Lower Allen Township

Can the Holiday Season Be Sustainable?

The holidays are a time to bring family and friends together to celebrate another year. Celebrations usually consist of food and gift exchanges. Consider the following to reduce your trash totter from overflowing:

- use washable dishes instead of paper
- consider biodegradable if you must use disposable plates and cups
- flatten and recycle cardboard at the Township drop off
- reduce food waste by composting food scraps
- Use natural centerpieces
- consider experience gifts or memberships
- start decluttering now
- use washable cleaning cloths instead of paper towels
- use cloth napkins
- ask family to bring their own containers for leftovers - 200 million pounds of turkey is tossed at Thanksgiving each year!
