCTION
- PARK MAINTENANCE

PUBLIC WORKS GOOD HOUSEKEEPING BMPS

- VEHICLE FUELING
- VEHICLE MAINTENANCE
- VEHICLE WASHING
- WINTER ROAD MANAGEMENT

VEHICLE FUELING

- MONITOR FUELING ACTIVITY
- DO NOT TOP OFF FLUIDS
- CLEAN UP SPILLS IMMEDIATELY – SPILL KIT AND MATERIALS ARE AT OUR FUEL ISLAND
- PREVENT SPILLS FROM ENTERING STORM DRAINS
- REPLENISH SPILL KIT MATERIALS



RE-FUELING RULES OF THUMB

- PREVENT EXPOSURE TO RAIN
- DO NOT HOSE DOWN FUELING AREAS
- CLEAN UP USING DRY CLEANING METHODS
- ROUTINELY WIPE DOWN SPIGOTS & FUEL PORTS
  - ❖ REFUELING OFF SITE?
    - ✓ KEEP SPILL CLEAN UP SUPPLIES ON HAND
    - ✓ STAY AWAY FROM INLETS AND WATERWAYS WHEN FUELING

VEHICLE MAINTENANCE BMPS

DAMAGED VEHICLES:

- STEER CLEAR OF STORM INLETS
- PARK INDOORS OR UNDER COVER
- COLLECT LEAKING FLUIDS
- EMPTY DRIP PANS AS NECESSARY
- REPORT SPILLS OVER 5 GALLONS

VEHICLE MAINTENANCE

MATERIAL STORAGE AND HANDLING:

- PREVENT EXPOSURE TO RAIN & RUNOFF
- AWAY FROM STORM INLETS
- KNOW THE BMP PROCEDURES

✓ INDOORS OR UNDER COVER
✓ ON CONCRETE SURFACE
✓ SECONDARY CONTAINMENT
✓ SAFE & STABLE STORAGE
✓ PROPER DISPOSAL
✓ PROPER LABELS/IDENTIFICATION

❖ WHEN IN DOUBT REFER TO MATERIAL SAFETY DATA SHEETS (MSDS)

VEHICLE MAINTENANCE (CONT.)

FLUID TRANSFER

- KNOW PROPER PROCEDURES
- USE SUPPLIES TO SIMPLIFY TASKS
- HAVE DESIGNATED TRANSFER STATIONS
- SECONDARY CONTAINMENT
- CLEANUP SPILLED PRODUCT WITH ABSORBENT
- DRY WIPE PORTS & CONTAINERS

LABEL CONTAINERS! IDENTIFY CONTENTS

HAZARDOUS MATERIALS

- ANY AGENT OR ITEM WITH THE POTENTIAL TO CAUSE HARM TO HUMANS, ANIMALS, OR THE ENVIRONMENT
  - BIOLOGICAL
  - CHEMICAL
  - RADIOLOGICAL
  - PHYSICAL

LAWS GOVERN MANUFACTURE, DISTRIBUTION, USE, DISPOSAL, CLEANUP AND REMEDIATION!

SPILL RESPONSE & CLEANUP

#1 – BE PREPARED

PROPER RESPONSE AND CLEANUP PROCEDURES

KNOW STORM DRAIN INLET LOCATIONS

PROTECT INLETS IMMEDIATELY TO AVOID RELEASE TO MS4

LOCATE SPILL CLEANUP SUPPLIES

APPLY ABSORBENT

CLEANUP AND DISPOSE OF USED MATERIAL

REAPPLY ABSORBENT AS NEEDED

REPORT TO MS4 COORDINATOR SPILLS OVER 5 GALLONS FOR DOCUMENTATION

If Hazardous Waste, must dispose as such. Consult MSDS for proper disposal instructions!

IN ALL SITUATIONS, ESPECIALLY EMERGENCY SITUATIONS, CONSULT THE TOWNSHIP PREPAREDNESS, PREVENTION AND CONTINGENCY (PPC) PLAN!

pig Spill Center

PROTECT

- Evacuate non-essential personnel.
- Assess the spill and identify the liquid.
- Choose the proper protective clothing and equipment to safely respond.

CONFINE

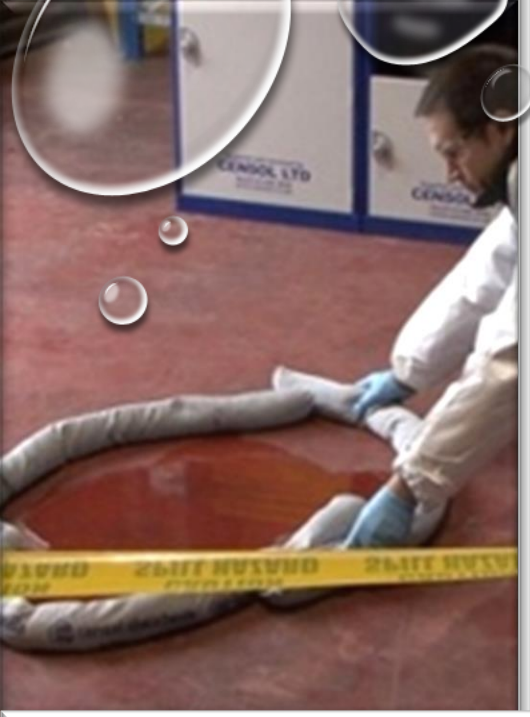
- Confine the spill with absorbent socks or booms.
- Overlap socks ends several inches to prevent liquids from breaking through.

CLEAN UP

- Clean up the spill with mats, pillows or loose absorbents.
- Place the absorbents starting from the outside of the spill inward.

DISPOSE

- Place saturated absorbents in provided yellow temporary disposal bags and close with included plastic ties.
- Dispose of properly.



ABSORBENTS

- GRANULAR PRODUCTS
- ABSORBENT PADS, MATS & SOCKS
- DRUM COVERS

INVENTORY AND REPLENISH SUPPLIES AS NECESSARY

VEHICLE WASHING

- DO NOT HOSE OFF VEHICLES INTO STORM DRAINS
- USE DESIGNATED VEHICLE WASH STATION THAT FILTERS WASH WASTER
- **AVOID EXCESSIVE DETERGENT! IT'S NOT AN AUTHORIZED RELEASE UNDER OUR NEW PAG-13 PERMIT**

ROAD SALTING

- AVOID OVERFILLING TRUCKS
- MAKE SURE SPREADERS ARE WORKING PROPERTY
- REDUCE APPLICATION RATES – **ONLY WHEN POSSIBLE! SAFETY FIRST**
- SWEEP UP SPILLS

SALT STORAGE

- COVER AND CONTAIN STOCKPILES
- KEEP AWAY FROM STORMWATER INLETS
- KEEP MATERIAL DRY
- SWEEP DURING & AFTER OPERATIONS

OTHER MUNICIPAL ACTIVITIES

POLLUTION PREVENTION
GOOD HOUSEKEEPING BMPS

FACILITY & ROAD MANAGEMENT

SWEEP REGULARLY USING DRY METHODS:

- ✓ BROOM
- ✓ VACUUM EQUIPMENT

AVOID HOSING DOWN & POWER WASHING TO PREVENT POLLUTANTS FROM ENTERING MS4

REGULARLY CHECK AND CLEANUP AREAS PRONE TO LITTER OR DEBRIS ACCUMULATION

WASTE HANDLING

- LOCATE DUMPSTERS AWAY FROM INLETS – ADD INLET FILTER IF NECESSARY
- INSPECT RECEPTACLES
- CLOSE LIDS/LEAK PROOF
- LABEL RECEPTACLES FOR CONTENTS

STOCKPILING & STAGING

- KEEP AWAY FROM INLETS AND DRAINAGE PATHWAYS
- COVER, CONTAIN AND ELEVATE TO PREVENT CONTACT WITH RAINWATER
- SWEEP UP MATERIALS!
- PLAN AHEAD AND KEEP SUPPLIES ON HAND IF NEEDED (TARPS ETC.)

PARK & OPEN SPACE MAINTENANCE

- MULCH GRASS – KEEP CLIPPINGS OUT OF STREET AND AWAY FROM INLETS
- DO NOT OVERAPPLY PESTICIDES AND FERTILIZERS OR SPRAY INTO STREETS OR PAVED AREAS IF POSSIBLE
- IF POSSIBLE, DEFINE AREAS AS “NO MOW” ZONES AND LEAVE IN NATURAL STATE – BENEFITS ARE NUMEROUS (REDUCED TIME, COST, EROSION BUFFERS, NUTRIENT REMOVAL, INFILTRATION)

COMPOSTING

- MANAGE RUNOFF FROM COMPOST SITES AND OPERATIONS
- ROUTE RUNOFF AND LEACHATE INTO TREATMENT STRUCTURE (BASIN)
- MANAGE COMPOST PILES TO PREVENT IT FROM BECOMING ANAEROBIC

POLLUTION PREVENTION PAYS

IT EFFECTIVELY PREVENTS OR REDUCES STORMWATER POLLUTION

PREVENTING SPILLS AND LEAKS AVOIDS CLEANUP & REMEDIATION COSTS

LOWERS OUR LIABILITY

REDUCES EMPLOYEE RISK – SAFER WORKING CONDITIONS

REDUCES INSURANCES CLAIMS

AVOIDS COSTLY FINES

LOWER ALLEN TOWNSHIP LEADS BY EXAMPLE

PREPAREDNESS, PREVENTION AND CONTINGENCY (PPC) PLAN FOR THE PUBLIC WORKS FACILITY

- PLAN IMPLEMENTATION – PUBLIC WORKS COORDINATOR AND TOWNSHIP ENGINEER
- CHAIN OF COMMAND IN THE EVENT OF AN EMERGENCY OR SPILL:

1. DANIEL FLINT – PUBLIC WORKS DIRECTOR/TOWNSHIP ENGINEER
2. THOMAS VERNAU – TOWNSHIP MANAGER
3. DAVID HOLL – PUBLIC SAFETY DIRECTOR/EMERGENCY MANAGEMENT

SPILL LEAK PREVENTION AND RESPONSE

VEHICLE FUELING FACILITY

- ALL FUEL IS STORED IN PERMITTED UNDERGROUND TANKS
- FACILITY IS UNDER COVER
- ANY SPILL WOULD FLOW TO THE STORMWATER DETENTION BASIN

NON-REUSABLE WASTE OIL

- STORED UNDERGROUND IN A WASTE OIL TANK OUTSIDE THE BUILDING
- ANY SPILL INSIDE THE BUILDING WOULD PASS THROUGH THE BUILDING'S OIL SEPARATOR WITH FLOW CONTROL

SALT

- DEICING SALT IS STORED IN A COVERED BUILDING WHERE LOADING OPERATIONS OCCUR
- RUNOFF DIRECTED TO A STORMWATER DETENTION BASIN WITH NO DISCHARGE – SETTLING BASIN

INSPECTION AND MONITORING

- ROUTINE GENERAL INSPECTIONS OF THE SITE OCCUR ON A DAILY BASIS
- UNDERGROUND FUEL TANKS ARE EQUIPPED WITH MONITORING DEVICES WITH AN ALARM SYSTEM. THE UNDERGROUND STORAGE PERMIT REQUIRES INSPECTIONS OF THE TANKS
- FUEL DISPENSING EQUIPMENT IS INSPECTED FOR PROPER OPERATION

PREVENTATIVE MAINTENANCE

- ALL VEHICLES AND EQUIPMENT ARE INPSECTED AND MAINTAINED THROUGH A PREVENTATIVE MAINTENANCE PROGRAM RUN BY THE TOWNHSIP'S FELLT MANAGEMENT DIVISION

HOUSEKEEPING PROGRAM

MATERIAL STORAGE

- OTHER THAN BULK MATERIALS, MATERIALS ARE STORED SECURLY AND NEATLY WITHIN THE MAINTENANCE BUILDING
- ALL EMPLOYEES MAKE A CONCIOUS EFFORT TO HANDLE MATEERIALS WITH CARE TO AVOID SPILLS
- PROPER CLEANUP PROCEDURES ARE IMPLEMENTED IF A SPILL DOES OCCUR

SECURITY & TRAINING

- EQUIPMENT IS STORED IN A LOCKED MAINTENANCE BUILIDNG DURING NON-WORKING HOURS
- A LOCKED GATE SECURES THE YARD WASTE RECYCLING STORAGE AND PROCESSING AREA DURING NON-WORKING HOURS
- ALL MATERIALS ARE STORED IN A MANNAR SO THAT POWER OUTAGES AND STORMS WOULD NOT CAUSE A SPILL OR LEAK
- THE PUBLIC WORKS DEPARTMENT HAS A SAFETY MANUAL. ALL EMPLOYEES THAT WORK ON SITE ARE TRAINED IN SAFE PERFORMANCE OF THEIR WORK IN ACCORDANCE WITH THE MANUAL

COUNTERMEASURES

- IN THE EVENT OF AN INCIDENT, EMPLOYEES WILL UTILIZE THE COUNTY 911 SYSTEM
- THE TOWNSHIP OPERATES AN ALL HAZARDS EMERGENCY RESPONSE PLAN. THIS PLAN IS OPERATED THOUGH THE TOWNSHIP EOC IF REQUIRED
- THE ALL HAZARDS PLAN CONTAINS RESOURCES LISTS AND CONTACT INFORMATION FOR RESOURCES THAT MAY BE NEEDED IN THE EVENT OF AN INCIDENT AT THE FACILITY

COMMUNICATIONS/EVACUATION/EMERGENCY EQUIPMENT

- EMPLOYEES MAINTAIN CONTACT THROUGH THE USE OF MOBILE AND PORTABLE TWO-WAY RADIOS WHERE NOTIFICATIONS CAN OCCUR IF REQUIRED
- EMERGENCY EXIT PLANS ARE POSTED THROUGHOUT THE MAINTENANCE BUILIDNG IN ACCORDANCE WITH THE INTERNATIONAL FIRE CODE
- THERE ARE PORTABLE FIRE EXTINGUISHERS IN THE MAINTENANCE BUILDING
- ADDITIONAL RESPONSE EQUIPMENT IS AVAILABLE FROM THE PUBLIC SAFETY DEPARTMENT IF REQUIRED

QUESTIONS/COMMENTS?

Lower Allen Township

MS4 and Public Safety

June 2020

OBJECTIVES

- Overview of Stormwater & Lower Allen Township's MS4 Program
- Understanding of what municipalities are required to do for their Stormwater Management Program
- Your role and responsibility in helping Lower Allen Township fulfill their stormwater permit requirements

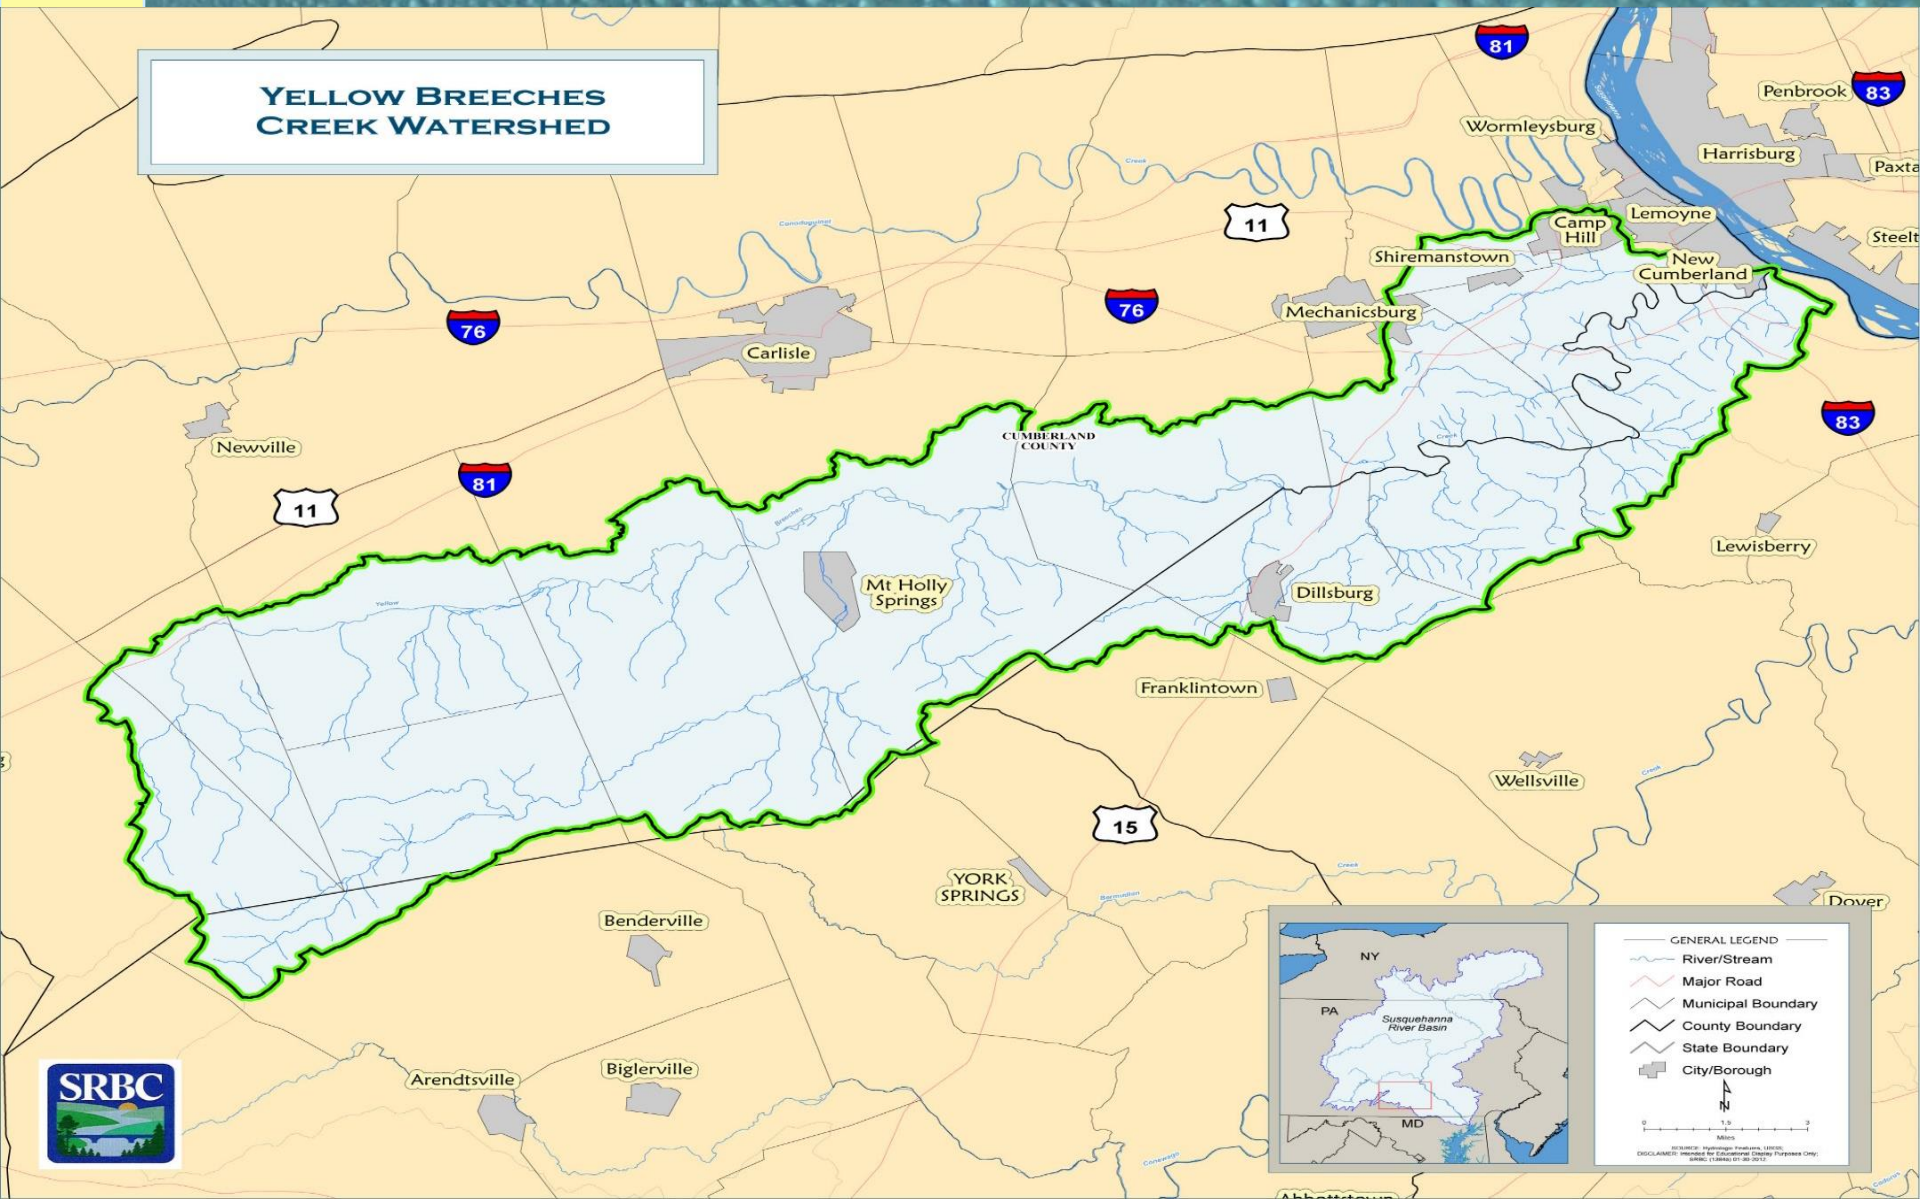
What is Stormwater?

Stormwater occurs when precipitation from rain or snowmelt flows over the ground

Why & When can Stormwater become a problem?

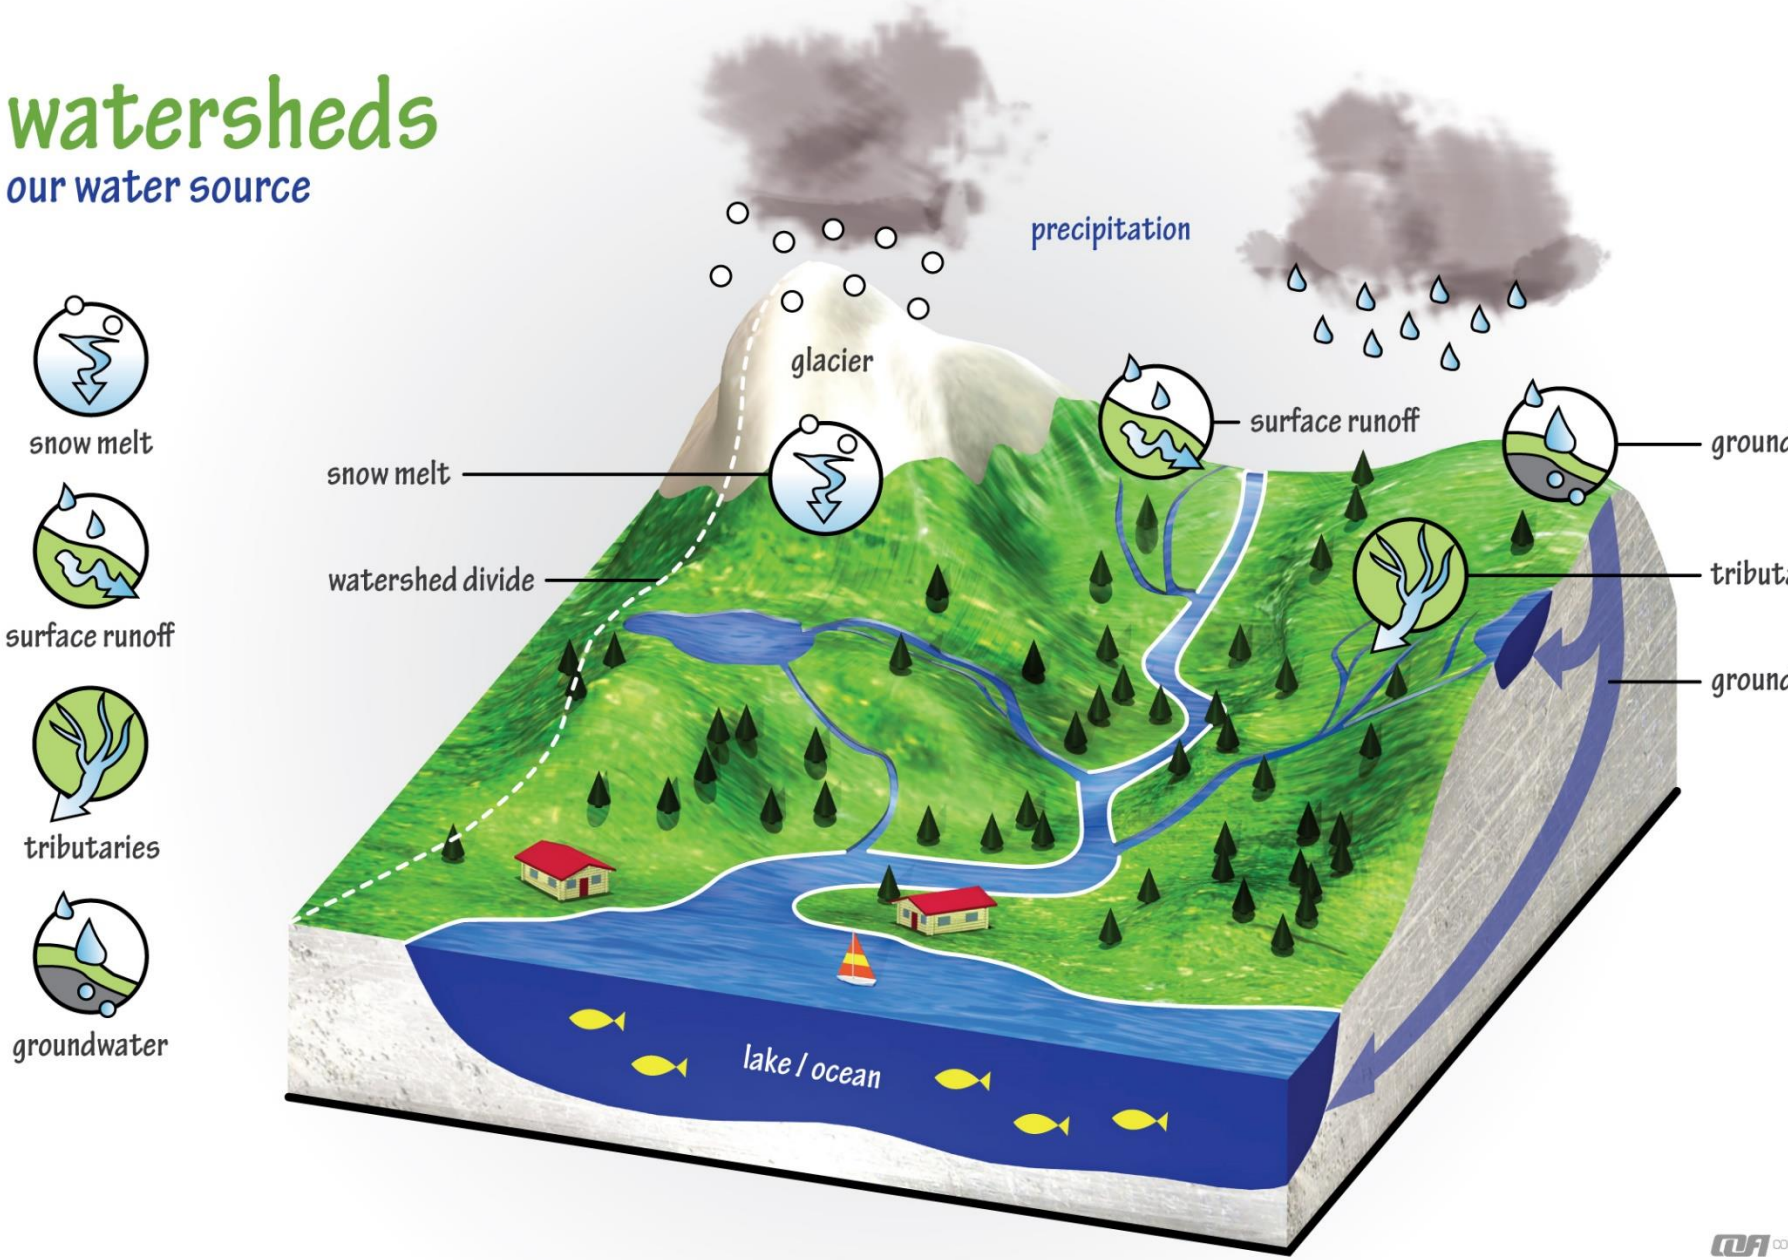
- Erosion & Sedimentation
- Flooding
- Pollutants carried to waterways
- Harmful to habitats of aquatic wildlife (Cedar Run & Yellow Breeches – impaired waterways)
- Can make water resources unsafe for recreation and drinking

Yellow Breeches Watershed



watersheds

our water source



Has anyone seen one of these before?

Storm drains, storm sewers, streets, canals, and catch basins carry excess rain and ground water from paved streets, parking lots, sidewalks and roofs.

The neighborhood that you live in most likely uses storm drains to carry stormwater to creeks, streams, and rivers.

So…….where does the storm sewers take the stormwater??

Storm sewers carry stormwater to detention ponds or directly to creeks, streams and rivers and eventually all of the water will end up in our oceans.

MS4 Program

- What does MS4 stand for?
  - Municipal
  - Separate
  - Storm
  - Sewer
  - System

What is MS4?

- MS4 is a conveyance or a system of conveyances that is:
  - Designed or used to collect or convey stormwater (can consist of curbs, gutters, storm pipes, diches, swales, streets, etc.)
  - Owned by a state, city, town, village, or other public entity that discharges to waters of the commonwealth

Background

A PROGRAM UNDER WHICH A MUNICIPALITY IS ISSUED A PERMIT TO DISCHARGE STORMWATER INTO THE CHESAPEAKE BAY

THE INTENT OF THE MS4 PROGRAM IS TO REDUCE POLLUTANTS INTO WATERS OF THE COMMONWEALTH

THE MS4 PROGRAM IS REGULATED BY BOTH THE UNITED STATES DEPARTMENT OF ENVIRONMENTAL PROTECTION AGENCY (EPA) AND THE PENNSYLVANIA DEPARTMENT OF ENVIRONMENTAL PROTECTION (PADEP)

Storm Water Permit Program for Small Communities

- Federal regulation requires permit for our community
  - National Pollutant Discharge Elimination System (NPDES)
- PA DEP created state permitting program to meet federal regulation

HOW DOES THE MS4 PERMIT WORK?

MUNICIPALITIES ACQUIRE A NPDES PERMIT THAT COVERS A 5 YEAR PERIOD.

THE PERMIT REQUIRES THE MUNICIPALITY TO MEASURE IT'S EFFORTS TO REDUCE POLLUTANTS IN 6 DIFFERENT AREAS.

ANNUALLY, THE MUNICIPALITY MUST REPORT TO PADEP ON HOW THEY HAVE IMPROVED, CHANGED, AND MANAGED THESE AREAS IN ORDER TO MAINTAIN COMPLIANCE WITH THEIR PERMIT.

MINIMUM CONTROL MEASURES MUST BE RE-EVALUATED ANNUALLY TO DETERMINE COMPLIANCE.

Minimum Control Measures (MCMs)

- Public Education and Outreach
- Public Involvement and Participation
- Illicit Discharge Detection and Elimination
- Construction Site Stormwater Runoff Control
- Post Construction Stormwater Management
- Pollution Prevention/Good Housekeeping

GENERAL MS4 PERMIT INFORMATION

NPDES MS4 PAG 133711

- Effective Date: April 1, 2013
- Expiration Date: March 15, 2018

2018 General MS4 Permit

- Effective Date: March 16, 2018
- Expiration Date: March 15, 2023
- First reporting period ends on June 30, 2018
- First Annual Report due September 30, 2018 (April 1, 2017- June 30, 2018)
- All subsequent Annual Reports due September 30 and will cover the reporting period of July 1 – June 30

Stormwater Management

LAT Storm Water Program

- Public Education and Outreach
- Public Involvement/ Participation
- Illicit Discharge Detection and Elimination
- Construction Site Runoff Control
- Post-Construction Storm Water Management
- Pollution Prevention/Good Housekeeping

MCM #1 - Public Education and Outreach

- Distribute educational materials developed by PA DEP
- Develop outreach plan for community
- Educate public on water quality impacts due to stormwater runoff and steps for reduction of pollutants

What is MS4?

MS4 is known as Municipal Separate Storm Sewer System. An MS4 is a conveyance or system of conveyances that is:

- Owned by a state, city, town, village, or other public entity that discharges to waters of the commonwealth.
- Designed or used to collect or convey stormwater (roads with drainage systems, storm drains, curbs, gutters, pipes, ditches).

Help Lower Allen Township stop stormwater pollution! Report potential problems to the Township via the website or the contact below.

Lower Allen Township

A Township of the First Class

A Residential Guide for Preventing Stormwater Pollution

MCM #2 - Public Involvement/Participation

- Provide public notice
- Create a public involvement plan
- Hold a public meeting on the program
- Support volunteer programs
  - Water Quality Monitoring
  - Storm Drain Identification
  - Stream Clean-Ups

MCM #3 - Illicit Discharge Detection and Elimination

- Enact DEP's model ordinance or update our existing ordinance
- Develop storm sewer system map
- Implement program to detect non-storm water in system. Create a reporting mechanism for residents
- Educate community on problems related to dumping in storm sewers

MS4 Stormwater Program

Illicit Discharge Reporting Form

Date:_____

Name:_____

Email:_____

Phone:_____

What type of incident do you wish to report? (Circle all that apply)

Dumping down a storm drain
Suspicious Discharge from a pipe into a stream
Unusual Color of Water in a Stream
Strange Smells in Stream
Suspicious Suds or other Substances Floating on Water
Death of Aquatic Creatures

Where did the incident take place?

Address (if applicable):_____
Name of Street:_____
Name of Closest Cross Street:_____
Name of Body of Water Impacted:_____

Date of Incident:_____
Time of Incident:_____

Send this form along with any additional information and photographs to:

Lower Allen Township
MS4 Coordinator, Rebecca Davis

MCM #4 - Construction Site Storm Water Runoff Control

- Enact DEP's model ordinance or update our existing ordinance
- Coordinate with County Conservation District
  - Erosion and Sediment Control Program
  - NPDES Construction Storm Water Permitting
- Educate construction industry – add contractors/builders to Target Audience List

MCM #5 - Post-Construction Storm Water Management

- Adopt PA DEP's model storm water management ordinance
- Ensure proper operation and maintenance of post-construction controls
- Continue Best Management Practice (BMP) monitoring through annual mailing and reporting system

LOWER ALLEN TOWNSHIP

Best Management Practices for Stormwater Management on Construction Sites

Plan in Advance to Prevent Pollution!

Remove existing vegetation only as needed. This will enhance site stabilization.

Schedule excavation, grading, and paving operations for dry weather periods.

Train and educate employees and subcontractors about stormwater management requirements and pollution prevention.

Have extra erosion controls on site in case of a control failure.

Designate a specific area away from storm drains and waterways for material storage and equipment maintenance.

Protect storm drains and streams near the site. Use inlet protection and regularly check areas after storms.

Review regulations to make sure you have obtained the required permits necessary for construction activities.

REMEMBER:
Allowing stormwater with sediment pollutants to leave your construction site and enter a storm drain or waterway is against federal and state laws!

The most common source of pollution associated with construction activities is **SEDIMENTATION** caused by erosion.

Failure to maintain adequate **Erosion and Sediment Controls (E&SC)** at construction sites often results in sediment discharge into the storm drain system and ultimately waterways.

Once this discharge reaches waterways, it creates problems such as turbidity (cloudiness of the water) and chemical changes to the water. These changes effect drinking water quality and can even kill fish and other aquatic life.

The only thing that should leave your project's site and enter a storm drain is clean, uncontaminated **stormwater.**

The Yellow Breeches Creek and Cedar Run are only a Storm Drain away!

Please remember to:

- Clean up spills immediately
- Sweep frequently and limit access to/from the site.
- Stabilize construction entrances and exits and perform maintenance when necessary.
- Do not stockpile materials near a storm drain, wetland, or stream.
- Maintain silt fence and silt socks to make sure no materials are getting beyond them; replace/repair as necessary.
- Remove trash and litter from the site.
- Check trash containers for leaks and keep them covered.

If you have questions prior to the start of construction please contact the Township to schedule a site meeting. We would be happy to review these regulations with you prior to start of construction activities.

For a more comprehensive list of Best Management Practices and stormwater guidance for the construction industry, go to EPA's website at www.epa.gov and search "construction stormwater."

MCM #6 - Pollution Prevention/ Good Housekeeping

- Implement O & M program that focuses on pollution prevention
- Train municipal employees on good housekeeping practices
- Educate community on pollution prevention

Lower Allen Township Facilities Inventory – MCM #6

LOWER ALLEN TOWNSHIP
INVENTORY OF FACILITIES AND ACTIVITIES WITH POTENTIAL TO GENERATE STORMWATER RUNOFF

	Name	Location	Description	Acres	Facilities	Uses/ Activities	Township Operations	Potential Pollutants	BMPs
1	Beacon Hill	1525 Capitol View Drive	Neighborhood park	3.4	Play structure; Pavilion	Recreation	Maintenance	Trash	Grass lined swale
2	Radar Site	1612 Lowell Lane	Passive park	8.1	Open space; parking area	Passive recreation	Maintenance	Trash; vehicle drippings	Grass lined swale
3	Beacon Hill Land	Beacon Hill Blvd. At Poplar Avenue	Open field, wooded floodplain	9.7	Open space	Passive recreation	Maintenance	Trash	Riparian buffer
4	Creekwood	150 Creekwood Drive	Neighborhood park	5.6	Picnic tables; trail	Passive recreation; hiking; fishing; parking area	Maintenance	Trash; vehicle drippings	Porous asphalt trail; riparian buffer
5	Allendale	221 Deerfield Road	Neighborhood park	1.2	Pavilion; swing set; play structure; merry-go-round, basketball court	Recreation	Maintenance	Trash	None
6	Highland Park Playground	1301 Chatham Road	Neighborhood park	2.0	Pavilion; picnic tables; tennis court; basketball court; shuffleboard court; play structure; swing set	Recreation	Maintenance	Trash	None

Lower Allen Township MS4 Program Near Term Efforts

- Complete and submit annual report
- Refine and continue implementation of SWMP
- Additional program documentation
- Evaluate new permit requirements and prepare implementation schedule
- Implement Chesapeake Bay Pollution Reduction Plan (PRP)

Chesapeake Bay Pollution Reduction Program

- LAT is required to reduce pollutants within the next 5 year permit term period by a 10% reduction in sediment
- A PRP (Pollution Reduction Plan) has been submitted to DEP by LAT
- The PRP proposes retrofitting 10 SWM basins to bioretention areas/basins in the township to reduce pollutants to the waters of the commonwealth

Lower Allen Township MS4 Program Longer Term Efforts

- Revise Target audience list as needed
- Step up Public Involvement and Participation and Outreach
- Prepare for program changes in PAG -13
- Greater emphasis on Water Quality

How your operations impact MS4 requirements?

Items to consider which apply to MS4 requirements:

How do you do the things below:

- **Spill Response/Spill Prevention (both at the station and emergency events)**
- **Proper disposal of spill materials at the station and after an incident**
- **Vehicle Washing areas (if using Public Works the site has an oil/water separator)**
- **Employee Training**
- **Proper reporting of spills – A SPILL OVER 5 GALLONS MUST BE INCLUDED IN THE MS4 ANNUAL REPORT TO PADEP**

Items to consider which apply to MS4 requirements (cont.):

- The Police Station is included in the Lower Allen Township Facilities list (MCM #6) – responsible for any discharges to the MS4 system
- Police employees may witness violations to the Township's MS4 permit and report them
- Chemicals stored at the Police Station are part of the facilities list and how they are used in response to accidents must be documented and reported
- Training of employees
- Recordkeeping and Reporting

Emergency Events that Impact MS4

- Fire Hydrant Flushing
- Transportation Accidents (Vehicle, Train)
- Pipeline Releases

Items to include on accident report for MS4 purposes

- Specific location of event
- Date, time, and weather conditions
- Description of the pollution (what is it and how much)
- What were you using to clean up the spill, leak, accident
- Pictures
- Description of violator (company, license plate number – if applicable)
- PA DEP Emergency Phone Number for Hazardous Spills – 1-866-825-0208
- Notify PADEP no later than 4 hours after the event if potential for down stream contamination

MS4 during Emergencies

- Any release to the Township's MS4 is a violation of Lower Allen Township's MS4 Permit!
- Ultimate cleanup responsibility lays with the responsible party (i.e. – the person who caused the spill)
- IF the Responsible Party does not mitigate the release, the municipality is responsible for maintaining compliance with the MS4 Permit and must clean up the spill and of course DOCUMENT!
- Lower Allen Township may use our stormwater management ordinance to enforce cleanup and recover costs if necessary

Stormwater Ordinance

- Lower Allen Township's Stormwater Ordinance allows us to enforce our MS4 program

Chapter 184-46. Violations and penalties; enforcement remedies:

"A. Anyone violating the provisions of this chapter shall be guilty of a summary offense and, upon conviction, shall be subject to a fine of not more than $500 for each violation, plus court costs and attorney fees. Each day that the violation continues shall be a separate offense. "

MS4 After the Emergency

Lower Allen Township will have to seek cost recovery for the cleanup against the responsible party

Documentation during the incident will allow for an easier and more accurate cost recovery

If you do not document and report to incident to the MS4 Coordinator, it didn't happen!

Who Performs Cleanup Work?

- Pennsylvania does not have certified cleanup companies
- Cleanup can be performed by:
  - Tow Company
  - Fire Company
  - Police
  - Public Works
  - Cleanup Contractor
  - RESPONSIBLE PARTY!!

Recordkeeping and Information Sharing

- If it's not in writing, it didn't happen!
- Proof of compliance with our MS4 permit
- Sharing of information provides consistency for our municipal MS4 program

Comments Or Questions?

STORMWATER TRACKING LOG

	A	B	C	D	E	F	G
1	LOWER ALLEN TOWNSHIP MS4 ACTIVITIES 07-19 to 06-20						
2	**Date**	**Employee**	**Location**	**Permit #**	**SLD or DP #**	**Other**	**Description of Actions**
3	7/1/2019	RLD	Lower Allen Community Park	NA	NA	MS4	Received complaint of sheen on the surface of the Yellow Breeches at the boat launch in the Park. Investigated complaint at the boat launch and did not observe any sheen, odor, or color on the water surface. Investigated up and down stream of the boat launch and observed no signs of illicit dishcarge. Spoke to kayakers and residents that were at the boat lauch. No one observed any dumping or odor from the creek.
4	7/1/2019	RJA	5045 Ritter Rd.	N/A	NA	MS4	Sno-Services provided a schematic for rip rap and sink hole repairs at the basin near the parking lot. Geo-fabric wrapped stone plug method to be used. Plan placed in the property file.
5	7/8/19	JME	MSC	NA	NA	MS4	Promote creek cleanup and monitor creek water level
6	7/12/19	JME	MSC	NA	NA	MS4	Evaluate safety of high creek level and cancel cleanup
7	7/18/2019	JME	MSC	NA	NA	MS4	Assist with employee MS4 training/spill control
8	7/19/2019	JME	40 Argali Lane	20190324	NA	MS4	Observed mud and stones in street, requested cleanup, reported to RD
9	7/24/2019	REL	2418 Massachusetts Ave	20190298	NA	MS4	Construction site report completed for 2418 Massachusetts Ave. Report emailed to RLD and placed in the MS4 file.
10	7/30/2019	RLD	915 S. 30th Street	20190336	NA	MS4	Received complaint of mud on the road due to demolition of an iground pool. Verified permit was obtained for the demolition. Peformed a site visit. There was no visable mud chunks or clumps on the road and the inlet in front of the home was not clogged or covered in mud. There was some slight staining on the road as to be expected. In the middle of my inspection the public works department happened to be street sweeping 30th street. Documentation and pictures were placed in MS4 file.
11	8/5/2019	REL	2418 Massachusetts Ave	20190298	NA	MS4	Inspected Foundation and noticed the concrete washout pit was not installed & silt fence was partially knocked over. Advised Ray Allen to follow up
12	8/12/2019	REL	3203-07 Shultz Place	20190363-365-366	NA	MS4	Construction site report completed for 3203-07 Shultz Place in Arcona. Report emailed to RLD and placed in the MS4 file.
13	8/14/2019	RLD	94 Poplar Avenue	NA	NA	MS4	Received complaint that there was an illicit discharge coming from a pipe in a wall along the driveway of 94 Poplar Avenue. A site visit was conducted. There was no discharge coming from the pipe nor staining observed on the driveway or road. Documentation placed in the MS4 File.
14	8/15/2019	JME	Office	NA	NA	MS4	various tasks to plan YBWA riparian buffer/10 million trees effort for fall 2019
15	8/16/2019	JME	Office	NA	NA	MS4	Various tasks to approve & document dead tree removal in scenic river corridor
16	8/19/2019	JME	Office	NA	NA	MS4	YBWA riparian buffer event planning
17	8/20/2019	RLD	32 Kensington Drive	NA	NA	MS4	Site visit to 32 Kensington Drive. Observed grass clippings in street. Mailed letter to property owner.
18	8/21/2019	JME	Office	NA	NA	MS4	coordinate MS4 event participation by YBWA at SMT event
19	8/25/2019	RLD	Bob Carey Radio Show - Carlisle PA	NA	NA	MS4	Spoke on the Bob Carey Radio Show regarding MS4 and Stormwater Runoff
20	8/27 & 8/28	RLD	Dauphin County Conservation District	NA	NA	MS4	Training - Advanced Watershed Educator Workshop - Dauphin County Agricultural Center
21	9/5/2019	REL	1443-1447 Cassie Way	20190399-400	NA	MS4	E&S Inspection 1443-1447 Cassie Way - Arcona
22	9/10/2049	RLD	3506 Capital City Mall Drive	NA	NA	MS4	Site visit to Captial City Mall. Observed grass clippings in the street. Sent letter to the mall manager, Don Smith.
23	9/12/2019	RLD	MS4 Workgroup Meeting	NA	NA	MS4	MS4 Workgroup Meeting - South Middleton Township Building
24	9/18/2019	RLD	Riparian Buffer Workshop	NA	NA	MS4	Attanded Riparian Buffer Workshop in Lancaster PA
25	10/18/2019	RLD	328 Deerfield Road	20190429	NA	MS4	BMP inspection - infiltration trench
26	11/6/2019	RLD/MC	Priority Outfall Inspections	NA	NA	MS4	Priority outfall inspections
27	11/6/2019	RLD	328 Deerfield Road	20190429	NA	MS4	Final Inspection of Infiltration Trench
28	11/9/2019	RLD	Office	NA	NA	MS4	New Resident Workshop at Lower Allen Township - MS4 Presentation
29	11/12/2019	RLD/SM	Office	NA	NA	MS4	PHRC Webinar - MS4 and it's impact on development
30	11/19/2019	RLD	Upper Allen Township	NA	NA	MS4	MS4 Workgroup Meeting - Upper Allen Township Building
31	11/20/2019	RLD/DJF	Meeting with Beacon Hill HOA	NA	NA	MS4	Meeting with the Beacon Hill HOA to discuss obtaining an easement for a PRP Basin Retrofit Project.

Lower Allen Township

MS4 Reporting

	A	B	C	D	E	F	G
32	12/5 & 12/6	RLD	Turn a New Leaf Conference	NA	NS	MS4	Attended the Turn a New Leaf Conference in Harrisburg PA. The Conference was sponsered by the Chesapeake Conservation and Landscaping Council
33	1/8/2020	RLD	South Mountain Partnership Watershed Workshop Meeting	NA	NA	MS4	Speaker and participatn at the South Mountain Partnership Watershed Workshop meeting. Spoke about Lower Allen Township's MS4 Program, our PRP, and collaboration of the MS4 Workgroup that I began in July of 2019.
34	1/17/2020	RLD/MC	Site visits - Carlisle Road	NA	NA	MS4	Site visit to 2000, 2004, and 2014 Carlisle Road. Erosion and Sedimentation concerns due to vehicles parking in road and mud dragged into street. Documented violations. Letters will be prepared regarding the ordinance violations.
35	1/20/2020	RLD/MC	Meeting with Mike Shaver at LAT regarding 2004 Carlisle Road	NA	NA	MS4	Met with Mike Shaver, owner of Mike's Concrete, to discuss mud that is being drug out onto Carlisle Road from 2004 Carlsile Road due to vehicles parking in the front yard. Mr. Shaver is proposing to stone an area with pavers to park vehicles. We discussed lot coverage and impervious area regulations with the contractor.
36	1/28/2020	RLD	MS4 Workgroup Meeting	NA	NA	MS4	MS4 Workgroup Meeting - Lower Allen Township
37	1/29/2020	RLD/DF	Attended Cumberland County WIP Stakeholder Meeting	NA	NA	MS4	Cumberland County Conservation District Office
38	4/22/2020	RLD	West Shore Area School District	NA	NA	MS4	Site visit to 1301 Carlisle Road. Observed grass clippings in street. Sent letter to West Shore Area School District.
39	4/22/2020	RLD	CVS Pharmacy	NA	NA	MS4	Site visit to 1120 Carlisle Road. Observed grass clippings in the street. Sent letter to property owner.
40	4/22/2020	RLD	2010 Carlisle Road	NA	NA	MS4	Site visit to 2010 Carlisle Road. Observed grass clippings in the street. Sent letter to property owner.
41	5/6/2020	RLD/DF	Annual MS4 Review	NA	NA	MS4	Conducted annual review of LAT MS4 Program
42	5/13/2020	GM	129 Yorkshire Drive	NA	NA	MS4	Violation letter to Secco Plumbing for mud on the street located at 129 Yorkshire Drive
43	5/14/2020	RLD/GM	Outfall Inspections	NA	NA	MS4	Perfomred outfall inpsections - priority and routine
44	6/1/2020	RLD/GM	Outfall Inspections	NA	NA	MS4	Perfomred outfall inpsections
45	6/3/2020	RLD	Corner of Saint Johns Road and Seneca Avenue	NA	NA	MS4	PennWaste called the Township to report a hydraulic line spill from one of their trash trucks at the corner of Saint Johns Road and Seneca Avenue. They reported that they were placing absorbent on the spill and would be bringing in a street sweeper to clean up the absorbent. Upon arrival to the site, I observed the street sweeper making it's last pass to clean up the absorbent. There was no release to the nearby inlet located at the corner of Seneca Avenue.
46	6/4/2020	RLD	1706 Liberty Cove	NA	NA	MS4	Joe Farrell, owner of 1706 Liberty Cove, called the Township to report that his rain spouts were overflowing and not draining to the stormwater BMP located in the rear of his property. Site visit indicated that the spouts were blocked with debris. The homeowner will have a company come out to clean out the downspouts.
47	6/5/2020	RLD	South Mountain Partnership Watershed Workshop Meeting	NA	NA	MS4	South Mountain Partnership Spring Virutal Meeting via Zoom.
48	6/8/2020	RLD	4005 Glenfinnan Place	20200054	NA	MS4	Site Inpsection of Infiltration trench construction. Observed scarfied bottom, clean stone, stone wrapped in geotextile fabric.
49	6/8/2020	RLD/GM	Sheetz Site Visit - 1500 Cedar Cliff Drive	20200058	NA	MS4	Scheduled a site visit at the Sheetz construction site on Cedar Cliff Drive. The E&S Controls failed and mud was deposited on the street. The inlet protection worked properly but was completely full of sediment. The contractor, CCCD and staff made site changes to the E&S Controls on site to mititgate the issue. There was no release to the Township MS4.
50	6/10/2020	RLD	Capturing the Rain Webinar	NA	NA	MS4	Webinar: Capturing the Rain: Green Infrastructure Options for HOA Common Areas.
51	6/22/2020	RLD/MC	Site Inspection	NA	NA	MS4	1395 Lowther Road. Owner has created a driveway in the grass and is dragging mud into the road. Letter sent to the owner.
52	6/16/2020	RLD	NOV - 1515 Slate Hill Road	NA	NA	MS4	Site visit to 1515 Slate Hill Road. Proprety owner altered the swale in the ROW of the road by placing fill and rock into the swale. NOV sent to owner.
53	6/29/2020	RLD	4516 Florence Aveune	NA	NA	MS4	Compliant reported to PD that gasoline was being dumped on property to kill weeds. Site visit revealed no gasoline smell or staining on the property. Discussion with the property owner revealed that he did dump gas on his driveway to kill weeds. I informed the owner of the proper disposal methods. No gasoline left the site and it did not enter the MS4 system.

Were sample(s) collected of the dry weather flow? ☐ Yes ☒ No (If Yes, No. Samples: _____)

FIELD / LABORATORY ANALYSIS

PARAMETER	RESULTS	UNITS	PARAMETER	RESULTS	UNITS
Flow Rate		GPM	Fecal Coliform		No./100 mL
pH		S.U.	COD		mg/L
Total Residual Chlorine (TRC)		mg/L	BOD5		mg/L
Conductivity		µmhos/cm	TSS		mg/L
Ammonia-Nitrogen		mg/L	TDS		mg/L
Other: _____			Oil and Grease		mg/L
Other: _____			Other: _____		

Indicate the parameters above that were analyzed by a DEP-certified laboratory:

ILLICIT DISCHARGES

Is the dry weather flow an illicit discharge? ☐ Yes ☐ No

If Yes, describe efforts made to determine the source(s) of the illicit discharge.

Describe corrective actions taken by the permittee in response to the finding of an illicit discharge.

Inspector Comments:

RESPONSIBLE OFFICIAL CERTIFICATION

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowledge of violations. See 18 Pa. C.S. § 4904 (relating to unsworn falsification).

MS4 OUTFALL FIELD SCREENING REPORT

BACKGROUND INFORMATION

Permittee Name: **Lower Allen Township**	NPDES Permit No.: PA**133511**
Date of Inspection: **5/14/2020**	Outfall ID No.: **CR 10.0**
Land Uses in Outfall Drainage Area (Select All): ☐ Industrial ☐ Urban Residential ☐ Commercial ☒ Suburban Residential ☐ Open Space ☐ Other:	Latitude: 40° 13' 2.278"
	Longitude: -76° 56' 38.645"
	Dry Weather Inspection? ☒ Yes ☐ No
	Date of Previous Precipitation: **5/11/2020**
	Amount of Previous Precipitation: **0.08** in
Inspector Name(s): **Rebecca Davis & Glenn MaGatz**	Were Photographs Taken? ☒ Yes ☐ No
	Are Photographs Attached? ☒ Yes ☐ No

OUTFALL DESCRIPTION

TYPE	MATERIAL	SHAPE	DIMENSIONS	SUBMERGED
☐ Closed Pipe	☐ RCP ☐ CMP ☐ PVC ☐ HDPE ☐ Steel ☐ Other	☐ Circular ☐ Single ☐ Elliptical ☐ Double ☐ Box ☐ Triple ☐ Other ☐ Other	Diameter: _____ in	☐ In Water ☐ With Sediment
☒ Open Channel	☐ Concrete ☒ Earthen ☐ Rip-Rap ☐ Other	☐ Trapezoid ☒ Parabolic ☐ Other	Depth: **2** in Top Width: **1** in Bottom Width: **1**	

Dry Weather Flow Present at Outfall During Inspection? ☒ Yes ☐ No *(If No, skip to Certification Section)*

Description of Flow Rate: ☒ Trickle ☐ Moderate ☐ Significant ☐ N/A

DRY WEATHER FLOW EVALUATION

Does the dry weather flow contain color? ☐ Yes ☒ No If Yes, provide a description below.

Does the dry weather flow contain an odor? ☐ Yes ☐ No If Yes, provide a description below.

Is there an observed change in the receiving waters as a result of the discharge? ☐ Yes ☒ No
If Yes, provide a description below.

Does the dry weather flow contain floating solids, scum, sheen or substances that result in deposits? ☐ Yes ☒ No
If Yes, provide a description below.

Were sample(s) collected of the dry weather flow? ☐ Yes ☒ No (If Yes, No. Samples: _____)

FIELD / LABORATORY ANALYSIS

PARAMETER	RESULTS	UNITS	PARAMETER	RESULTS	UNITS
Flow Rate		GPM	Fecal Coliform		No./100 mL
pH		S.U.	COD		mg/L
Total Residual Chlorine (TRC)		mg/L	BOD5		mg/L
Conductivity		µmhos/cm	TSS		mg/L
Ammonia-Nitrogen		mg/L	TDS		mg/L
Other: _____			Oil and Grease		mg/L
Other: _____			Other: _____		

Indicate the parameters above that were analyzed by a DEP-certified laboratory:

ILLICIT DISCHARGES

Is the dry weather flow an illicit discharge? ☐ Yes ☐ No

If Yes, describe efforts made to determine the source(s) of the illicit discharge.

Describe corrective actions taken by the permittee in response to the finding of an illicit discharge.

Inspector Comments:

RESPONSIBLE OFFICIAL CERTIFICATION

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowledge of violations. See 18 Pa. C.S. § 4904 (relating to unsworn falsification).

Stormwater Management Facilities and Best Management Practices (BMP's)
Maintenance and Monitoring Agreement
Operation and Maintenance Inspection Requirements

Dear Property Owner:

This letter is being sent to you because you are a property owner in Lower Allen Township where a Stormwater Best Management Practice has been installed.

In accordance with Article Seven of your Operation and Maintenance Agreement with Lower Allen Township, there are inspection and reporting requirements for the Stormwater Facility contained within the Stormwater Management Plan and the Maintenance and Monitoring Agreement recorded with your property. It is the property owner's responsibility to conduct such inspections as part of the required operation and maintenance of your installed BMP. Please keep in mind if you received a credit to your stormwater fee the completed inspection report is a condition of your credit.

Attached is a form to complete for the annual inspection and maintenance report. It would be very beneficial to include some photos of the Stormwater Facility with the report form. We appreciate your cooperation in providing us with the requested documentation in a timely manner. Please note that Lower Allen Township reserves the right to conduct such inspections and charge the property owner appropriate fees if inspection reports are not submitted as scheduled. These reports are required as a part of our annual MS4 report to the Pennsylvania Department of Environmental Protection. The MS4 Program is a required mandate that the Township must enforce from the United States Environmental Protection Agency (EPA) and the Pennsylvania Department of Environmental Protection (DEP).

Please mail or e-mail the completed form to:

Lower Allen Township
2233 Gettysburg Road
Camp Hill, PA 17011
Attn: Rebecca Davis, MS4 Coordinator
rdavis@latwp.org

If you have any questions regarding this correspondence please contact Rebecca Davis, MS4 Coordinator, at rdavis@latwp.org or 975-7575 ext. 1010.

Sincerely,

Rebecca L. Davis
Township MS4 Coordinator

The following is an account of the annual inspection for the Stormwater Maintenance Program in place for 1215 Manor Drive, Mechanicsburg, PA 17055 (parcel #13-10-0256-037).

1. The initial inspection occurred December 17th, 2019. The weather for the previous 48 hours included sustained heavy rain and the forecast for the day was additional rain. Despite the presence of standing water in multiple locations, both retention ponds appeared to be functioning properly, and a follow up inspection was scheduled to review the effectiveness of the drainage of both retention areas following the periods of sustained heavy precipitation.
    a. The northern retention area displayed standing water of more than 2 inches in multiple areas. Despite the standing water, both the eastern & western storm drain pipes showed significant flow, evidence of the system working as intended.
    b. The southern retention area showed no signs of standing water, however there was significant saturation and a "spongey" feel to the ground.
    c. Inspection of the storm drains revealed a steady flow of water through the storm drain system despite standing water in all drains.

2. The second inspection occurred on January 21st, 2020 and supported our initial opinion of the retention ponds' effectiveness, despite continued precipitation throughout the weeks leading up to the second inspection.
    a. The northern retention area displayed isolated "patches" of standing water less than one inch, most likely caused by melting ice. The area did show signs of increased sediment build up located at the western storm drain pipe, though not enough to cause any issues. Clean up of the sediment is scheduled.
    b. The southern retention area displayed no signs of standing water. A thin layer of icy snow lay on the ground in several spots due to snowfall and subsequent freezing temperatures from the previous weekend.
    c. All storm drains were clear of standing water and showed no signs of excess sediment or other impediments to the flow of water.

Re: PA Department of Corrections (DOC) - SCI-Camp Hill
NPDES No. PAG133717-MS4 –Stormwater BMPs
Operation and Maintenance Inspection Report -2020

Dear Ms. Davis:

On behalf of SCI-Camp Hill, the DOC is submitting the Operation and Maintenance Inspection Reports-2020. We presently have a waiver from PA-DEP for the NPDES Municipal Separate Storm Sewer Systems (MS4s) General Permit. The waiver is effective from October 1, 2018 through September 30, 2023. The inspection reports are for the two underground stormwater management facilities and best management practices (BMPs), according to their Maintenance and Monitoring Agreements.

If you have any questions or need additional information, please contact me at (717) 728-0372.

Sincerely,

Carol A. Piontkowski P.E.

2ND NOTICE

Re: National Pollutant Discharge Elimination System (NPDES)
Municipal Separate Storm Sewer System (MS4) Permit

Stormwater Management Facilities and Best Management Practices (BMP's)
Maintenance and Monitoring Agreement
Operation and Maintenance Inspection Requirements

Dear Property Owner:

This letter is being sent to you because you are a property owner in Lower Allen Township where a Stormwater Best Management Practice has been installed.

In accordance with Article Seven of your Operation and Maintenance Agreement with Lower Allen Township, there are inspection and reporting requirements for the Stormwater Facility contained within the Stormwater Management Plan and the Maintenance and Monitoring Agreement recorded with your property. It is the property owner's responsibility to conduct such inspections as part of the required operation and maintenance of your installed BMP. Please keep in mind if you received a credit to your stormwater fee the completed inspection report is a condition of your credit

Attached is a form to complete for the annual inspection and maintenance report. It would be very beneficial to include some photos of the Stormwater Facility with the report form. We appreciate your cooperation in providing us with the requested documentation in a timely manner. Please note that Lower Allen Township reserves the right to conduct such inspections and charge the property owner appropriate fees if inspection reports are not submitted as scheduled. These reports are required as a part of our annual MS4 report to the Pennsylvania Department of Environmental Protection. The MS4 Program is a required mandate that the Township must enforce from the United States Environmental Protection Agency (EPA) and the Pennsylvania Department of Environmental Protection (DEP).

Please mail or e-mail the completed form to:

Lower Allen Township
2233 Gettysburg Road
Camp Hill, PA 17011
Attn: Rebecca Davis, MS4 Coordinator

Re: National Pollutant Discharge Elimination System (NPDES)
Municipal Separate Storm Sewer System (MS4) Permit

Stormwater Management Facilities and Best Management Practices (BMP's)
Maintenance and Monitoring Agreement
Operation and Maintenance Inspection Requirements

Dear Property Owner:

This letter is being sent to you because you are a property owner in Lower Allen Township where a Stormwater Best Management Practice has been installed.

In accordance with Article Seven of your Operation and Maintenance Agreement with Lower Allen Township, there are inspection and reporting requirements for the Stormwater Facility contained within the Stormwater Management Plan and the Maintenance and Monitoring Agreement recorded with your property. It is the property owner's responsibility to conduct such inspections as part of the required operation and maintenance of your installed BMP. Please keep in mind if you received a credit to your stormwater fee the completed inspection report is a condition of your credit.

Attached is a form to complete for the annual inspection and maintenance report. It would be very beneficial to include some photos of the Stormwater Facility with the report form. We appreciate your cooperation in providing us with the requested documentation in a timely manner. Please note that Lower Allen Township reserves the right to conduct such inspections and charge the property owner appropriate fees if inspection reports are not submitted as scheduled. These reports are required as a part of our annual MS4 report to the Pennsylvania Department of Environmental Protection. The MS4 Program is a required mandate that the Township must enforce from the United States Environmental Protection Agency (EPA) and the Pennsylvania Department of Environmental Protection (DEP).

Please mail or e-mail the completed form to:

Lower Allen Township
2233 Gettysburg Road
Camp Hill, PA 17011
Attn: Rebecca Davis, MS4 Coordinator
rdavis@latwp.org

If you have any questions regarding this correspondence please contact Rebecca Davis, MS4 Coordinator, at rdavis@latwp.org or 975-7575 ext. 1010.

Sincerely,

Rebecca L. Davis
Township MS4 Coordinator

Re: PA Department of Corrections (DOC) - SCI-Camp Hill
NPDES No. PAG133717-MS4 –Stormwater BMPs
Operation and Maintenance Inspection Report -2020

Dear Ms. Davis:

On behalf of SCI-Camp Hill, the DOC is submitting the Operation and Maintenance Inspection Reports-2020. We presently have a waiver from PA-DEP for the NPDES Municipal Separate Storm Sewer Systems (MS4s) General Permit. The waiver is effective from October 1, 2018 through September 30, 2023. The inspection reports are for the two underground stormwater management facilities and best management practices (BMPs), according to their Maintenance and Monitoring Agreements.

If you have any questions or need additional information, please contact me at (717) 728-0372.

Sincerely,

Carol A. Piontkowski

Stormwater Management Facilities and Best Management Practices (BMP's)
Maintenance and Monitoring Agreement
Operation and Maintenance Inspection Requirements

Dear Property Owner:

This letter is being sent to you because you are a property owner in Lower Allen Township where a Stormwater Best Management Practice has been installed.

In accordance with Article Seven of your Operation and Maintenance Agreement with Lower Allen Township, there are inspection and reporting requirements for the Stormwater Facility contained within the Stormwater Management Plan and the Maintenance and Monitoring Agreement recorded with your property. It is the property owner's responsibility to conduct such inspections as part of the required operation and maintenance of your installed BMP. Please keep in mind if you received a credit to your stormwater fee the completed inspection report is a condition of your credit

Attached is a form to complete for the annual inspection and maintenance report. It would be very beneficial to include some photos of the Stormwater Facility with the report form. We appreciate your cooperation in providing us with the requested documentation in a timely manner. Please note that Lower Allen Township reserves the right to conduct such inspections and charge the property owner appropriate fees if inspection reports are not submitted as scheduled. These reports are required as a part of our annual MS4 report to the Pennsylvania Department of Environmental Protection. The MS4 Program is a required mandate that the Township must enforce from the United States Environmental Protection Agency (EPA) and the Pennsylvania Department of Environmental Protection (DEP).

Please mail or e-mail the completed form to:

Lower Allen Township

Stormwater Management Facilities and Best Management Practices (BMP's)
Maintenance and Monitoring Agreement
Operation and Maintenance Inspection Requirements

Dear Property Owner:

This letter is being sent to you because you are a property owner in Lower Allen Township where a Stormwater Best Management Practice has been installed.

In accordance with Article Seven of your Operation and Maintenance Agreement with Lower Allen Township, there are inspection and reporting requirements for the Stormwater Facility contained within the Stormwater Management Plan and the Maintenance and Monitoring Agreement recorded with your property. It is the property owner's responsibility to conduct such inspections as part of the required operation and maintenance of your installed BMP. Please keep in mind if you received a credit to your stormwater fee the completed inspection report is a condition of your credit.

Attached is a form to complete for the annual inspection and maintenance report. It would be very beneficial to include some photos of the Stormwater Facility with the report form. We appreciate your cooperation in providing us with the requested documentation in a timely manner. Please note that Lower Allen Township reserves the right to conduct such inspections and charge the property owner appropriate fees if inspection reports are not submitted as scheduled. These reports are required as a part of our annual MS4 report to the Pennsylvania Department of Environmental Protection. The MS4 Program is a required mandate that the Township must enforce from the United States Environmental Protection Agency (EPA) and the Pennsylvania Department of Environmental Protection (DEP).

Please mail or e-mail the completed form to:

Lower Allen Township
2233 Gettysburg Road
Camp Hill, PA 17011
Attn: Rebecca Davis, MS4 Coordinator
rdavis@latwp.org

If you have any questions regarding this correspondence please contact Rebecca Davis, MS4 Coordinator, at rdavis@latwp.org or 975-7575 ext. 1010.

Sincerely,

Rebecca L. Davis
Township MS4 Coordinator

RE: National Pollutant Discharge Elimination System (NPDES)
Municipal Separate Storm Sewer System (MS4) Permit

Stormwater Management Facilities and Best Management Practices (BMPs)
Maintenance and Monitoring Agreement
Operation and Maintenance Inspection Requirements

Dear Property Owner:

This letter is being sent to property owners in Lower Allen Township where Stormwater Management BMPs have been installed on the property. This is a reminder of the inspection and reporting requirements contained within the Stormwater Management Plan and the Maintenance and Monitoring Agreement attached to your property.

A blank copy of an Inspection Report template that can be used to fulfill these requirements is enclosed for your use. Please return the completed form by February 1, 2016 to:

Lower Allen Township
Attention: Community Development Department
2233 Gettysburg Road
Camp Hill, Pa. 17011

The requirements of this program are mandates from the U.S. Environmental Protection Agency and the Pa. Department of Environmental Protection that the Township is required to enforce.

Any questions regarding the Township's MS4 program can be directed to Daniel J. Flint, P.E., Township Engineer, at dflint@latwp.org or 975-7575 ext. 1101.

Rain Garden out front.

Description of BMP Operation and Maintenance Procedures

Initial Approval

In accordance with the requirement of the newly approved Stormwater Management Ordinance, all newly installed stormwater Best management Practices (BMPs) must have a recorded Operation and Maintenance (O&M) agreement. These agreements are held by the Township and are placed into a database for ongoing monitoring. In accordance with the Stormwater Management Ordinance, the ongoing inspection and maintenance of the installed BMPs is expected to be done by the Owner, at their expense.

Annual Activities

Every year the Township sends a letter out to all the BMP permit holders requesting that they inspect their installed BMPs, along with completing and returning the required forms. The Owners return their forms to the Township to document that the inspections were performed. This information is then attached to the MS-4 Annual Report.

The Township also has a program to perform the required inspection work upon the request of the Owner and at their expense.

STANDARD STORMWATER FACILITIES AND BEST MANAGEMENT PRACTICES (BMP) MAINTENANCE AND MONITORING AGREEMENT

THIS AGREEMENT, made and entered into this _____ day of _____, 20__, by and between _____ (hereinafter the "Owner"), and _____, Cumberland County, Pennsylvania, (hereinafter "Municipality");

WITNESSETH

WHEREAS, the Owner is the owner of certain real property identified as (*address)*_____, Tax Parcel Number_____, (hereinafter "Property").

WHEREAS, the Owner is proposing to make improvements to the Property; and

WHEREAS, the Drainage Plan, with Docket No. _____ (hereinafter "Plan") for the Property which is expressly made a part hereof, as approved or to be approved by the Municipality, provides for detention, retention, infiltration and/or treatment of stormwater within the confines of the Property; and

WHEREAS, the Municipality and the Owner, successors, heirs and assigns agree that the health, safety, and welfare of the public require that on-site stormwater management facilities and BMPs be constructed and maintained on the Property: and

WHEREAS, the Municipality requires, through the implementation of its Stormwater Management Ordinance, that stormwater management facilities and BMPs as shown on the Plan be constructed and adequately maintained by the Owner, successors, heirs and assigns.

NOW, THEREFORE, in consideration of the foregoing promises, the mutual covenants contained herein, and the following terms and conditions, the parties hereto agree as follows:

1. The on-site stormwater management facilities and BMPs shall be constructed by the Owner, successors, heirs and assigns, in accordance with the terms, conditions, details and specifications identified in the Plan.

2. The Owner, successors, heirs and assigns, shall maintain the stormwater management facilities and BMPs in good working condition, acceptable to the Municipality so that they are performing their design functions

3. The Owner, successors, heirs and assigns, hereby grant permission to the Municipality, its authorized agents and employees, upon presentation of proper identification, to enter upon the Property at reasonable times, and to inspect the stormwater management facilities and BMPs whenever the Municipality deems necessary. The purpose of the inspection is to assure safe and proper functioning of the facilities. The inspection shall cover the entire facilities, berms, outlet structures, pond areas, access roads, etc. When inspections are conducted, the Municipality shall give the Owner, successors, heirs and assigns, copies of

the inspection report with findings and evaluations. At a minimum, maintenance inspections shall be performed in accordance with the schedule specified in the BMP Operations and Maintenance Plan.

4. All reasonable costs for said inspections shall be borne by the Owner, successors, heirs and assigns, and payable to the Municipality.

5. The owner shall convey to the Municipality easements and/or rights-of-way to assure access for periodic inspections by the municipality and maintenance, if required.

6. In the event the Owner, successors, heirs and assigns, fail to maintain the stormwater management facilities and BMPs in good working condition acceptable to the Municipality, the Municipality shall give proper notice to Owner setting forth the specifics of such failure to maintain, the remediation required, and deadline to complete such action. After failure by the Owner to remedy within the specified time limit, the Municipality may enter upon the Property and take such necessary and prudent action to maintain said stormwater management facilities and BMPs and to charge the costs of the maintenance and/or repairs to the Owner, successors, heirs and assigns. This provision shall not be construed as to allow the Municipality to erect any structure of a permanent nature on the land of the Owner, outside of any easement rights that the Municipality may have. It is expressly understood and agreed that the Municipality is under no obligation to maintain or repair said facilities, and in no event shall this Agreement be construed to impose any such obligation on the Municipality.

7. The Owner, successors, heirs and assigns, will perform operation, maintenance and inspections in accordance with the BMP Operations and Maintenance Plan for the stormwater management facilities and BMPs including sediment removal as outlined on the approved Drainage Plan.

8. In the event the Municipality, pursuant to this Agreement, performs work of any nature, or expends any funds in performance of said work for labor, use of equipment, supplies, materials, and the like on account of the Owner's, successors', heirs' or assigns' failure to perform such work, the Owner, successors, heirs and assigns, shall reimburse the Municipality upon demand, within 30 days of receipt of invoice thereof, for all costs incurred by the Municipality hereunder. If not paid within said 30-day period, the Municipality may enter a lien against the property, including any and all properties when the owner is a Homeowners Association, in the amount of such costs, or may proceed to recover his costs through proceedings in equity or at law as authorized by law.

9. The Owner, successors, heirs and assigns, shall indemnify the Municipality and its agents and employees against any and all damages, accidents, casualties, occurrences or claims which might arise or be asserted against the Municipality for the construction, presence, existence or maintenance of the stormwater management facilities and BMPs by the Owner, successors, heirs and assigns.

10. In the event a claim is asserted against the Municipality, its agents or employees, the Municipality shall promptly notify the Owner, successors, heirs or assigns, and they shall

defend, at their own expense, any suit based on such claim. If any judgment or claims against the Municipality, its agents or employees shall be allowed, the Owner, successors, heirs and assigns shall pay all costs and expenses in connection therewith.

11. In the event of an emergency or the occurrence of special or unusual circumstances or situations, the Municipality may enter the Property, if the Owner is not immediately available, without notification or identification, to inspect and perform necessary maintenance and repairs, if needed, when the health, safety or welfare of the citizens is at jeopardy. However, the Municipality shall notify the Owner of any inspection, maintenance, or repair undertaken within five days of the activity. The Owner shall reimburse the Municipality for its costs.

12. It is agreed between the two entities known as Owner that they shall be bound jointly and severally by the terms, covenants and agreements herein.

13. Invalidation of any one of these provisions by judgement or court order shall in no wise affect any other provisions that shall remain in full force and effect.

This Agreement shall be recorded at the Recorder of Deeds Office in Cumberland County, Pennsylvania and shall constitute a covenant running with the Property and/or equitable servitude, and shall be binding on the Owner, administrators, executors, assigns, heirs and any other successors in interests, in perpetuity.

PUBLIC WORKS OPERATION & MAINTENANCE REPORT

PUBLIC WORKS PPC PLAN

LOWER ALLEN TOWNSHIP PUBLIC WORKS FACILITY

1400 SAINT JOHNS ROAD
CAMP HILL, PA. 17011

PREPAREDNESS, PREVENTION AND CONTINGENCY (PPC) PLAN

A. Description of Facility

1. Description of Activity

The activity on site consists of: a building that houses vehicles, equipment, office and maintenance space; an accessory storage building; a salt storage building; a vehicle fueling facility; and a paved area for yard waste recycling and bulk dumpsters.

2. Description of Existing Emergency Response Plans

The Township's existing all-hazards emergency response plan does not specifically address this site.

3. Material and Waste Inventory

Materials on site include the following: vehicle fuel (in permitted underground storage tanks); salt for road deicing (stored undercover in a building); non-reusable waste oil (stored outdoors in an underground tank); street maintenance materials (aggregate, sand, soil); yard waste (both pre and post processing); metal and bulk items in dumpsters.

4. Pollution Incident History

There is no record of previous pollution incidents at the site.

5. Implementation Schedule

The PPC Plan will be implemented in the month of March 2020, immediately upon completion of the plan update.

B. Description of Plan Implementation

1. Organizational Structure for Implementation

The PPC Plan will be implemented jointly by Bryan Harshbarger, Public Works Coordinator (PWC), and Daniel Flint, P.E., Township Engineer/Public Works Director. The PWC has responsibility for daily operations of the facility, and will insure that operations and processes are conducted in a manner consistent with best management practices. The PWC will also insure that the PPC Plan is followed in all operations that may affect items related to the Plan.

The PWC and Township Engineer will jointly be responsible for annual employee training, facility inspections and monitoring, and annual review of the PPC Plan for any needed modifications.

2. Emergency Coordinators

Primary Emergency Coordinator:

Bryan Harshbarger	Public Works Coordinator
717-975-7575	extension 2101
717-648-5273	cell

Secondary Emergency Coordinator

Thomas Stambaugh	Parks Superintendent
717-975-7575	extension 2102
717-903-2952	cell

3. Duties and responsibilities of the Coordinator

When there is an imminent or actual emergency situation, the Emergency Coordinator shall:

a. Immediately notify facility personnel.
b. Contact the County 911 Center.
c. When there is an emission, discharge, fire or explosion, identify the character, source, amount and extent of emitted or discharged materials.
d. Be available for coordination with responding emergency service personnel, if such services respond to an incident at the facility.
e. After an emergency, provide for treatment, storage, or disposal of residues and contaminated materials.
f. Within 15 days after an emergency incident, submit a report to the PaDEP including the following:
    1. Name, address, and phone number of individual filing the report.
    2. Name, address and phone number of the facility.
    3. Date, time and location of the incident.
    4. Description of the circumstances causing the incident.
    5. Description and estimated quantity by weight or volume of materials or wastes involved.
    6. Assessment of any contaminated land, water or air that occurred due to the incident.
    7. Estimated quantity and disposition of recovered materials or wastes that resulted from the incident.
    8. Description of actions to be taken to prevent a similar occurrence in the future.

4. Chain of Command

Persons to be notified in the event of an emergency or spill:

1.	Daniel Flint	Public Works Director/Township Engineer
	717.975.7575	extension 1101
	717.648.1679	cell
2.	Thomas Vernau	Township Manager
	717.975.7575	extension 1001
	717.648.1561	cell
3.	David Holl	Public Safety Director/Emergency Management Coordinator
	717.975.7575	extension 1601
	717-648-0558	cell

C. Spill Leak Prevention and Response

1. Pre-Release Planning

   Potential sources for accidental spills, leaks or leaching are described as follows:

   a. Vehicle fueling facility. All fuel is stored in permitted underground tanks. Vehicles are fueled at a covered facility. This facility is in an area that drains to the stormwater detention basin. Any spill in this area would flow into the basin.
   b. Non-reusable waste oil is stored in an underground waste oil tank outside the maintenance building. Any spill inside the building would pass through the building's oil separator with flow control.
   c. Salt. Road deicing salt is stored in a covered building. Loading operations occur in the area immediately in front of the building. Runoff in this area drains into a stormwater detention basin that has no discharge. Stormwater is slowly infiltrated into the groundwater, allowing salt to settle out and remain in the basin.

2. Material Compatibility

   None of the onsite materials are known to adversely react with each other.

3. Inspection and Monitoring Program

   a. Routine general inspections of the site occur on a daily basis.
   b. The underground fuel storage tanks are equipped with monitoring devices, and an alarm system is automatically activated. Inspections are conducted in accordance with the underground storage tank permit.
   c. Fuel dispensing equipment is inspected for proper operation.

4. Preventive Maintenance
   All vehicles and equipment that operate from the site are inspected and maintained through a preventive maintenance program run by the Township's Fleet Management division.

5. Housekeeping Program
   a. Materials other than those bulk materials previously listed are stored securely and neatly within the maintenance building.
   b. A conscious effort is made by all employees to handle materials with care to prevent spillage.
   c. In the event that an accidental spill or leak does occur, employees are advised to implement proper cleanup procedures as soon as possible.

6. Security
   a. Equipment is stored within the locked maintenance building during non-working hours.
   b. A locked gate secures the yard waste recycling storage and processing area during non-working hours.

7. External Factor Planning
   All materials are stored in such a manner that external factors such as power outages, storms, etc. would not cause a spill or leak.

8. Employee Training Program
   a. The Township Public Works department has a Safety Manual. All employees that work on site are trained in the safe performance of their work, in accordance with the Manual.
   b. Safety Meetings are periodically conducted with all Public Works employees to provide detailed training regarding specific operations.

D. Countermeasures

1. Countermeasures to be Undertaken
   a. In the event of an incident, employees will utilize the County 911 system to summon appropriate assistance.
   b. The Township has in place an All Hazards Emergency Response Plan. This plan will be activated through the Township Emergency Operations center on an as-needed basis.
   c. The All Hazards plan contains resource lists and contact information for resources that may be needed in the event of an incident at the facility.

2. Communications and Alarm Systems
   a. Employees maintain contact through the use of mobile and portable two-way radios. Notification of an emergency can be made to all employees using these radios.

3. Evacuation Plan
   Emergency exit plans are posted throughout the maintenance building in accordance with the International Fire Code.

4. Emergency Equipment Available for Response
   a. Portable fire extinguishers are located throughout the maintenance building, in accordance with the International Fire Code.
   b. Additional response equipment is available from the Public Safety Department, upon notification that such services are required.

E. Emergency Spill Control Network

1. Local Emergency Response Agencies
   Local fire, police, emergency medical and hazardous materials personnel are available for response, summoned through the County 911 system.

2. Notification Lists
   All required notification numbers for State, Federal and County agencies are available for contact through the County 911 Center at the time that an incident occurs.

F. Stormwater Management Practices

1. Traditional Stormwater Management
   a. Traditional stormwater management practices were designed into the original construction of the site. They have been maintained since completion of construction.
   b. The traditional stormwater management practices include grass swales and two stormwater detention basins.

G. Sediment and Erosion Prevention

1. Soil Erosion
   Design of the facility took into account topography and other factors that could contribute to soil erosion. There are no areas of the site that appear to have a high potential for significant soil erosion.

H. Certification Requirements for Non-Stormwater Discharges

This certifies that the outfall discharge point from the site was evaluated on _____ by Daniel J. Flint, P.E., Township Engineer, and that said visual evaluation concluded that there was no non-stormwater discharge from the facility.

_____ _____

Daniel J. Flint, P.E., Township Engineer Date

I. Signature

I certify under penalty of law and subject to the penalties of 18 Pa. C.S. Section 4904 (relating to unsworn falsification to authorities) that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I further acknowledge that the facility described herein is eligible for coverage under DEP's General Permit and that the best management practices, pollution prevention plans, and other control measures are designed, installed and maintained in accordance with the General Permit requirements and in compliance with the state water quality standards. I also acknowledge that any facility construction needed to comply with the General Permit requirements shall be designed, built, operated and maintained in accordance with operative laws and regulations. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
